Hybrid System

Hybrid System .......................................................... 9
Energy Monitor / Consumption Screens ...... 10
Hybrid System

Your vehicle is a hybrid vehicle. It has characteristics different from conventional vehicles. Be sure you are closely familiar with the characteristics of your vehicles, and operate with care. The hybrid system combines a gasoline engine and an electric motor (traction motor) according to driving conditions, improving fuel efficiency and reducing exhaust emissions. For details, refer to the “Owner’s Manual”.

Hybrid System Indicator

Displays the output and regenerative level of the hybrid system.
- By keeping the indicate within the Eco area, more fuel-efficient driving can be achieved.
- The Charge area indicates regeneration status.

Regenerative braking

The motor generator converts kinetic energy to electric energy when:
- The accelerator pedal is released.
- The brake pedal is depressed with the shift lever in D or S.

Sounds and vibrations specific to a hybrid vehicle

There may be no engine sounds or vibrations even though the vehicle is able to move. Always put the shift lever in P when parked. The following sounds or vibrations may occur when the hybrid system is operating, and are not a malfunction:
- Motor sounds may be heard from the engine compartment.
- Sounds may be heard from the hybrid battery (traction battery) under the rear seat when the hybrid system starts or stops.
- Sounds from the hybrid system may be heard when the back door is open.
- Sounds may be heard from the hybrid transmission when the engine is started or stopped, or while the engine is idling.
- Engine sounds may be heard when accelerating sharply.
- Sounds may be heard due to regenerative braking when the brake pedal is depressed and accelerator is loosened.
- Vibrations may be felt when the gasoline engine starts or stops.
- Cooling fan sounds may be heard from the air intake vents under the rear seat.
Energy Monitor / Consumption Screens
You can view the status of your hybrid system on the multi-information display and the Navigation system screen.

■ Energy monitor

The energy monitor can be displayed on both the Navigation system screen and the multi-information display.

● How to display on the Navigation system screen (→P.45):

Press the “MENU” button, and select  after that select .

If the Consumption or Past Record screen is displayed, select the Energy and push the “ENTER” button.

● How to display on the multi-information display:

Toggle the “ENTER” switch on the steering wheel upward or downward through several times to select the energy monitor display.

- The flow of energy is displayed on the Navigation system screen. (The rear electric motor is equipped AWD models only.)
  - Amber: gasoline energy
  - Yellow: electrical energy
  - Green: energy recovery

  A green arrow appears when regenerative braking occurs.

- The flow of energy is indicated by the movement of the arrows on the multi-information display.

- The battery display acts as an 9-step indicator of the hybrid battery level.

The displayed energy flow, battery level, etc. will change in response to the current driving conditions.
Consumption (with navigation system)

Press the “MENU” button and select , after that select and push the “ENTER”.

If the screen does not appear, select the and push the “ENTER” button.

1. Fuel consumption in the past 30 minutes
2. Regenerated energy in the past 30 minutes
   One symbol indicates 50 Wh. Up to 4 symbols are shown.
3. Cruising range

Past record (with navigation system)

Press the “MENU” button and select , after that select and push the “ENTER”.

If the screen does not appear, select the and push the “ENTER” button.

1. Best past fuel consumption
2. Average fuel consumption

Hybrid warning message

A message is automatically shown when a malfunction occurs in the hybrid system or an improper operation is attempted.

If a warning message is shown on the multi-information display, read the message and follow the instructions.
# Keys

## Electronic key

Smart access system with push-button start (→P.14, 23)

*: If equipped

## Mechanical key

- Locks and unlocks the doors
- Locks and unlocks the glove box

The mechanical key is stored inside the electronic key. To extract the key, release the latch and pull, or if equipped with a card key, press the button and pull.

## Wireless remote control

1. Press: locks all doors
2. Press once: unlocks the driver’s door
   Press twice: unlocks all doors
3. Press and hold: opens and closes the back door*
4. Press and hold: sounds the alarm
   (Use the alarm to attract attention to the vehicle in order to help deter break-ins. To stop the alarm, press any button on the wireless remote control.)

*: If equipped
Smart Access System with Push-button Start

The smart access system with push-button start allows you to enter and exit the vehicle or start the hybrid system by simply carrying the electronic key in your pocket or bag. For details on starting the hybrid system, see page 23.

■ Entering the vehicle

To unlock the vehicle, simply grasp either of the front door handles.

■ Exiting the vehicle

To lock the vehicle, touch the lock sensor on either of the front door handles.

