Entering and Exiting

Keys ................................................................. 7
Smart Access System with Push-button .............. 8
Start ................................................................... 8
Anti-theft System ............................................. 9
**Keys**

**n Electronic key**

- Locks and unlocks the doors
- Opens the trunk
- Starts and stops the engine

**n Mechanical key**

- Locks and unlocks the doors
- Opens the trunk
- Locks and unlocks the glove box

The mechanical key is stored inside the electronic key. To extract the key, release the latch and pull.

**n Wireless remote control**

1. Locks the doors
2. Unlocks the doors
3. Opens the trunk
4. Sounds the alarm

(To stop the alarm, push any button on the wireless remote control.)

The wireless remote control can also be used to open the windows and moon roof. To do so, simply press and hold button.
Smart Access System with Push-button Start

The smart access system with push-button start allows you to enter and exit the vehicle or start the engine by simply carrying the electronic key in your pocket or bag. For details on starting the engine, see page 17.

- **Entering the vehicle**
  - To unlock the vehicle, simply grasp the door handle.

- **Exiting the vehicle**
  - To lock the vehicle, press the button on the door handle.

- **Opening the trunk**
  - To open the trunk, press the button.

For details on what to do when the electronic key battery becomes discharged, see page 52.
Anti-theft System

The anti-theft system includes the following features to help protect your vehicle from theft.

**Engine immobilizer system**

The engine immobilizer system prevents the engine from being started in the event that an attempt is made to start the vehicle using an unregistered key. The security indicator light flashes to indicate that the system is set.

**Alarm**

When forcible entry is detected, the alarm attracts attention to the vehicle by sounding the horn and flashing the exterior lights. When all the doors are locked, the security indicator light comes on and begins to flash after approximately 30 seconds to indicate that the system is armed.

To stop the alarm, start the engine or unlock the doors or trunk using the entry function or the wireless remote control. (The alarm will stop after several seconds.)

**Steering lock**

The steering lock is engaged when the driver’s door is opened with the engine switch OFF.
Before Driving

Seats ........................................................................... 11
Driving and Seat Position Memory System... 12
Head Restraints ..................................................... 13
Seatbelts................................................................... 13
Outside Rear View Mirrors ............................... 14
Inside Rear View Mirror...................................... 14
Steering Wheel...................................................... 15
Odometer/Trip Meter and Trip Meter Reset
Buttons ........................................................................ 15
Seats

- **Adjusting seat position**
  1. Moves the seat forward
  2. Moves the seat backward

- **Adjusting seatback angle**
  1. Tilts the seatback forward
  2. Reclines the seatback

- **Adjusting the seat cushion**
  1. Raises and lowers the front of the cushion
  2. Raises and lowers the entire seat

- **Adjusting the lumbar support**
  1. Firmer
  2. Softer
Driving and Seat Position Memory System (If Equipped)

The seats can be returned to a previously set position by simply pressing a button. The position of the steering wheel and the outside rear view mirrors is adjusted along with the driver’s seat. Positions can be conveniently stored for the vehicle’s primary drivers and passengers.

### Setting memory positions

While holding down the SET button, press and hold one of the memory buttons (1, 2, or 3) until you hear a beep.

The current position of the driver’s or front passenger’s seat, the outside rear view mirror and the steering wheel (driver’s side only) are stored.

### Recalling memory positions

Press one of the memory buttons (1, 2, or 3).

### Linking driving position memory with door unlock operation (driver’s seat only)

While holding down the desired memory button, press and hold either the \( \text{\text{lock}} \) or \( \text{\text{unlock}} \) button on the wireless remote control until you hear a beep.

Linking driving position memory to the door unlock operation allows the memory position to be recalled automatically when the driver’s door is opened. (The linked function does not operate if the driver’s door is unlocked using the mechanical key or manually from inside the vehicle.)
### Head Restraints

**Driver’s seat**

1. Height adjustment: head restraint height can be adjusted automatically along with the seat position adjustment. (→ P.11)
2. Horizontal adjustment: grip head restraint and twist to tilt forward or backward.

**Front and rear passenger’s seat**

1. Height adjustment: to raise the head restraint, pull it upward. To lower the head restraint, push it down while pressing the lock release button.
2. Horizontal adjustment (Except rear center seat): grip head restraint and twist to tilt forward or backward.

