Keys

■ Electronic key

Smart access system with push-button start (→ P. 9, 11)
*: If equipped

■ Mechanical key

- Locks and unlocks the doors
- Locks and unlocks the glove box

The mechanical key is stored inside the electronic key. To extract the key, release the latch and pull or if equipped with a card key, press the button and pull.

■ Wireless remote control

1. Press: locks all doors
   Check that the door is securely locked.
2. Press once: unlocks the driver’s door
3. Press twice: unlocks all doors
4. Press and hold: opens and closes the back door
5. Press and hold: sounds the alarm
   (Use the alarm to attract attention to the vehicle in order to help deter breaks-ins. To stop the alarm, press any button on the wireless remote control.)
Smart Access System with Push-button Start
The smart access system with push-button start allows you to enter and exit the vehicle or start the engine by simply carrying the electronic key in your pocket or bag. For details on starting the engine, see page 11.

■ Entering the vehicle
To unlock the vehicle, simply grasp the door handle.

■ Exiting the vehicle
To lock the vehicle, press the button on the door handle.
Check that the door is securely locked.
To close the windows and moon roof, press and hold the button.

■ Locking and unlocking the back door
1 Lock
Check that the door is securely locked.
2 Unlock

For details on what to do when the electronic key does not operate properly, see page 76.
Theft Deterrent System

The theft deterrent system includes the following features to help protect your vehicle from theft.

■ Immobilizer system

The immobilizer system prevents the engine from being started in the event that an attempt is made to start the vehicle using an unregistered key. The security indicator light flashes to indicate that the system is set.

■ Alarm

The system sounds the alarm and flashes light when an attempt to steal the vehicle is detected.

To set the alarm: close the side doors, back door and hood, and lock all doors. The indicator light comes on to indicate that the alarm is in its preparation state. When the indicator light begins to flash, the system is armed.

To deactivate or stop the alarm: start the engine, or unlock the doors using the entry function or the wireless remote control.

■ Steering lock

The steering lock is engaged when the driver’s door is opened with the “ENGINE START STOP” switch OFF.

When the steering lock cannot be released, the green indicator light on the “ENGINE START STOP” switch will flash and a message will be shown on the multi-information display. To release it, press the “ENGINE START STOP” switch while gently turning the wheel left or right.
### Engine (Ignition) Switch

With the electronic key on your person, the engine can be started by simply pressing the "ENGINE START STOP" switch, while depressing the brake pedal.
(The mechanical key cannot be used to start the engine.)

#### Starting the engine

1. Make sure the parking brake is engaged and the shift lever is in "P".
2. Depress the brake pedal. The "ENGINE START STOP" switch indicator light turns green.
3. Press the "ENGINE START STOP" switch.

#### Stopping the engine

1. Engage the parking brake and shift the shift lever to "P".
2. Press the "ENGINE START STOP" switch.

#### Changing "ENGINE START STOP" switch modes

To change "ENGINE START STOP" switch modes without turning on the engine, press the "ENGINE START STOP" switch without depressing the brake pedal. The modes can be changed in the following order:

- OFF (Indicator light: off)
- ACCESSORY mode (Indicator light: amber) → IGNITION ON mode (Indicator light: amber)
Automatic Transmission

Shift positions

- P: Park*
- R: Reverse
- N: Neutral (drive not engaged)
- D: Drive
- S: "S" mode

*: The engine can only be started in "P".

The vehicle can only be shifted out of "P" when the "ENGINE START STOP" switch is in IGNITION ON mode and the brake pedal is depressed.
Operating the paddle shift switch in “D” position (if equipped)

Operating the paddle shift switches allows shift ranges to be selected to suit the driving conditions.

1. Pull the “-” paddle shift switch towards you to activate.
   The selected shift range is displayed on the instrument cluster.

2. Higher shift range:
   Pull the “+” paddle shift switch toward you

2. Lower shift range:
   Pull the “-” paddle shift switch toward you

- Pulling and holding the “+” paddle shift switch for a certain period of time allows you to return to normal “D” position driving.
- In any of the following condition, shift range selection in the “D” position will be automatically deactivated:
  • When the vehicle comes to a stop
  • If the accelerator pedal is depressed for more than a certain period of time in one range
Changing shift ranges in “S” mode

Operating the shift lever or paddle shift switches allows shift ranges to be selected to suit the driving conditions.