■ Locking and unlocking the back door

1 Locks
2 Unlocks

For details on what to do when the electronic key does not operate properly, see page 107.
Theft Deterrent System

The theft deterrent system includes the following features to help protect your vehicle from theft.

■ Immobilizer system

The immobilizer system prevents the hybrid system from being started in the event that an attempt is made to start the vehicle using an unregistered key. The security indicator light flashes to indicate that the system is set.

■ Alarm

The system sounds the alarm and flashes lights when an attempt to steal the vehicle is detected.

To set the alarm: close the doors and hood, and lock all doors. The security indicator light comes on to indicate that the alarm is in its preparation state. When the indicator light begins to flash, the system is armed.

To deactivate or stop the alarm: start the hybrid system, or unlock the doors.

■ Steering lock

The steering wheel locks when the “POWER” switch is turned OFF and the driver’s door is opened.

When the steering lock cannot be released, the green indicator light on the “POWER” switch will flash and a message will be shown on the multi-information display. To release it, press the “POWER” switch while gently turning the wheel left or right.
Before Driving

Front Seats ............................................................... 17
Head Restraints ..................................................... 18
Seat Belts ............................................................. 19
Outside Rear View Mirrors .............................. 20
Anti-glare Inside Rear View Mirror................. 21
Steering Wheel ...................................................... 21
Front Seats

- **Adjusting seat position**
  - 1 Moves the seat forward
  - 2 Moves the seat backward

- **Adjusting seatback angle**
  - 1 Tilts the seatback forward
  - 2 Reclines the seatback

- **Adjusting the seat cushion**
  - 1 Raises and lowers the front of the cushion
  - 2 Raises and lowers the entire seat

- **Adjusting the lumbar support**
  - 1 Firmer
  - 2 Softer
■ Adjusting the seat cushion length (if equipped)

1. Lengthens the seat cushion
2. Shortens the seat cushion

Head Restraints

1. To raise: push the head restraint upward.
2. To lower: push the head restraint down while pressing the lock release button.
Seat Belts

- Adjusting shoulder belt height (front seats)

1 To raise: push the anchor upward.
2 To lower: depress the button and push the anchor down.

- Seat belt comfort guide (outside rear seats)

If the shoulder belt sits close to the neck, pass the seat belt through the comfort guide.
Outside Rear View Mirrors

■ Adjusting the mirrors

1. Selects a mirror to adjust ("L": left or "R": right)
2. Adjusts the mirror up, down, in, or out using the switch

The mirrors will automatically angle downwards when the vehicle is reversing. This function only operates when either "L" or "R" mirror select button is selected.

■ Folding and extending the mirrors (if equipped)

1. Using the switch
2. Setting the automatic mode

Automatic mode allows the folding or extending of the mirrors to be linked to operations, such as locking/unlocking of the doors.
**Anti-glare Inside Rear View Mirror**

The anti-glare mirror uses a sensor to detect light from vehicles behind and automatically reduces glare.

To turn automatic mode on/off, press the “AUTO” button.
The indicator comes on when automatic mode is turned on.

**Steering Wheel**

<table>
<thead>
<tr>
<th>1</th>
<th>Up</th>
</tr>
</thead>
<tbody>
<tr>
<td>2</td>
<td>Down</td>
</tr>
<tr>
<td>3</td>
<td>Away from the driver</td>
</tr>
<tr>
<td>4</td>
<td>Toward the driver</td>
</tr>
</tbody>
</table>

The steering wheel retracts automatically when the “POWER” switch is turned OFF to allow for easy exit and entry. The steering wheel returns automatically to its previously set position when the “POWER” switch is switched to ACCESSORY or ON mode.

Vehicles with driving position memory: When exiting the vehicle, the steering wheel retracts only when the driver’s seat movement is in a setting other than off and the driver seat belt has been unfastened.

When entering the vehicle, fastening the driver seat belt returns the steering wheel to its previously set position.

</table>
**Power (Ignition) Switch**

With the electronic key on your person, the hybrid system can be started by simply pressing the “POWER” switch, while depressing the brake pedal. (The mechanical key cannot be used to start the hybrid system.)

### Starting the hybrid system

Make sure the parking brake is set and the shift lever is in P.

1. Depress the brake pedal. The “POWER” switch indicator light turns green.
2. Press the “POWER” switch. When the “READY” indicator changes from flashing to on, the hybrid system is properly started.