### Seatbelts

**Adjusting shoulder belt height (front seats only)**

To raise: pull the anchor upward.  
To lower: depress the button and push the anchor down.

**Seatbelt comfort guides (outboard rear seats only)**

If the shoulder belt fits close to the neck, slide the comfort guide forward.
Outside Rear View Mirrors

Adjusting the mirrors

1. To select the mirror you wish to adjust (L or R), use the select switch.
2. To adjust mirror angle, use the control switch.

The mirrors will automatically angle downwards when the vehicle is reversing. To disable this function, set the select switch in the neutral position (neither L nor R selected).

Folding the mirrors

To fold the mirrors back, press the button. Press the button again to return them to the extended position.

Inside Rear View Mirror

The mirror uses a sensor to detect light from vehicles behind and automatically reduces glare.

To turn AUTO mode ON/OFF, press the AUTO button. The indicator comes on when AUTO mode is turned ON.
Steering Wheel

1. Up
2. Down
3. Away from the driver
4. Toward the driver

The steering wheel retracts automatically when the engine switch is turned OFF to allow for easy exit and entry. The steering wheel returns automatically to its previously set position when the engine switch is switched to ACC or IG-ON mode.

Odometer/Trip Meter and Trip Meter Reset Buttons

1. Changes the display.
2. Resets the trip meter driving range to 0.
When Driving

Starting ................................................................. 17
Transmission .......................................................... 18

Cruise Control ....................................................... 22
Dynamic Radar Cruise Control ............................... 23
AVS (Adaptive Variable Suspension) ....................... 24
TRAC/VSC Off Mode ............................................. 24
Starting

With the electronic key on your person, the engine can be started by simply pressing the engine switch, while depressing the brake pedal. (The mechanical key cannot be used to start the engine.)

**Starting the engine**

1. Make sure the parking brake is engaged and the shift lever is in P.
2. Depress the brake pedal. The engine switch indicator light turns green.
3. Press the engine switch.

**Stopping the engine**

1. Engage the parking brake and shift the shift lever to P.
2. Press the engine switch.

**Changing power modes**

To change power modes without turning on the engine, press the engine switch without depressing the brake pedal. The modes can be changed in the following order:

- OFF mode (Indicator light: off)
- ACC mode (Indicator light: amber)\[←
- IG-ON mode (Indicator light: amber)\[→
Transmission

- Shift positions

<table>
<thead>
<tr>
<th>P</th>
<th>Park*</th>
</tr>
</thead>
<tbody>
<tr>
<td>R</td>
<td>Reverse</td>
</tr>
<tr>
<td>N</td>
<td>Neutral (drive not engaged)</td>
</tr>
<tr>
<td>D</td>
<td>Drive</td>
</tr>
<tr>
<td>S</td>
<td>S mode</td>
</tr>
</tbody>
</table>

*: The engine can only be started in P.

The vehicle can only be shifted out of P when the engine switch is in IG-ON mode and the brake pedal is depressed.

- S mode

S mode allows the driver to select the shift range manually based on driving conditions.

1. Shift the shift lever to S.
2. To upshift: shift the shift lever toward “+”.
   To downshift: shift the shift lever toward “-“.

The selected shift range is displayed on the instrument cluster.

Parking Brake

To set: firmly depress the parking brake pedal.

To release: depress the parking brake pedal again.
Multi-information Display

The multi-information display shows information about your vehicle, including the items shown below.

**Display information**

- Trip information
  - Outside temperature
  - Driving range
  - Average fuel consumption after refueling
  - Current fuel consumption
- Intuitive parking assist information (if equipped)
- Dynamic radar cruise control settings (if equipped)
- Warning messages

**Changing the display**

Trip information items can be switched by pressing the DISP switch.

When using the intuitive parking assist or dynamic radar cruise control, the appropriate display is shown on the screen.

If a problem is detected in any of the vehicle’s systems, a warning message is shown on the multi-information display.
### Turn Signal Lever

1. Left turn signal
2. Right turn signal

To signal a lane change, move the lever partway and hold.

### Emergency Flasher Switch

Engaging the emergency flasher switch causes all the turn signal lights to flash.

### Mode Select Switch

Use the mode select switch to select the driving mode that best suits the driving and road conditions.

1. **Power mode**
   - For more powerful acceleration and uphill driving.
2. **Normal mode**
3. **Snow mode**
   - For starting or accelerating on snow-covered roads or other slippery surfaces.