1. Shift the shift lever to "S".
2. To upshift: Shift the shift lever toward “+”.
   To downshift: Shift the shift lever toward “-”.
   The selected shift range is displayed on the instrument cluster.

1. Shift the shift lever to “S”.
   The selected shift range is displayed on the instrument cluster.

2. To upshift:
   Shift the shift lever toward “+” or pull the “+” paddle shift switch toward you
   To down shift:
   Shift the shift lever toward “-” or pull the “-” paddle shift switch toward you
Use the mode select switch to select the driving mode that best suits the driving and road conditions.

1. **Power mode**
   - For more powerful acceleration and uphill driving.

2. **Normal mode**
   - For normal driving.

3. **“2nd STRT” (second start) mode**
   - For starting or accelerating on snow-covered roads or other slippery surfaces.

An indicator comes on when in power or second start mode.
Multi-information Display

The multi-information display shows information about your vehicle, including the items shown below.

### Display information

- Trip information
  - Average vehicle speed
  - Driving distance
  - Driving range
  - Average fuel consumption
  - Current fuel consumption
- Outside temperature
- Speedometer
- Turn-by-turn navigation
- Front tire angle
- Intuitive parking assist display (if equipped)
- Dynamic radar cruise control settings (if equipped)
- 4-Wheel AHC display
- Multi-terrain Select display
- Crawl Control display
- Shift position and shift range
- Tire inflation pressure
- Warning messages

### Changing the display

Trip information items can be switched by pressing the “DISP” switch.

- When using the intuitive parking assist or dynamic radar cruise control, the appropriate display is shown on the screen.
- If a problem is detected in any of the vehicle’s systems, a warning message is shown on the multi-information display.
**Eco Driving Indicator**

1. Eco Driving Indicator Light
   During Eco-friendly acceleration (Eco driving), Eco Driving Indicator Light will turn on.

2. Eco Driving Indicator Zone Display
   Suggests Zone of Eco driving with current Eco driving ratio based on acceleration.

3. Zone of Eco driving

4. Eco driving ratio based on acceleration
   If the vehicle exceeds Zone of Eco driving, the right side of Eco Driving Indicator Zone Display will blink and Eco Driving Indicator Light will turn off.

**Turn Signal Lever**

1. Right turn signal
2. Left turn signal
3. Lane change to the right (move the lever part-way and then release it)
   The right hand signals will flash 3 times.
4. Lane change to the left (move the lever part-way and then release it)
   The left hand signals will flash 3 times.
**Four-wheel Drive System**

Use these switches to select following transfer and center differential modes.

► **Four-wheel drive control switch**

To select “L4” mode, push down and shift the switch backward. To select “H4” mode, shift the switch forward.

1. **H4**: Normal driving
2. **L4**: Driving requiring maximum power and traction

► **Center differential lock/unlock switch**

Use this switch when your vehicle’s wheels get stuck in a ditch or when you are driving on a slippy or bumpy surface.
Intuitive Parking Assist*

The system uses a screen display and buzzer to inform the driver of obstacles near the vehicle when parking or driving at low speed.

ON/OFF

The indicator light comes on and the buzzer sounds to inform the driver that the system is operational.

For details, see the "Owner's Manual".

Wide View Front & Side Monitor*

This system can display the wide view front monitor and the side monitor separately or at the same time. This system helps the driver check for front and side of the vehicle.

ON/OFF

The display can be changed by pressing the VIEW switch.

For details, see the "Owner's Manual".

*: If equipped
Multi-Terrain Select

Multi-terrain Select is a system that assists drivability in off-road situations.

■ Switching modes

Operate the Multi-terrain Select mode select switch during Multi-terrain Select control to select a mode.

<table>
<thead>
<tr>
<th>Mode</th>

</tr>
<tr>
<td>5</td>
<td>ROCK         Suitable for rocky terrain</td>
</tr>
</tbody>
</table>
Crawl Control (with Turn Assist function)

Crawl Control allows travel on extremely rough off-road surfaces at a fixed low speed without pressing the accelerator or brake pedal.

To select a speed mode, shift the Crawl Control switch forward or backward.

1. **ON/OFF switch**
2. **Speed selection switch**
3. **Multi-information display**
   - The operating status and speed select status of the Crawl Control are shown on the multi-information display.
4. **Indicators**
   - The Crawl Control indicator is lit and the slip indicator flashes when operating.