### Stopping the hybrid system

1. Set the parking brake and shift the shift lever to P.
2. Press the “POWER” switch.

### Changing “POWER” switch mode

To change the “POWER” switch mode without turning on the hybrid system, press the “POWER” switch without depressing the brake pedal. The mode can be changed in the following order:

- **OFF** (Indicator light: off)
- **ACCESSORY mode** (Indicator light: amber)
- **ON mode**
### Transmission

#### Shift positions

- **P** Park
- **R** Reverse
- **N** Neutral (drive not engaged)
- **D** Drive
- **S** S mode

The vehicle can only be shifted out of P when the “POWER” switch is in ON mode and the brake pedal is depressed.

#### S mode

S mode allows the driver to select the shift range manually based on driving conditions.

1. Shift the shift lever to S.

2. **To upshift**: shift the shift lever toward “+”.
   **To downshift**: shift the shift lever toward “-”.

The selected shift range is displayed on the instrument cluster.
■ EV drive mode

In EV drive mode the electric motor (traction motor), powered by the hybrid battery (traction battery), is used to drive the vehicle. This mode allows you to drive in residential areas late at night or in indoor parking lots etc. without concern for noises and gas emissions.

1. Press the menu switch
2. Press the “ENTER” switch upwards or downwards until “EV” appears.

3. Press the “ENTER” switch to select on/off.

Press the menu switch to change to the normal display.

Depending on the situation, it may not be possible to turn on EV drive mode.
Intuitive Parking Assist (If Equipped)

The system uses a screen display and buzzer to inform the driver of obstacles near the vehicle when parking or driving at low speed.

Owners of models equipped with a navigation system should refer to the “Navigation System Owner’s Manual”.

■ Turning the system on and off

1. Press the menu switch
2. Press the “ENTER” switch upwards or downwards until the Intuitive parking assist mark appears in the multi-information display.
3. Press the “ENTER” switch to select on/off.

Press the menu switch to change to the normal display.

■ Screen display

Sensors are used to detect obstacles near the vehicle. The distance to a detected obstacle is shown by the number of indicator bars.

1. Indicates obstacles detected by the corner sensors
2. Indicates obstacles detected by the back sensors
Multi-information Display and Switch

The multi-information display shows information about your vehicle, including the items shown below.

■ Multi-information switches

1. **Menu switch**
   Changes modes to electronic features control mode, customization mode or back to normal display mode.

2. **“ENTER” switch**
   Changes trip information items. This switch is also used to turn on/off electronic features controls and to change customization settings.

</tbody>
</table>

*: If equipped

- When using intuitive parking assist or dynamic radar cruise control the appropriate display is shown on the screen.
- In the event that a problem is detected in any of the vehicle’s systems, a warning message is shown on the multi-information display.
Eco Driving Indicator Light

Environment-friendly driving
During environment-friendly acceleration operation (Eco driving), Eco Driving Indicator Light will turn on.
If the accelerator pedal is depressed more than necessary, the indicator will turn off.

Parking Brake

To set the parking brake: firmly depress the parking brake pedal.

To release the parking brake: depress the parking brake pedal again.
**Turn Signal Lever**

1. Right turn signal
2. Left turn signal

To signal a lane change, move the lever partway and hold.

**Emergency Flasher Switch**

Engaging the emergency flasher switch causes all the turn signal lights to flash. The emergency flashers can be operated even when the “POWER” switch is OFF.
Cruise Control

Cruise control allows the driver to maintain a constant speed without having to operate the accelerator pedal. Use for highway driving or when traveling at a constant speed for long periods of time.

Setting the speed

1. Press the “ON-OFF” button. The system will turn on.
2. Accelerate or decelerate to the desired speed, and then push the lever down. This sets the speed in the cruise control memory.

Canceling

1. To temporarily cancel the cruise control, pull the lever toward you. To resume the cruise control, push the lever up.
2. To turn the system off, press the “ON-OFF” button.

Adjusting the speed setting

To increase speed: push the lever up.
To decrease speed: push the lever down.

Release the lever when the desired speed is reached.
Dynamic Radar Cruise Control (If Equipped)

Dynamic radar cruise control supplements conventional cruise control with a vehicle-to-vehicle distance control mode.

1. Indicator (vehicle-to-vehicle distance control mode)
2. Indicator (constant vehicle speed control mode)
3. Display
4. Distance switch
5. Cruise control switch

Cruise control display

Cruise control settings are shown on the multi-information display.