An indicator comes on when in power or snow mode.
Intuitive Parking Assist (If Equipped)

The system uses a screen display and buzzer to inform the driver of obstacles near the vehicle when parking or driving at low speed.

Turning the system on and off

The system can be turned on and off using the intuitive parking assist switch.

Screen display

- Multi-information display

Sensors are used to detect obstacles near the vehicle. The distance to a detected obstacle is shown by the number of indicator bars.

1. Indicates obstacles detected by the dual sensors
2. Indicates the steering maneuvers required to avoid an obstacle.
3. Indicates obstacles detected by the rear corner sensors
4. Indicates obstacles detected by the back sensors

- Touch screen
Cruise Control
Cruise control allows the driver to maintain a constant speed without having to operate the accelerator pedal. Use for highway driving or when traveling at a constant speed for long periods of time.

n Setting the speed
1. Press the ON-OFF button. The system will turn on.
2. Accelerate or decelerate to the desired speed, and then push the lever down. This sets the speed in the cruise control memory.

n Adjusting the speed setting
To increase speed: push the lever up.
To decrease speed: push the lever down.
Release the lever when the desired speed is reached.

n Canceling
To temporarily cancel the cruise control, pull the lever.
To turn the system off, press the ON-OFF button.
## Dynamic Radar Cruise Control (If Equipped)

Dynamic radar cruise control supplements conventional cruise control with a vehicle-to-vehicle distance control mode.

### Cruise control display

Cruise control settings are shown on the multi-information display.

1. Vehicle ahead indicator
2. Vehicle-to-vehicle distance
3. Preset speed

### Vehicle-to-vehicle distance control mode

1. Press the ON-OFF button.
2. Accelerate or decelerate to the desired speed, and then push the lever down.
3. Following distance can be adjusted using the vehicle-to-vehicle distance control switch.

### Conventional (constant speed) cruise control mode

1. Press the ON-OFF button.
2. Push the lever forward and hold for at least one second.
3. Accelerate or decelerate to the desired speed, and then push the lever down.

### Adjusting the speed setting

**To increase speed:** push the lever up.

**To decrease speed:** push the lever down.

Release the lever when the desired speed is reached.

### Canceling

To temporarily cancel the dynamic radar cruise control, pull the lever.

To turn the system off, press the ON-OFF button.

---

The vehicle-to-vehicle distance control mode maintains the preset cruising speed as long as no vehicle is detected ahead.
**AVS (Adaptive Variable Suspension) (If Equipped)**

AVS controls the suspension and steering wheel operation according to the road and driving conditions.

1. **Sports mode**  
   Suitable for meandering mountainous driving or high speed driving.

2. **Normal mode**  
   Suitable for normal driving.

**TRAC/VSC Off Mode**

This switch turns off the traction control system or vehicle stability control system. Use this switch if the wheels get stuck in snow, mud etc.

To turn off TRAC: Push the VSC OFF switch briefly. The slip indicator light will come on.

To turn off VSC: Push and hold the VSC OFF switch for 3 seconds when the vehicle is not moving. The slip indicator light and VSC OFF indicator light will come on.

Push the button again to turn the system back on.
Rain and Night Driving

Headlights ............................................................... 27
Fog Lights .............................................................. 28
Windshield Wipers and Washers .................... 28
Headlight Cleaner ................................................. 29
Rear Window and Outside Rear View
Mirror Defoggers ................................................. 29
Instrument Panel Light Control ...................... 29
**Headlights**

1. The side marker, parking, tail, license plate and instrument panel lights turn on.
2. The headlights and all lights listed above turn on.
3. The headlights and parking lights turn on/off automatically in accordance with ambient light levels.

To engage the high beams, push the lever forward. To flash the high beams, pull the lever and hold.

**n AFS (Adaptive Front lighting System)**

AFS improves visibility on curves by automatically adjusting the horizontal orientation of the headlights in accordance with vehicle speed and the degree of the tire angle that are controlled by steering input.

The system can be turned on and off using the AFS OFF switch.
**Fog Lights**

The fog lights can be used only when the headlights (low beam) are on.

---

**Windshield Wipers and Washers**

**Intermittent wiper with interval adjuster (if equipped)**

- **MIST**: operates once
- **INT**: intermittent operation*
- **LO**: low speed
- **HI**: high speed

*: Wiper interval can be adjusted by turning the band.