### Speed modes

The following table shows some typical terrains and the recommended speed modes.

<table>
<thead>

<tr>
<td></td>
<td>Snow, mud, gravel (uphill), sand, dirt, mogul (uphill) and grass</td>
</tr>
</tbody>
</table>
Turn Assist function

This function assists cornering performance in accordance with steering operation when driving through a tight corner. It maintains vehicle speed while driving and reduces the number of turns needed to navigate a corner that requires turning the wheel in the opposite direction.

Press the Turn Assist switch while Crawl Control is operating.

Turn Assist indicator will come on.

To turn the system off, press the switch again.
Cruise control allows the driver to maintain a constant speed without having to operate the accelerator pedal. Use for highway driving or when traveling at a constant speed for long periods of time.

### Setting the vehicle speed

1. Press the “ON-OFF” button. The system will turn on.
2. Accelerate or decelerate to the desired speed, and then push the lever down. This sets the speed in the cruise control memory.

### Adjusting the set speed

- **To increase speed:** push the lever up.
- **To decrease speed:** push the lever down.

Release the lever when the desired speed is reached.

*: If equipped
Canceling and resuming the constant speed control

1. To temporarily cancel the constant speed control, pull the lever toward you. To resume the constant speed control, push the lever up.
2. To turn the system off, press the "ON-OFF" button.

Dynamic Radar Cruise Control

Dynamic radar cruise control supplements conventional cruise control with a vehicle-to-vehicle distance control mode.

Cruise control display

Cruise control settings are shown on the multi-information display.

1. Vehicle ahead indicator
2. Vehicle-to-vehicle distance
3. Set speed

*: If equipped
Vehicle-to-vehicle distance control mode

1. Press the “ON-OFF” button.
2. Accelerate or decelerate to the desired speed, and then push the lever down.
   Following distance can be adjusted using the vehicle-to-vehicle distance control button.

Adjusting the set speed

To increase speed: push the lever up.
To decrease speed: push the lever down.

Release the lever when the desired speed is reached.

Canceling and resuming the speed control

1. To temporarily cancel the dynamic radar cruise control, pull the lever toward you. To resume the cruise control, push the lever up.
2. To turn the system off, press the “ON-OFF” button.

Constant speed control mode

1. Press the “ON-OFF” button.
2. Push the lever forward and hold for approximately one second.
3. Accelerate or decelerate to the desired speed, and then push the lever down.

The vehicle-to-vehicle distance control mode maintains the preset cruising speed as long as no vehicle is detected ahead.
AVS (Adaptive Variable Suspension system)

AVS controls the suspension and steering wheel operation according to the road and driving conditions.

To select a driving mode, shift the damping mode select switch forward or backward.
1. For high speed driving
2. For ordinary driving
3. For driving on bumpy roads

4-Wheel AHC (Active Height Control Suspension)

4-Wheel AHC adjusts the vehicle height in accordance with driving conditions.

To select a height mode, shift the height select switch forward or backward.
HI (high mode): For driving bumpy roads
N (normal mode): For ordinary driving
LO (low mode): For easy access to the vehicle

Press the “OFF” switch to cancel.

Easy access mode

Press this switch for easy access and easy loading of the vehicle. The vehicle height is lowered automatically when the "ENGINE START STOP" switch is turned to OFF.

The easy access mode is available when N mode is selected.
Active TRAC/VSC Off Mode

This switch turns off the active traction control system or vehicle stability control system. Use this switch if the wheels get stuck in snow, mud etc.

To turn off Active TRAC: Push the VSC OFF switch briefly. “TRAC OFF” will be shown on the multi-information display.

To turn off Active TRAC, VSC and Trailer Sway Control: Push and hold the VSC OFF switch for 3 seconds when the vehicle is not moving. The VSC OFF indicator light will come on and “TRAC OFF” will be shown on the multi-information display.

Push the button again to turn the system back on.

Roll Sensing of Curtain Shield Airbags Off Switch

This switch can turn off the curtain shield airbags and front seat belt pretensioners in a vehicle rollover.

ON/OFF

Press and hold until indicator light turns on/off.
Press and hold the switch when you change the tire inflation pressure.