- Vehicle ahead indicator
- Vehicle-to-vehicle distance
- Preset speed

Vehicle-to-vehicle distance control mode

1. Press the “ON-OFF” button.
2. Accelerate or decelerate to the desired speed, and then push the lever down. Vehicle-to-vehicle distance can be adjusted using the distance switch.

Constant speed control mode

1. Press the “ON-OFF” button.
2. Push the lever forward and hold for at least one second.
3. Accelerate or decelerate to the desired speed, and then push the lever down.
■ Canceling

1. To temporarily cancel the dynamic radar cruise control, pull the lever toward you. To resume the cruise control, push the lever up.
2. To turn the system off, press the “ON-OFF” button.

■ Adjusting the speed setting

To increase speed: push the lever up.
To decrease speed: push the lever down.

Release the lever when the desired speed is reached.

The vehicle-to-vehicle distance control mode maintains the preset cruising speed as long as no vehicle is detected ahead.
Head-up Display (If Equipped)

The head-up display can be used to project vehicle speed and other information onto the windshield.

Head-up display main switches

1. Pressing the button turns the Head-up display on/off and changes the vehicle speed display units.
2. Adjusting display contrast
3. Adjusting display position

Head-up display contents

1. Audio display
2. Turn-by-turn navigation*
3. Vehicle speed display
4. Dynamic radar cruise control (if equipped)

- When using audio system or navigation system the appropriate display is shown on the screen.
- Warning messages will be displayed when necessary.
- Pressing and holding the head-up display main switch button for more than 2 seconds changes the display to audio display on/off mode. Press the head-up display main switch button to turn the audio display on/off.
- The head-up display may seem dark and hard to see when viewed through sunglasses. Adjust the brightness of the head-up display or remove your sunglasses.

*: Refer to “Navigation System Owner’s Manual”.

When Driving

Before Driving

Rain and Night Driving

Opening and Closing

What to do if...
**Electronically Modulated Air Suspension (If Equipped)**

The electronically modulated air suspension allows the driver to control vehicle height in order to adjust for driving conditions. Select the desired height with the height select switch.

### Selecting a height mode

To select a height mode, press \( \wedge \) or \( \vee \) on the height select switch for approximately 1 second.

- **HI mode**: for driving on bumpy roads
- **N mode**: for ordinary driving
- **LO mode**: for sporty driving
- **Luggage mode**: for easy luggage loading/unloading

### Turning the height control on and off

To cancel the height control, press the height control off button. A message will appear on the multi-information display, and the vehicle height is fixed.

To turn the height control on, press the button again. When the vehicle’s speed exceeds 19 mph (30 km/h), the height control turns on automatically.
Rain and Night Driving

Headlights............................................................... 37
Automatic High Beam.......................................... 39
Windshield Wipers and Washer ..................... 40
Rear Window Wiper and Washer .................... 42
Rear Window and Outside Rear View
Mirror Defoggers............................................... 43
Headlights

U.S.A

1. **DRIVE**
   - Turn off the daytime running light system.

2. **AUTO**
   - The headlights and parking lights turn on/off automatically in accordance with ambient light levels.

3. **OFF**
   - The instrument panel, side marker, parking, tail and license plate lights turn on.

4. **COMBINATION**
   - The headlights and all lights listed above turn on.

Canada

1. **OFF**
   - Off

2. **AUTO**
   - The headlights and parking lights turn on/off automatically in accordance with ambient light levels.

3. **OFF**
   - The instrument panel, side marker, parking, tail and license plate lights turn on.

4. **COMBINATION**
   - The headlights and all lights listed above turn on.
To engage the high beams, push the lever forward. To flash the high beams temporarily, pull the lever toward you.

**AFS (Adaptive Front-lighting System) on and off (if equipped)**

AFS improves visibility at intersections and on curves by automatically adjusting the direction of light axis of the headlights according to vehicle speed and the degree of the tire angle that are controlled by steering input.

1. Press the menu switch.
2. Press the “ENTER” switch upwards or downwards until “AFS” appears.
3. Press the “ENTER” switch to select on/off.

Press the menu switch to change to the normal display.
Automatic High Beam (If Equipped)

The Automatic High Beam uses an in-vehicle camera sensor to assess the brightness of streetlights, the lights of oncoming and preceding vehicles, etc., and automatically turns high beam on or off as necessary.

1. Headlight switch in “AUTO” position.

2. Push the lever away from you.

When all of the following conditions are fulfilled, high beam will be automatically turned on (after approximately 1 second):

- Vehicle speed is above approximately 20 mph (32 km/h).
- The area ahead of the vehicle is dark.
- There are no oncoming or preceding vehicles with headlights or tail lights turned on.
Windshield Wipers and Washer

- Intermittent wiper with interval adjuster (if equipped)

Intermittent operation: Wiper interval can be adjusted by turning the band.

