2. INTUITIVE PARKING ASSIST

1. INTUITIVE PARKING ASSIST

The distance to obstacles measured by the sensors is communicated via the display and a buzzer when parallel parking or maneuvering into a garage. Always check the surrounding area when using this system.

**TYPES OF SENSORS**

1. Front corner sensors
2. Front center sensors
3. Rear corner sensors
4. Rear center sensors

**SETTING THE INTUITIVE PARKING ASSIST MODE**

1. Press the menu switch.
   - The multi-information display will change modes to electronic features control mode.
2. Press the “$” or “$” switch above and below the “ENTER” switch until the intuitive parking assist-sensor mark appears in the multi-information display.
3. Press the “ENTER” switch to select “ON”.
   - The intuitive parking assist-sensor indicator will be displayed.

- Pressing the switch turns the intuitive parking assist-sensor on or off.
  - To turn on: Press the switch. The buzzer sounds to inform the driver that the system is operational.
  - To turn off: Press the switch again.
- Press the menu switch to change to the normal display.
2. INTUITIVE PARKING ASSIST

DISPLAY
When the sensors detect an obstacle, the graphic is shown on the multi-information display and navigation display according to position and distance to the obstacle.

MULTI-INFORMATION DISPLAY

1. Front corner sensors operation
2. Front center sensors operation
3. Rear corner sensors operation
4. Rear center sensors operation

NAVIGATION DISPLAY
- When the vehicle is moving forward
  - The graphic is automatically displayed when an obstacle is detected. The screen can be set so that the graphic is not displayed. (See page 410.)
- When the vehicle is moving backward
  - A simplified image is displayed on the right upper corner of the screen when an obstacle is detected.

When the vehicle is moving forward
- The graphic is automatically displayed when an obstacle is detected. The screen can be set so that the graphic is not displayed. (See page 410.)
THE DISTANCE DISPLAY AND BUZZER

When a sensor detects an obstacle, the direction of and the approximate distance to the obstacle are displayed and the buzzer sounds.

</table>

**INFORMATION**

- Settings (e.g. buzzer volume) can be changed. (See page 410.)
## 2. INTUITIVE PARKING ASSIST

### DETECTION RANGE OF THE SENSORS

<table>
<thead>
<tr>
<th></th>
<th>Detection Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Approximately 1.6 ft. (50 cm)</td>
</tr>
<tr>
<td>2</td>
<td>Approximately 3.3 ft. (100 cm)</td>
</tr>
<tr>
<td>3</td>
<td>Approximately 4.9 ft. (150 cm)</td>
</tr>
</tbody>
</table>

- The diagram shows the detection range of the sensors. Note that the sensors cannot detect obstacles that are extremely close to the vehicle.
- The range of the sensors may change depending on the shape of the object etc.

### SENSOR DETECTION INFORMATION

Certain vehicle conditions and the surrounding environment may affect the ability of a sensor to correctly detect an obstacle. Particular instances where this may occur are listed below.

- There is dirt, snow or ice on a sensor.
- A sensor is frozen.
- A sensor is covered in any way.
- The vehicle is leaning considerably to one side.
- On an extremely bumpy road, on an incline, on gravel, or on grass
- The vicinity of the vehicle is noisy due to vehicle horns, motorcycle engines, air brakes of large vehicles, or other loud noises producing ultrasonic waves.
- There is another vehicle equipped with parking assist-sensors in the vicinity.
- A sensor is coated with a sheet of spray or heavy rain.
- The vehicle is equipped with a fender pole or radio antenna.
- Towing eyelets are installed.
- A bumper or sensor receives a strong impact.
- The vehicle is approaching a tall or right-angled curb.
- In harsh sunlight or intense cold weather.
- A non-genuine Lexus suspension (lowered suspension etc.) is installed.

- In addition to the examples above, there are instances in which, because of their shapes, signs and other objects may be judged by a sensor to be closer than they are.
The shape of the obstacle may prevent a sensor from detecting it. Pay particular attention to the following obstacles:

- Wires, fences, ropes, etc.
- Cotton, snow and other materials that absorb sound waves
- Sharply-angled objects
- Low obstacles
- Tall obstacles with upper sections projecting outwards in the direction of your vehicle

**CAUTION**

- Caution when using the intuitive parking assist-sensor
- Observe the following precautions. Failing to do so may result in the vehicle being unable to be driven safely and possibly cause an accident.
  - Do not use the sensor at speeds in excess of 6 mph (10 km/h).
  - Do not attach any accessories within the sensor range.
- Even though sensors which are functioning properly continue to detect obstacles, never use the intuitive parking assist if one more sensor(s) may be malfunctioning.