For details, see the "Owner’s Manual".
Headlights

**Type A**

1. **OFF**  The daytime running lights turn on.
2. **EDGE** The side marker, parking, tail, license plate and instrument panel lights turn on.
3. **ED** The headlights and all lights listed above (except daytime running lights) turn on.
4. **AUTO** The headlights, daytime running lights and all lights listed above turn on and off automatically. (When the “ENGINE START STOP” switch is in IGNITION ON mode.)

**Type B**

1. **ED** The daytime running lights turn on.
2. **EDGE** The side marker, parking, tail, license plate and instrument panel lights turn on.
3. **ED** The headlights and all lights listed above (except daytime running lights) turn on.
4. **AUTO** The headlights, daytime running lights and all lights listed above turn on and off automatically. (When the “ENGINE START STOP” switch is in IGNITION ON mode.)
■ Turning on the high beam headlights

To engage the high beams, push the lever forward. To flash the high beams, pull the lever and hold. Vehicles with an Automatic High Beam system: When the light switch is in “AUTO” position, the Automatic High Beam system will be activated.

■ AFS (Adaptive Front-lighting System)

AFS improves visibility at intersections and on curves by automatically adjusting the direction of the light axis of the headlights according to vehicle speed and the degree of the tire angle that are controlled by steering input. The system can be turned on and off using the “AFS OFF” switch.
**Automatic High Beam**

The Automatic High Beam uses an in-vehicle camera sensor to assess the brightness of streetlights, the lights of oncoming and preceding vehicles, etc., and automatically turns high beam on or off as necessary.

Push the lever away from you with the headlight switch in the “AUTO” position when the “ENGINE START STOP” switch is in IGNITION ON mode. The Automatic High Beam indicator will come on when the headlights are turned on automatically to indicate that the system is active.

When all of the following conditions are fulfilled, high beam will be automatically turned on (after approximately 1 second):

- Vehicle speed is above approximately 21 mph (34 km/h).
- The area ahead of the vehicle is dark.
- There are no oncoming or preceding vehicles with headlights or tail lights turned on.

*: If equipped
**Fog Lights**

- **Type A**
  1. OFF
  2. (and)  
  Turns the fog lights off
  Turns the fog lights on

- **Type B**
  1. (and)
  2. (and)  
  Turns the fog lights off
  Turns the fog lights on
Windshield Wipers and Washers

- **Type A**

1. Off
2. AUTO Rain-sensing wiper operation
3. \(\downarrow\) Low speed wiper operation
4. \(\downarrow\) High speed wiper operation
5. \(\uparrow\) Temporary operation

Automatic operation: Sensitivity can be adjusted by turning the band.

To spray washer fluid, pull the lever. The wipers will operate automatically.
Type B

1. OFF  Off
2. AUTO  Rain-sensing wiper operation
3. LO    Low speed wiper operation
4. HI    High speed wiper operation
5. MIST  Temporary operation

Automatic operation: Sensitivity can be adjusted by turning the band.

To spray washer fluid, pull the lever. The wipers will operate automatically.
Rear Window Wiper and Washer

Type A

1. Off
2. Intermittent window wiper operation
3. Normal window wiper operation
4. Washer/wiper dual operation
5. Washer/wiper dual operation

Type B

1. OFF Off
2. INT Intermittent window wiper operation
3. ON Normal window wiper operation
4. Washer/wiper dual operation
5. Washer/wiper dual operation
Touch Screen

By touching the screen with your finger, you can control the audio system, air conditioning and adjust the screen display, etc. For details, see the Owner’s Manual or Navigation System Owner’s Manual.

</table>

*2: Bluetooth is a registered trademark of Bluetooth SIG, Inc.
■ Display

The contrast and brightness of the screen display and the image the camera displays can be adjusted.

Press the "SETUP" button and the touch "Display" on the "Setup" screen.
1. Displays the screen in "Day Mode" with the headlights switch on
2. Changes setting display ("Camera" or "Map·Menu")
3. Turns screen off
4. Changes items ("Brightness or "Contrast")
5. Adjusts screen brightness or contrast

■ Screen scroll operation

When any point on the map is touched, that point moves to the center of the screen.
1. Indicates the street name, city name, etc. for the selected point
2. Indicates the distance from the current position for the pointer
3. Indicates the street name for the current position
Setting a route

While route guidance is operating, you can change the route using the following method.