To spray washer fluid, pull the lever. The wipers will operate automatically.
**Rain-sensing windshield wipers (if equipped)**

1. Off
2. **AUTO** Automatic operation
3. **▼** Low speed
4. **▼** High speed
5. **▲** Single wipe

Sensitivity can be adjusted by turning the band.

To spray washer fluid, pull the lever. The wipers will operate automatically.

Remote Touch (If Equipped)

The Remote Touch can be used to operate the navigation screens and configure settings.

Basic operation

1. Remote Touch knob
   Use this knob to move the cursor and select items on the screen. Feedback force, pointer shape, and on or off of selection sounds can be changed. Refer to the “Navigation System Owner’s Manual”.

2. “ENTER” button
   Push this button to confirm a selection.

3. “MAP/VOICE” button
   Push this button to display the vehicle’s current position.

4. “▲・▼” button
   Push these buttons to change map scale and scroll through lists.

5. “MENU” button
   Push this button to display the “Start” (menu) screen.

6. “DISP” button
   Push this button to adjust picture quality.
### Start

Push the “MENU” button on the Remote Touch to display the “Start” screen.

1. Destination
2. Info.Phone
3. Setup
4. Climate (→P.66)
5. Audio (→P.62)

### Display

Push the “DISP” button on the Remote Touch to show the “Display” screen.

1. Turns the rear seat entertainment system on and off
2. Displays the screen in “Day Mode” with the headlight switch on
3. Turns the screen off
4. Adjust contrast
5. Adjust brightness
6. Adjust color tone
7. Adjust color
### Screen scroll operation

To scroll over the map, place the pointer in a position near the desired destination and then press and hold the “ENTER” button of the Remote Touch.

- **1** Indicates the street name, city name, etc. for the selected point
- **2** Displays various information for the selected point (if available)
- **3** Indicates the distance from the current position to the pointer
- **4** Switches the screens
- **5** Zooms in on the map
- **6** Zooms out on the map

### Setting a route

While route guidance is operating, you can change the route using the following method.

Select **Route**.

The following settings can be accessed:

- **1** Detour setting
- **2** Route preferences
- **3** Route overview
- **4** Pause and resume route guidance

Some functions are unavailable while the vehicle is in motion. Refer to the “Navigation System Owner’s Manual”.
Navigation System (If Equipped)