To spray washer fluid, pull the lever.

The wipers will operate automatically.

**Rain-sensing windshield wipers (if equipped)**

- **MIST**: operates once
- **AUTO**: automatic operation*
- **LO**: low speed
- **HI**: high speed

*: Sensitivity can be adjusted by turning the band.

To spray washer fluid, pull the lever.

The wipers will operate automatically.
Headlight Cleaner

The headlight cleaner can be used only when the engine switch is in IG-ON mode and the headlights are on.

Rear Window and Outside Rear View Mirror Defoggers

To defog the rear window and outside mirrors, press the button.

Press again to cancel.

The system turns off automatically after 15 minutes.

Instrument Panel Light Control

1. Brighter
2. Darker
3. Maximum brightness
4. Changes the cluster glass tint

*: Various adjustments can be made in each mode.
**: The optional Lexus genuine satellite tuner and antenna allows you to receive and play XM satellite radio broadcasts. (Subscription is required.)
For details, refer to the Owner’s Manual.
n Listening to the radio

Press \text{AM-SAT} or \text{FM} to choose an AM or FM band.

Tune to your desired station. For tuning adjustment and further information, refer to the Owner's Manual.

n Playing the cassette player

You have 2 methods to play your cassette player.

1. Insert a cassette tape into the tape slot.
2. Press \text{Tape} with the tape inserted.
For further information, refer to the Owner's Manual.

n Playing the CD/DVD player

You have 2 methods to play your CD/DVD player.

1. Press \text{LOAD} and insert a disc into the disc slot.
2. Press \text{Disc} with the disc inserted.
For further information, refer to the Owner's Manual.
Hands-free System

To use the hands-free system, you must register your Bluetooth® phone in the system. For details, see the Owner’s Manual.

Making a call

1. Press INFO.

2. Touch .

3. Inputting the phone number.
   For another way of calling, see the Owner’s Manual.

4. Touch or press on the steering switch.
Hanging up the phone

Touch 📞 or press 📞 on the steering switch.

Ashtrays

Front

To remove the ashtray, push the release lever.

Rear

To remove the ashtray, press down on the plate and lift the ashtray out.
Seat Heaters / Seat Heaters and Ventilators (If Equipped)

- **Seat heaters**
  
  Turn the dial toward 1.

- **Seat heaters and ventilators**
  
  Seat heaters: turn the dial toward 1.
  Ventilators: turn the dial toward 2.
Console Box

- Front console box
  To open, slide and lift the armrest with the knob pulled up.

- Overhead console box
  To open, press the lid.

There is a power outlet located in the front console box.

### Glove Box

1. **Open**: press the button.
2. **Lock**
3. **Unlock**

The glove box can be locked and unlocked using the mechanical key.

### Cup Holders

#### Front

To open, press down on the front of the lid.

#### Rear

To open, press in and release the rear cup holder on the rear center armrest.
**Interior Lights**

1. ON
2. OFF
3. The light comes on if a door is opened.

---

**Rear Sunshade**

To raise the rear sunshade, press the switch. Press the switch again to lower it.

The sunshade automatically lowers to ensure visibility when reversing.

---

**Compass (If Equipped)**

To display the compass, press and hold the AUTO button for 3 or more seconds.

To cancel the display, press and hold the AUTO button again for 3 or more seconds.
Luggage Mat

Pull the lever upwards when lifting the luggage mat up.

The lever can be hooked on the edge of the trunk.

Lexus Link System (If equipped)

The Lexus Link System is a communication service that uses the GPS (Global Positioning System) data and cellular service to provide you with safety, security and convenience. Button operation and voice commands are used to operate the system. To operate the system, follow the voice guidance instructions.

Buttons

1. Voice keypad button
   Sends number tones to an automated phone system for example to access voicemail, during a phone call

2. Volume control
   Adjusts your Lexus Link System audio volume

3. Phone button
   • Makes or answers a phone call using the hands-free personal calling service
   • Ends a call

4. SERVICES button
   • Contacts the Lexus Link Call Center for information, directions or other services
   • Records a conversation for later playback
Emergency button
Makes a priority call to the Lexus Link Call Center

Services
The Lexus Link System offers the following services. For details about the services and subscription, refer to the Owner’s Manual or call the Lexus Link Call Center at 1-800-25-LEXUS (1-800-255-3987) (toll-free).