Touch "Route"
The following settings can be accessed
1. Add destination
2. Delete destination
3. Change the arrival order of the destinations
4. Detour setting
5. Route overview
6. Route preferences
7. Pause and resume route guidance

Some functions are unavailable while the vehicle is in motion. Refer to the "Navigation System Owner’s Manual".
Front Air Conditioning System

Press “CLIMATE” button to display the air conditioning operation screen. For details, refer to the Owner’s Manual.

Using the automatic mode

1. Press the "AUTO" button.
2. Press to increase the temperature and to decrease the temperature.
**Adjusting the temperature in individual mode**

In individual mode, the temperature for the driver’s, front passenger’s and rear seats can be adjusted separately.

1. Touch “4-ZONE” on the operation screen if its indicator is off.
2. Press the passenger’s side temperature control buttons to adjust the temperature for the passenger’s side. To adjust the temperature for the rear seats, see below.

**Rear Air Conditioning System**

1. Left side temperature control
2. Automatic mode
3. Right side temperature control

1. To use the automatic mode, press the “AUTO” button.
2. Press “∧” on the “TEMP” button to increase the temperature and “∨” to decrease the temperature.

**Front controller (touch screen)**

To display the rear air conditioning operation screen, touch “REAR” on the screen or press:

1. Left side temperature control switch and display
2. Fan speed display
3. Right side temperature control switch and display

Press “REAR” to turn the fan off.
Audio System

Basic operation

1. Displaying audio control screen*
2. Power/Volume
3. Setting the sound quality
4. Selecting audio sources

*: Various adjustments can be made in each mode. For details, refer to the Owner’s Manual.

Headphone jacks

To listen to the rear audio, use headphones.

1. Headphone jacks
2. Volume: Turn the knob clockwise to increase. Turn the knob counterclockwise to decrease.
**Voice Command System**

NOTE: When inputting voice commands you must wait until after the beep to speak.

**Basic operation**

1. Press or .
2. If you know the command:
   - Press or again.
   - If you do not know the command:
     - Follow the voice guidance to learn the command and then press or again.
3. Say a command after the beep.

Continue on to pages 50-52 for a detailed list of Voice Commands for the following categories:
   - Set a Destination .............................................................. page 50
   - Use the Phone ................................................................. page 50
   - Play Music ................................................................. page 51
   - Get Information ............................................................. page 51
   - Select audio mode .......................................................... page 52
   - Climate/air conditioning system command ................ page 52

**Important voice commands information and tips**
- Voice commands can be used while driving.
- You must wait until after the beep to say a command.
- In vehicles with a navigation system, a large TALK icon will appear on the navigation screen to prompt you to say a command.
- If you know what command to use, you can press or at any time to interrupt the voice guidance.
### Command list

#### Set a Destination

<table>
<thead>
<tr>
<th>Command</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>“Find Nearby &lt;POI category&gt;”</td>
<td>Displays a list of &lt;POI category&gt; near the current position.</td>
</tr>

Destination input — Search by address

Select by city name

1. Press "DEST" button.
2. Touch "Address".
3. Touch "City".
4. Input a city name and touch "OK".
5. Touch the button of the desired city name from the displayed list.
6. Input the street name and touch "OK".
7. When the desired street name is found, touch the corresponding button.
8. Input a house number and touch "OK".
9. Touch "Go to".
10. Touch "OK".
Select by street address

1. Press “DEST” button.
2. Touch “Address”.
3. Touch “Street Address”.
4. Input a house number and touch “OK”.
5. Input the street name and touch “OK”.
6. When the desired street name is found, touch the corresponding button.
7. Input a city name and touch “OK”.
8. Touch the button of the desired city name from the displayed list.
9. Touch “Go to 🗺”.
10. Touch “OK”.
**Destination input — Search points of interest by name**

1. Press “DEST” button.
2. Touch “Point of Interest”.
3. Touch “Name”.
4. Input the name of the point of interest and touch “OK”.
5. Touch the button of the desired destination.
6. Touch “Go to”.
7. Touch “OK”.
**Destination input — Search points of interest by category**

1. Press "DEST" button.
2. Touch "Point of Interest".

3. Touch "Category".

4. Touch "Near a Destination".
5. Touch the button of the desired destination and set the search point.
6. Touch the desired point of interest category from the displayed list.
7. Touch the button of the desired item.
8. Touch "Go to".
9. Touch "OK".
Destination input —— Search points of interest by telephone number

1. Press “DEST” button.
2. Touch “Point of Interest”.
3. Touch “Phone #”.
4. Input a telephone number and touch “OK”.
5. Touch “Go to”.
6. Touch “OK”.
Hands-free System (For Cellular Phone)

Bluetooth® phone pairing

Compatible Bluetooth®-equipped phones can be connected to the vehicle, enabling hands-free operation. Please refer to the cellular phone manufacturer’s user guide for pairing procedures, or go to “www.lexus.com/MobileLink” for more phone information.