**NOTICE**

- Notes when washing the vehicle
- Do not apply intensive bursts of water or steam to the sensor area.
- Doing so may result in the sensor malfunctioning.
- As the intuitive parking assist-sensor might be malfunctioning in the following cases, have it checked by your Lexus dealer.
  - The graphic which indicates that an obstacle has been detected does not come on and a beep does not sound even when the intuitive parking assist mode is turned on.
  - The graphic which indicates that an obstacle has been detected comes on despite no obstacle around the vehicle.
  - If your vehicle has been involved in an accident.
  - If the graphic which indicates that an obstacles has been detected remains on without a beeping sound.
INTUITIVE PARKING ASSIST-SENSOR FAILURE WARNING

If an error is detected when the intuitive parking assist-sensor is turned on, the vehicle symbol comes on or flashes with beeping sounds.

INFORMATION

● The intuitive parking assist-sensor failure warning display is not given in either of the following operations:
  • Changing to another screen
  • Turning off the main switch for the intuitive parking assist-sensor

WHEN THE SENSOR IS MALFUNCTIONING

Multi-information display

INFORMATION

● If this message appears, have the intuitive parking assist-sensor checked by your Lexus dealer.

WHEN SNOWFLAKES OR MUD GETS ON THE SENSORS

Multi-information display

INFORMATION

● If this message appears, remove the foreign matter from the sensor.
● If the failure warning does not go off even after the foreign matter is removed, the intuitive parking assist-sensor may be malfunctioning. Have it checked by your Lexus dealer.

CERTIFICATION

This ISM device complies with Canadian ICES-001.
● Cet appareil ISM est conforme à la norme NMB-001 du Canada.

FOR VEHICLES SOLD IN CANADA

For vehicles sold in Canada.
2. INTUITIVE PARKING ASSIST

2. INTUITIVE PARKING ASSIST SETTING

The volume of the beeps, turning on or off of the display, etc. can be set.

1. Press the “MENU” button on the Remote Touch.

2. Select “Setup”.

3. Select “Vehicle”.

4. Select “LEXUS Park Assist”.

5. Select the desired button.

6. Select “Save”.

SETTING AN ALERT VOLUME

The alert volume can be adjusted.

1. Press the “MENU” button on the Remote Touch, then select “Setup”.

2. Select “Vehicle” on the “Setup” screen.

4. Select the desired screen button.

- The volume has 5 levels, increasing with higher value.

5. Select “Save”.

The volume of the beeps, turning on or off of the display, etc. can be set.

1. Press the “MENU” button on the Remote Touch.

2. Select “Setup”.

3. Select “Vehicle”.

4. Select “LEXUS Park Assist”.

5. Select the desired button.

6. Select “Save”.

The alert volume can be adjusted.

1. Press the “MENU” button on the Remote Touch, then select “Setup”.

2. Select “Vehicle” on the “Setup” screen.

4. Select the desired screen button.

- The volume has 5 levels, increasing with higher value.

5. Select “Save”.
### SETTING A PARKING SONAR DISPLAY

Parking sonar display can be set to on or off.

1. Press the "MENU" button on the Remote Touch, then select "Setup".
2. Select "Vehicle" on the "Setup" screen.
3. Select "LEXUS Park Assist" on the "Vehicle Settings" screen.
4. Select "Display Off" to turn off the parking sonar display.
5. Select "Save".

**INFORMATION**

- Although "Display Off" is selected, if the obstacle is detected during the intuitive parking assist monitoring, the warning appears on the right top of the screen.

### SETTING A DISPLAY AND TONE INDICATION

Front and back sensors display and tone indication can be set.

1. Press the "MENU" button on the Remote Touch, then select "Setup".
2. Select "Vehicle" on the "Setup" screen.
3. Select "LEXUS Park Assist" on the "Vehicle Settings" screen.
4. Select "Front" or "Rear".
5. Selecting "Front" or "Rear" to switch the distance for the front or back sensors display and tone indication, from long distance to short distance, or from short distance to long distance.

5. Select "Save".
2. INTUITIVE PARKING ASSIST