■ Register home

1. Push the \( \text{MENU} \) button on the Remote Touch. Please refer to P.45 for the Remote Touch operation.

2. Select \( \text{Setup} \).

3. Select \( \text{Navi.} \).

4. Select \( \text{Home} \).

5. Select \( \text{Set Home} \).

6. Select \( \text{Address} \).

7. Select \( \text{City} \).

8. Input a city name and select \( \text{OK} \).

9. Select the button of the desired city name from the displayed list.

10. Input the street name and select \( \text{OK} \).

11. When the desired street name is found, select the corresponding button.

12. Input a house number and select \( \text{OK} \).

13. Select \( \text{Enter} \).

14. Select \( \text{OK} \).
Destination input — Search by address

Select by city name

1. Push the \textit{Menu} button on the Remote Touch. Please refer to P.45 for the Remote Touch operation.

2. Select \textit{Destination}.

4. Select \textit{City}. 

5. Input a city name and select \textit{OK}. 

6. Select the button of the desired city name from the displayed list. 

7. Input the street name and select \textit{OK}. 

8. When the desired street name is found, select the corresponding button. 

9. Input a house number and select \textit{OK}. 

10. Select \textit{Go to}. 

11. Select \textit{OK}. 

\textbf{STEP 2} 

\textbf{STEP 3} 

\textbf{STEP 4} 

\textbf{STEP 5}
## Destination input — Search by address

### Select by street address

1. Push the `MENU` button on the Remote Touch. Please refer to P.45 for the Remote Touch operation.

2. Select .

3. Select .

4. Select .

5. Input a house number and select OK.

6. Input the street name and select OK.

7. When the desired street name is found, select the corresponding button.

8. Input a city name and select OK.

9. Select the button of the desired city name from the displayed list.

10. Select Go to .

11. Select OK.
**Destination input — Search points of interest by name**

1. Push the **Menu** button on the Remote Touch. Please refer to P.45 for the Remote Touch operation.

2. Select ![Destination](image).

3. Select ![Point of Interest](image).

4. Select ![Name](image).

5. Input the name of the point of interest and select ![OK](image).

6. Select the button of the desired destination.

7. Select ![Go to](image).

8. Select ![OK](image).
- **Destination input — Search points of interest by category**

1. Push the *button on the Remote Touch. Please refer to P.45 for the Remote Touch operation.

2. Select .

3. Select .

4. Select .

5. Select .

6. Select the button of the desired destination and set the search point.

7. Select the desired point of interest category.

8. Select the button of the desired item.

9. Select .

10. Select .
Destination input —— Search points of interest by telephone number

1. Push the button on the Remote Touch. Please refer to P.45 for the Remote Touch operation.
2. Select .
3. Select .
4. Select .
5. Input a telephone number and select .
6. Select .
7. Select .
Hands-free System For Cellular Phone (with navigation system)

**Bluetooth® phone pairing**

Compatible Bluetooth®-equipped phones can be connected to the vehicle, enabling hands-free operation. Please refer to the cellular phone manufacturer’s user guide for pairing procedures, or go to “www.lexus.com/bluetooth” for more phone information.

To use a Bluetooth® phone, it is necessary to first register it in the system.

2. Select [Setup].

3. Select [Phone].

4. Select [Manage Phone].

5. Select [Bluetooth] to display the screen for connecting Bluetooth.

6. Enter the passcode displayed on the screen into the phone. Refer to the cellular phone user’s manual for cellular phone operation.

7. When the connection is completed, **Bluetooth connection successful** will appear and push the [MENU] button.
Phonebook transfer

1. Push the button on the Remote Touch. Please refer to P.45 for the Remote Touch operation.

2. Select .

3. Select .

4. Select .

5. Select .

6. Select .

7. Transfer the phonebook data to the system using the cellular phone. Refer to the cellular phone user’s manual for cellular phone operation.

Phonebook transfer may not be possible depending on phone model.
Registering a voice tag

1. Push the button on the Remote Touch. Please refer to P.45 for the Remote Touch operation.

2. Select .

3. Select .

4. Select .

5. Select .

6. Select .

7. Select the data you want to register.

8. Select . and record a voice tag.

9. Select .
Registering a speed dial

1. Push the button on the Remote Touch. Please refer to P.45 for the Remote Touch operation.
2. Select .
3. Select .
4. Select .
5. Select .
6. Select .
7. Select the data you want to register.
8. Select the desired phone number.
9. Select the button you want to register in.
10. The registration completion message is displayed on the screen.
### Calling by name

You can call by saying a voice tag registered in the phonebook. For setting the voice recognition, refer to the “Navigation System Owner’s Manual”. Only when English is selected as the system language can you call by saying a name registered in the phonebook without registering any voice tags beforehand. (Names in the phonebook work as voice tags.)

1. Press the speech command switch.
2. Follow the voice guidance and say “Phone”.
3. Follow the voice guidance and say “Dial by name”.
4. Follow the voice guidance and say a contact name.
5. Follow the voice guidance and say the type of phone number (home, mobile, work, other).
6. Follow the voice guidance and say “Dial”.

Pressing this switch turns the speech command system on. Say a command after the beep.
■ Calling by speed dial

1. Press .
2. Select .
3. Select the desired number to call.
■ Receiving a call

1. When a call is received, this screen is displayed with a sound.

2. Push on the steering wheel to talk on the phone.

To ignore the call, push on the steering wheel.
**XM® NavWeather**

The XM® NavWeather service that allows the navigation system to display weather information on the map is available if your satellite radio tuner can receive weather information. For details, refer to the “Navigation System Owner's Manual”.

To receive the XM® NavWeather service, a subscription to the XM® Satellite Radio with NavWeather is necessary.

The XM® NavWeather is available in the contiguous 48 U.S. states. For details about the XM® NavWeather service coverage area, refer to www.xmradio.com.

- **How to activate the XM® NavWeather service**

  To receive the XM® NavWeather service, it is necessary to activate the service. To activate the service, an extra fee is required in addition to subscription fees for the XM® Satellite Radio. For details about service and activation, call XM® Listener Care Center at 1-877-515-3987.

  Customers should have their radio ID ready; the radio ID can be found by selecting “channel 000” on the radio.

  XM® Satellite Radio has the responsibility for all fees and service, they are subject to change.

  The following operations can be performed.