STEP 2

To use a Bluetooth® phone, it is necessary to first register it in the system.

1. Press “SETUP” button.
2. Touch “Bluetooth®”.

STEP 3

3. Touch “Registered Devices”.

STEP 4

4. Touch “Add New” to register your cellular phone to the system.

STEP 5

5. When this screen is displayed, operate the Bluetooth® device. Refer to the cellular phone user’s manual for cellular phone operation. If a completion message is displayed, registration is complete.

*: Bluetooth is a registered trademark of Bluetooth SIG, Inc.
Phonebook transfer

1. Press “SETUP” button.
2. Touch “Phone”.
3. Touch “phonebook”.

4. Touch “Manage Contacts”.
5. Touch “Transfer Contacts”.

For PBAP compatible Bluetooth® phones:

6. Touch “Update Contacts”.

For PBAP incompatible but OPP compatible Bluetooth® phones:

6. Touch “Replace Contacts” or “Add Contacts”.
7. Transfer the phonebook data to the system using the cellular phone. Refer to the cellular phone user’s manual for cellular phone operation.

Phonebook transfer may not be possible depending on phone model.
Registering a speed dial

1. Press “SETUP” button.
2. Touch “Phone”.
3. Touch “phonebook”.

4. Touch “Manage Speed Dials”.
5. Touch “New”.

6. Touch the data to register.
7. Touch the desired phone number.
8. Touch the switch you want to register the number in.
9. The registration completion message is displayed on the screen.
Calling using voice recognition

1. Press or .

- Calling by a name and type of phone registered in the phone book:
  2. Following the system guidance, wait for the beep and then after saying “Call” say the desired name, or the name and type of phone.
  3. Following the system guidance, wait for the beep and then say “Dial”.

- Calling by dial number:
  2. Following the system guidance, wait for the beep and then after saying “Dial” say the phone number.
  3. Following the system guidance, wait for the beep and then say “Dial”.

: Pressing this switch turns the voice command system on. Say a command after the beep.
■ Calling by speed dial

1. Press  or  on the steering wheel.
2. Touch “Speed Dials”.
3. Touch the desired tab and choose the desired number to make a call.

■ Receiving a call

1. When a call is received, this screen is displayed with a sound.
2. Touch  or press  on the steering wheel.
   To refuse a call, touch  or press  on the steering wheel.
Safety Connect

Safety Connect is a subscription-based telematics service that uses Global Positioning System (GPS) data and embedded cellular technology to provide safety and security features to subscribers. Safety Connect is supported by Lexus’ designated response center, which operates 24 hours per day, 7 days per week. Safety Connect service is available by subscription on select, telematics hardware-equipped vehicles.

Buttons

- Microphone
- LED light indicators
- “SOS” button

Services

Subscribers have the following Safety Connect services available:

- Automatic Collision Notification*

  In case of either airbag deployment or severe rear-end collision, the system is designed to automatically call the response center. The responding agent receives the vehicle’s location and attempts to speak with the vehicle occupants to assess the level of emergency. If the occupants are unable to communicate, the agent automatically treats the call as an emergency, contacts the nearest emergency services provider to describe the situation, and requests that assistance be sent to the location.

- Stolen Vehicle Location

  If your vehicle is stolen, Safety Connect can work with local authorities to assist them in locating and recovering the vehicle. After filing a police report, call the Safety Connect response center at 1-800-25-LEXUS (1-800-255-3987) and follow the prompts for Safety Connect to initiate this service.

  In addition to assisting law enforcement with recovery of a stolen vehicle, Safety-Connect-equipped vehicle location data may, under certain circumstances, be shared with third parties to locate your vehicle. Further information is available at Lexus.com.