- Airbag deployment notification
  If an airbag deploys, an emergency call is automatically placed to the Lexus Link Call Center with your vehicle’s location. You do not need to press any buttons.

- Emergency assistance
  When you press the Emergency button, a priority call is placed to the Lexus Link Call Center with your vehicle’s location. At the Call Center, the Lexus Link Advisor can determine your vehicle’s location, communicate with you, and, if appropriate, contact the nearest emergency service provider.

- Stolen vehicle location assistance
  If you vehicle is stolen, call the Lexus Link Call Center and then select the option for Lexus Link.

- Remote horn/light and remote door lock/unlock
  The remote operations are performed by contacting the Lexus Link Call Center from the outside of the vehicle. When necessary, call the Lexus Link Call Center and the select the option for Lexus Link.

- Advisor record
  You can record a conversation with the Lexus Link Advisor.

- Personal calling
  A hands-free personal calling feature can be added to the Lexus Link System as an option.

- Other services
  Press the SERVICES button in the vehicle or call the Lexus Link Call Center and then select the option for Lexus Link. The services provided will depend on the service plan level.

The system is only operational in GPS (Global Positioning System) and cellular coverage areas.

If the electronic key battery becomes discharged

- **Unlocking and locking the doors**

To unlock or lock the vehicle, use the mechanical key. The mechanical key is stored inside the electronic key.

1. Unlocks
2. Locks

- **Starting the engine**

1. Depress the brake pedal.
2. Hold the electronic key close to the engine switch (within 0.4 in. [10 mm]), making sure that the button side of the key is facing toward you.
3. Press the engine switch within 5 seconds after the buzzer sounds, keeping the brake pedal depressed.

For instructions on replacing the electronic key battery, refer to the Owner’s Manual. If you need further assistance, contact your Lexus dealer.
What to do if ...

If the engine doesn't start

Make sure that the correct operating procedures have been followed.

**Brake pedal**

Make sure that the brake pedal is firmly depressed when attempting to start the engine. (→ P.17)

**Steering wheel lock**

Make sure that the steering wheel lock is released.

To release the steering wheel lock, gently turn the wheel left or right while pressing the engine switch. (→ P.9)

If the engine still does not start, see the Owner’s Manual for more information or contact your Lexus dealer.
## Electronic Key Alarm

The electronic key alarm uses an alarm and warning messages to indicate that the electronic key has been used improperly. Take appropriate measure in response to any warning messages that are displayed. In some cases, an alarm may sound without an accompanying warning message. If so, follow the correction procedure in the table below.

<table>
<thead>
<tr>
<th>Alarm</th>
<th>Situation</th>
<th>Correction procedure</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exterior alarm sounds once for 2 seconds</td>
<td>Tried to lock the doors using the entry function while the electronic key is still inside the passenger compartment</td>
<td>Retrieve the electronic key from the passenger compartment and lock the doors again.</td>
</tr>
<tr>
<td></td>
<td>Tried to exit the vehicle with the electronic key and lock the doors without first turning the engine switch OFF</td>
<td>Turn the engine switch OFF and lock the doors again.</td>
</tr>
<tr>
<td></td>
<td>Closed the trunk while the electronic key is still inside and all doors are locked</td>
<td>Retrieve the electronic key from the trunk and close the trunk lid.</td>
</tr>
<tr>
<td>Exterior alarm sounds once for 10 seconds</td>
<td>Tried to lock the vehicle using the entry function while a door is open</td>
<td>Close all of the doors and lock the doors again.</td>
</tr>
<tr>
<td>Interior alarm sounds continuously</td>
<td>Tried to open the door and exit the vehicle without shifting the shift lever to P</td>
<td>Shift the shift lever to P.</td>
</tr>
<tr>
<td>Interior alarm rings continuously</td>
<td>Switched to ACC mode while the driver’s door is open (Opened the driver’s door when the engine switch is in ACC mode.)</td>
<td>Turn the engine switch OFF and close the driver’s door.</td>
</tr>
<tr>
<td></td>
<td>Turned the engine switch OFF while the driver’s door is still open</td>
<td>Close the driver’s door.</td>
</tr>

Customizing Your Lexus

Your vehicle includes a variety of electronic features that can be personalized to your preferences. Programming these preferences requires specialized equipment and may be performed by an authorized Lexus dealership. Some function settings are changed simultaneously with other functions being customized. Contact your Lexus dealer for further details.