- **Show XM® NavWeather information**
- **Weather information**
- **Weather warnings**
Audio System (with navigation system)

Audio control screen

Follow the procedure below to display the audio control screen.

1. Press the “MENU” button on the Remote Touch. Please refer to P.45 for the Remote Touch operation. The “Start” screen will be displayed.

2. Using the Remote Touch, select “Audio” and press the “ENTER” button.

Basic operation

1. Sound quality modes

2. Audio sources
   - AM·FM: AM radio/FM radio
   - SAT: Satellite radio
   - DISC: DVD player (if equipped)
   - CD: CD player (if equipped)
   - AUX·USB: Auxiliary audio device/USB memory player/iPod® player/Bluetooth® audio

3. Power/Volume
■ Radio

Portable Audio Device Adapters

These adapters can be used to connect a portable audio device and listen to it through the vehicle's speakers.

1. Slide the armrest while pulling up the lever, and lift the armrest. Remove the upper tray.

2. Remove the lower tray and open the cover.

1. USB adapter (if equipped)
2. AUX adapter
Power Outlets

- 12VDC

  ► Inside the console
  1. Slide the armrest while pulling up the lever, and lift the armrest. Remove the upper tray.
  2. Remove the lower tray. Designed for use with car accessories.

  ► Luggage compartment
  Designed for use with car accessories.

- 120VAC (if equipped)

  1. Main switch
     To use the power outlet, turn on the main switch.
  2. Power outlet socket
Garage Door Opener

The garage door opener can be programmed to operate garage doors, gates, entry doors, door locks, home lighting systems, security systems, and other devices.

The garage door opener (HomeLink® Universal Transceiver) is manufactured under license from HomeLink®.

The HomeLink® compatible transceiver in your vehicle has 3 buttons which can be programmed to operate 3 different devices.

■ Programming HomeLink®

1. Hold your hand-held transmitter within 3 inches of the HomeLink® buttons.
2. Press and hold down the desired HomeLink® button.
3. For U.S.A. owners:
   While pressing the HomeLink® button, press and hold down the button on the hand-held transmitter until the indicator light changes from a slow to a rapid flash.
For Canadian owners:
   While pressing the HomeLink® button, repeatedly press and release (cycle) the button on the hand-held transmitter every 2 seconds until the indicator light changes from a slow to a rapid flash.

If your garage door is of the rolling code type:
4. Press the training button on the motor-head unit in your garage.
5. Press and hold the vehicle’s programmed HomeLink® button for 2 seconds and release it. Repeat this step once again.
   If the door does not open, press and release the same button once again.
■ Programming other devices

For U.S.A. owners:
   To program an entry gate, see the Owner’s Manual.
   To program other devices, contact your Lexus dealer.

For Canadian owners:
   To program all other devices, follow the same procedure as for garage door programming.

■ Operating HomeLink®

Press the appropriate HomeLink® button. The indicator light should come on.
Rear Seat Entertainment System

When a personal audio-video equipment is connected to the A/V input adapter, rear passengers can enjoy different audio source for each display (limited to a combination of video mode and one other audio source).

**Examples of audio sources selected on right and left displays**

Right side rear seat display

Video mode
## Location of the components

1. Power outlet
2. A/V input adapter
3. Headphone volume control dials and headphone jacks
4. Display
5. Power outlet main switch
6. Front audio system and DVD player
7. Remote control

## Remote Controller

1. Controller buttons for the left side display
2. Controller buttons for the right side display
3. Turns display off
4. Selects the display to be operated (for some controller buttons only)
**Headphone jacks**

1. To use the headphones, connect them to the jack
2. To adjust the volume

**Changing the speaker output**

To listen to a different audio source through each rear seat headphone, turn “Speaker Output” off.

1. Press **SOURCE** on the controller
2. Select **Speaker Output** to turn speaker output off

(On) The audio source selected for the front audio system can be heard.

(Off) A different audio source can be heard through each rear seat headphone.
■ Loading a disc

1. Press $\text{LOAD}$.
2. Insert a disc.

■ Change the source

Press $\text{SOURCE}$ on the controller and select the desired audio source.

1. Turning on the audio source selection screen
2. Inputting the selected icon
3. Selecting an icon
Using the DVD player

Playing a DVD video/audio

Press DVD on the controller and select a disc.

1. Turning on the menu disc
2. Playing/pausing
3. Fast forward
4. Control icon screen
5. Rewind
6. Turning on the title selection screen
7. Select a chapter/track/fast forward/rewind
8. Disc select
Press DVD on the controller and select a disc.