**: If equipped
● Emergency Assistance Button (SOS)
In the event of an emergency on the road, push the "SOS" button to reach the Safety Connect response center. The answering agent will determine your vehicle’s location, assess the emergency, and dispatch the necessary assistance required.
If you accidentally press the "SOS" button, tell the response-center agent that you are not experiencing an emergency.

● Enhanced Roadside Assistance
Enhanced Roadside Assistance adds GPS data to the already included warranty-based Lexus roadside service.
Subscribers can press the “SOS” button to reach a Safety Connect response-center agent, who can help with a wide range of needs, such as: towing, flat tire, fuel delivery, etc.
For a description of the Roadside Assistance services and their limitations, please see the Safety Connect Terms and Conditions, which are available at Lexus.com.

■ Subscription
After you have signed the Telematics Subscription Service Agreement and are enrolled, you can begin receiving services.
A variety of subscription terms is available for purchase. Contact your Lexus dealer, call 1-800-25-LEXUS (1-800-255-3987) or push the "SOS" button in your vehicle for further subscription details.
### Lexus Enform with Safety Connect*

Lexus Enform with Safety Connect is a generic name for Apps, Destination Assist, eDestination, Lexus Insider, and Safety Connect. The functions included in Lexus Enform with Safety Connect are classified into the following three functions. For details, refer to the “Owner’s Manual” and “Navigation System Owner’s Manual”.

#### Function achieved by using a cellular phone

**Services**

Of the functions included with Lexus Enform with Safety Connect, only Apps can be achieved by using a cellular phone. Apps is a service that enables the usable contents of a cellular phone to be displayed on and operated from the navigation screen.

- **APPS**
  
  Each time “Apps” is activated, the system checks for updates. When there are no updates available, the main menu screen will be displayed right after a screen indicating that updates are being checked for has been displayed.

**Subscription**

Apps will be available on a trial period included upon purchase of a new vehicle. User registration is required to start using the service. When a trial period has elapsed after purchasing a new vehicle, a fee will be charged to renew the contract. Services requiring a separate contract can also be used. For details, refer to [http://www.lexus.com/enform/](http://www.lexus.com/enform/) or call 1-800-255-3987.

#### Function achieved by using DCM and the navigation system

**Services**

Of the functions included with Lexus Enform with Safety Connect, Destination Assist, eDestination, and Lexus Insider can be achieved by making DCM cooperate with the navigation system. These are subscription-based telematics services that use Global Positioning System (GPS) data, embedded cellular technology to provide safety and security as well as convenience features to subscribers. The services are supported by Lexus’ designated response center, which operates 24 hours per day, 7 days per week. The services are available by subscription on select, telematics hardware-equipped vehicles.

*: If equipped
● Destination Assist
Destination Assist provides you with live assistance for finding destinations via the Lexus Enform with Safety Connect response center. You can request either a specific business, address, or ask for help locating your desired destination by category, such as restaurants, gas stations, shopping centers or other points of interest (POI). After you tell the agent your choice of destination, its coordinates are sent wirelessly to your vehicle’s navigation system.

● eDestination
With the eDestination feature, you can go online, via the Lexus.com owner’s Web site, to select and organize destinations of your choice and then wirelessly send them to your vehicle’s navigation system.
You can store up to 200 locations online to access and update at any time.
Your locations can be organized into up to 20 personalized folders.
You must first go online at www.lexus.com/drivers to view the Owners site where you will need to register and log in. After this, you can create your personalized folders containing the locations you wish to send to your vehicle. (See Lexus Enform with Safety Connect Guide for more information.)

● Lexus Insider
Lexus Insider is an optional service that can send audio messages, or articles, to participating owners’ vehicles via the navigation system. Potential Lexus Insider subjects might include, for example, Lexus vehicle technology tips, updates on regional Lexus events, or audio excerpts from Lexus Magazine articles. Up to 20 articles can be stored at a time.
You may opt out of receiving Lexus Insider messages at any time.

■ Subscription
After you have signed the Telematics Subscription Service Agreement and are enrolled, you can begin receiving services. A variety of subscription terms is available for purchase.
Contact your Lexus dealer, call 1-800-25-LEXUS (1-800-255-3987), or select the “Destination Assist” in your vehicle for further subscription details.

■ Function achieved by using DCM

■ Services
Of the functions included with Lexus Enform with Safety Connect, Safety Connect can be achieved by using DCM.
● Safety Connect (→P.65)
## Door Locks

### Locking the vehicle from inside

- **Inside lock button**

  1. Locks
  2. Unlocks

- **Door lock switch**

  Operates all door locks.

  1. Locks
  2. Unlocks

### Locking the vehicle from outside

- **Using the entry function or wireless remote control** ([P.8, 9])

### Rear door child-protector lock

The door cannot be opened from inside the vehicle when the locks are set.

1. Unlock
2. Lock

These locks can be set to prevent children from opening the rear doors. Push down on each rear door switch to lock both rear doors.
Power Windows

1. Window lock switch
   The window lock switch disables the operation of all windows other than the driver's door window.

2. Power window switches
   - To open: press the switch.
   - To close: pull the switch up.
   Fully pulling up and releasing the switches causes the windows to close fully. Fully pressing down and releasing the switches causes the windows to open fully.

Moon Roof

■ Opening and closing

1. Open
   Stops just before it is opened fully. Press the switch again to fully open.

2. Close
   To stop partway, press the switch lightly.

■ Tilt up and down

1. Tilt up
2. Tilt down
   To stop partway, press the switch lightly.
**Fuel Tank Cap**

1. Pull the fuel filler door opener.

2. Slowly remove the cap by turning it counterclockwise.
Back Door

■ Power back door

To close the back door, press the switch.

To open or close the back door from inside the cabin, press and hold the switch.

To disable the power back door, press the power back door main switch.

■ Back door easy closer

If the back door is left slightly open, it will close automatically.

■ Entry function and wireless remote control

→ P.8, 9
What to do if ...

List of Warning/Indicator Lights

Stop the vehicle immediately. Continuing to drive the vehicle may be dangerous.

**Brake system warning light**

(U.S.A.)

(Canada)

Stop the vehicle immediately.

**Charging system warning light**

For further information, refer to the Owner’s Manual.
Have the vehicle inspected immediately.

- Malfunction indicator lamp
- Pre-collision system warning light*1
- ABS warning light
- Tire pressure warning light
- Slip indicator light
- "AFS OFF" indicator light

Follow the correction procedures.

- Open door warning light
- Tire pressure warning light*2
- Low fuel level warning light
- Unengaged "Park" warning light
- Driver’s seat belt reminder light
- Master warning light
- Front passenger’s seat belt reminder light

For further information, refer to the Owner’s Manual.

*¹: If equipped
*²: Turns on due to natural causes such as natural air leaks or tire inflation pressure changes caused by temperature including the spare tire. Adjust the tire inflation pressure to the specified level. The light will turn off after a few minutes. In case the light does not turn off even if the tire inflation pressure is adjusted, have the system checked by your Lexus dealer.

See the Owner’s Manual.

For further information, refer to the Owner’s Manual.
If the electronic key does not operate properly

■ Unlocking and locking the doors

To unlock or lock the vehicle, use the mechanical key. The mechanical key is stored inside the electronic key.

1 Unlocks
2 Locks

■ Starting the engine

1 Depress the brake pedal.
2 Touch the Lexus emblem side of the electronic key to the “ENGINE START STOP” switch.
3 Press the “ENGINE START STOP” switch within 10 seconds after the buzzer sounds, keeping the brake pedal depressed.

If the electronic key battery becomes depleted, replace it with a new battery. For instructions on replacing the battery, refer to the Owner’s Manual. If you need further assistance, contact your Lexus dealer.
What to do if ...

**If the engine does not start**

Make sure that the correct operating procedures have been followed.

**Brake pedal**

Make sure that the brake pedal is firmly depressed when attempting to start the engine. (→P.11)

**Steering lock**

Make sure that the steering lock is released.

To release the steering lock, gently turn the wheel left or right while pressing the "ENGINE START STOP" switch. (→P.10)

If the engine still does not start, see the Owner’s Manual for more information or contact your Lexus dealer.
# Electronic Key Alarm

The electronic key alarm uses an alarm and warning messages to indicate that the electronic key has been used improperly. Take appropriate measure in response to any warning messages that are displayed. In some cases, an alarm may sound without an accompanying warning message. If so, follow the correction procedure in the table below.

<table>
<thead>
<tr>
<th>Alarm</th>