1. Select a chapter/track/fast forward/rewind
2. Fast forward
3. Rewind
4. Disc select

Playing an audio CD/CD text

Press DVD on the controller and select a disc.
Playing a CD with MP3/WMA file

Press **DVD** on the controller and select a disc.

1. **Folder select**
2. **Fast forward**
3. **Rewind**
4. **File select**
5. **Disc select**
Using the radio

Press **SOURCE** on the controller and select **FM** or **SAT**.

1. Station select
2. Radio tuner
■ Using the video mode

Press VIDEO.

■ Using the adapter

Open the cover

The A/V input adapter is composed of 3 input adapters.

Yellow: Image input adapter
White: Left channel audio input adapter
Red: Right channel audio input adapter

Door Locks

- **Locking the vehicle from inside**
  - **Inside lock button**
    - 1 Locks
    - 2 Unlocks
  - **Door lock switch**
    - Operates all door locks/unlocks.
    - 1 Locks
    - 2 Unlocks

- **Locking the vehicle from outside**
  - Using the entry function or wireless remote control (→P.13, 9)

- **Rear door child-protector lock**
  - Pushing down the switch prevents the rear doors from being opened from the inside.
  - Always set the child protector locks when children are seated in the rear seat.
Power Windows

1 Power window switches
   - To open: press the switch.
   - To close: pull the switch up.
   Fully pulling up and releasing the switches causes the windows to close fully. Fully pressing down and releasing the switches causes the windows to open fully.

2 Window lock switch
   The window lock switch disables the operation of passenger and rear window switches.
Moon Roof (If Equipped)

■ Opening and closing

1 Opens
   The moon roof stops slightly before the fully opened position.
   To fully open, press the switch again.

2 Closes
   To stop partway, press the switch lightly.

■ Tilt up and down

1 Tilts up

2 Tilts down
   To stop partway, press the switch lightly.

Opening and Closing

Fuel Tank Cap

Press the fuel filler door opener.

Slowly remove the cap by turning it counterclockwise.
After the cap is removed, it can be hung on the inside of the fuel filler door.

Hood

Pull the hood release lever.

Insert your fingers under the hood, pull the hood catch and lift the hood.
Back Door

- **Back door opener button**
  To open the back door, push up the opener button and raise the door.

- **Power back door switches (with power back door)**
  - **Instrument panel**
    To open or close the back door, press the switch.
  - **Back door**
    To close the back door, press the switch.
  - **Wireless remote control** (→ P.13)
■ Back door closer (with power back door)
If the back door is left slightly open, it will close automatically.

■ Turning the power back door system on and off (with power back door)

To disable the system, turn off the main switch in the glove box.

1 ON
2 OFF

When the power back door system is disabled, the back door cannot be opened using the wireless remote control or power back door switch.
### List of Warning/Indicator Lights

**Stop the vehicle immediately. Continuing to drive the vehicle may be dangerous.**

- **Brake system warning light**
  - (U.S.A.)
  - (Canada)

**Stop the vehicle immediately.**

- **Charging system warning light**

**Have the vehicle inspected immediately.**

What to do if...

Hybrid System

*1: If equipped

*2: It also turn on due to natural causes such as natural air leaks or tire inflation pressure changes caused by temperature (the status of the full-sized spare tire, if equipped, is also checked). Adjust the tire inflation pressure.
What to do if ...

**If the electronic key does not operate properly**

- **Unlocking and locking the doors**
  
  To unlock or lock the vehicle, use the mechanical key (driver’s door only). The mechanical key is stored inside the electronic key.
  
  1. Locks
  2. Unlocks

- **Starting the hybrid system**
  
  1. Depress the brake pedal.
  2. Touch the Lexus emblem side of the electronic key to the “POWER” switch.
  3. Press the “POWER” switch within 10 seconds of the buzzer, keeping the brake pedal depressed.

*: If equipped

If the electronic key battery becomes depleted, replace it with a new battery. For instructions on replacing the battery, refer to the Owner’s Manual. If you need further assistance, contact your Lexus dealer.
If the hybrid system doesn't start

Make sure that the correct operating procedures have been followed.

- **Brake pedal**

  Make sure that the brake pedal is firmly depressed when attempting to start the hybrid system.

- **Steering wheel lock**

  Make sure that the steering wheel lock is released.

  To release it, press the “POWER” switch while gently turning the wheel left or right.

If the hybrid system still does not start, see the Owner’s Manual for more information or contact your Lexus dealer.
Your Lexus dealer
