Introduction

This manual explains the operation of the Navigation System. Please read this manual carefully to ensure proper use. Keep this manual in your vehicle at all times.

The Navigation System is one of the most technologically advanced vehicle accessories ever developed. The system receives satellite signals from the Global Positioning System (GPS) operated by the U.S. Department of Defense. Using these signals and other vehicle sensors, the system indicates your present position and assists in locating a desired destination.

The navigation system is designed to select efficient routes from your present starting location to your destination. The system is also designed to direct you to a destination that is unfamiliar to you in an efficient manner. The system uses DENSO maps. The calculated routes may not be the shortest nor the least traffic congested. Your own personal local knowledge or "short cut" may at times be faster than the calculated routes.

The navigation system's database includes Point of Interest categories to allow you to easily select destinations such as restaurants and hotels. If a destination is not in the database, you can enter the street address or a major intersection close to it and the system will guide you there.

The system will provide both a visual map and audio instructions. The audio instructions will announce the distance remaining and the direction to turn in approaching an intersection. These voice instructions will help you keep your eyes on the road and are timed to provide enough time to allow you to maneuver, change lanes or slow down.
Please be aware that all current vehicle navigation systems have certain limitations that may affect their ability to perform properly. The accuracy of the vehicle’s position depends on the satellite condition, road configuration, vehicle condition or other circumstances. For more information on the limitations of the system, refer to pages 186 through 187.

TOYOTA MOTOR CORPORATION
Important information about this manual

For safety reasons, this manual indicates items requiring particular attention with the following marks.

⚠️ CAUTION

This is a warning against anything which may cause injury to people if the warning is ignored. You are informed about what you must or must not do in order to reduce the risk of injury to yourself and others.

NOTICE

This is a warning against anything which may cause damage to the vehicle or its equipment if the warning is ignored. You are informed about what you must or must not do in order to avoid or reduce the risk of damage to your vehicle and its equipment.

INFORMATION

This provides additional information.

Safety Instruction

To use this system in the safest possible manner, follow all the safety tips shown below.

This system is intended to assist in reaching the destination and, if used properly, can do so. The driver is solely responsible for the safe operation of your vehicle and the safety of your passengers.

Do not use any feature of this system to the extent it becomes a distraction and prevents safe driving. The first priority while driving should always be the safe operation of the vehicle. While driving, be sure to observe all traffic regulations.

Prior to the actual use of this system, learn how to use it and become thoroughly familiar with it. Read the entire Navigation System Owner’s Manual to make sure you understand the system. Do not allow other people to use this system until they have read and understood the instructions in this manual.

For your safety, some functions may become inoperable when driving. Unavailable screen buttons are dimmed. Only when the vehicle is not moving, can the destination and route selection be done.
CAUTION

- For safety, the driver should not operate the navigation system while he/she is driving. Insufficient attention to the road and traffic may cause an accident.
- While driving, be sure to obey the traffic regulations and maintain awareness of the road conditions. If a traffic sign on the road has been changed, route guidance may not have the updated information such as the direction of a one way street.

While driving, listen to the voice instructions as much as possible and glance at the screen briefly and only when it is safe. However, do not totally rely on voice guidance. Use it just for reference. If the system cannot determine the current vehicle position correctly, there is a possibility of incorrect, late, or non-voice guidance.

The data in the system may occasionally be incomplete. Road conditions, including driving restrictions (no left turns, street closures, etc.) frequently change. Therefore, before following any instruction from the system, look to see whether the instruction can be done safely and legally.

This system cannot warn about such things as the safety of an area, condition of streets, and availability of emergency services. If unsure about the safety of an area, do not drive into it. **Under no circumstances is this system a substitute for the driver’s personal judgement.**

Use this system only in locations where it is legal to do so. Some states/provinces may have laws prohibiting the use of video and navigation screens next to the driver.

</table>
— Registering home

1 Push the “DEST” button.

2 Touch “Go Home”.
   If home has not been registered, you can register it by touching “Go Home”.

3 Touch “Yes”.

4 There are 4 different methods to search your home.
   See “Destination search” on page 60.
5 Touch “Enter”.  
The “Edit Home” screen is displayed.

6 Touch “OK”.

Registration of home is complete.  
You can also register home by pushing the “SETUP” button. (See “(a) Registering home” on page 109.)

You can change the name, location, phone number and icon. (See “(b) Editing home” on page 110.)
— Registering preset destinations

1. Push the “DEST” button.

2. Touch one of the preset destination buttons.
   You can set a preset destination to any preset destination button that has not yet been set.

3. Touch “Yes”.

4. There are 4 different methods to search preset destinations.
   See “Destination search” on page 60.
5 Touch “Enter”.

The “Edit Preset Destination” screen is displayed.

6 Touch “OK”.

Registration of preset destinations is complete.

You can also register preset destinations by pushing the “SETUP” button.
(See “(a) Registering preset destinations” on page 112.)

You can change the name, location, phone number and icon. (See “(b) Editing preset destinations” on page 113.)

The registered points can be used on the “Destination” screen. (See “— Destination search by Preset destinations” on page 62.)
— Operation flow: guiding the route

1. Push the “DEST” button.

2. There are 11 different methods to search destinations.
   See “Destination search” on page 60.

3. Touch “Go to 🌋”.
   The navigation system performs a search for the route.

4. Touch “OK”, and start driving.
   Routes other than the one recommended can also be selected. (See “Starting route guidance” on page 81.)

5. Guidance to the destination is given via voice and on the guidance screen.
— Setting home as the destination

1 Push the “DEST” button.

2 Touch “Go Home”.

“Go Home” can be used if your home has been registered. (To register “Home”, see “(a) Registering home” on page 109.)

3 Touch “Go to 2”.

The navigation system performs a search for the route.

4 Touch “OK”, and start driving.

Routes other than the one recommended can also be selected. (See “Starting route guidance” on page 81.)

5 Guidance to the destination is given via voice and on the guidance screen.

Quick reference ("Destination" screen)

The "Destination" screen allows you to search for a destination. To display the "Destination" screen, push the "DEST" button.

1 "Address"
A house number and the street address can be input by using the input keys.

2 "Point of Interest"
Select one of the many Points of Interest that have already been stored in the system's database.

3 "Destination Assist"
Provides you with live assistance finding destinations via the Lexus Enform response center.

4 "Previous Destinations"
A destination can be selected from any of the last 100 previously set destinations and from the previous starting point.

5 "Del. Dest."
Set destinations can be deleted.

6 "?"
Function help for the "Destination" screen can be viewed on this screen.
7 “Address Book”
The desired location can be selected from a registered entry in the “Address book”.
(To register address book entries, see “(a) Registering address book entries” on page 115.) 75

8 “Emergency”
One of the four categories of emergency service points that are already stored in the system’s database can be selected.

9 “Intersection & Freeway”
The names of two intersecting streets or a freeway (interstate) entrance or exit can be entered. This is helpful if only the general vicinity, not the specific address, is known.

10 “Map”
A destination can be selected simply by touching the location on the displayed map.

11 “Coordinates”
A destination can be set using latitudes and longitudes as coordinates.

12 Preset destination buttons
One of 5 preset destination points can be selected by touching the screen directly. If a preset destination point has not been registered, a message will be displayed and the setting screen will automatically appear. To use this function, it is necessary to set the “Preset Destination”. (To register a “Preset Destination”, see “(a) Registering preset destinations” on page 112.) 62

13 “Go Home”
A personal home address can be selected without entering the address each time. If “Home” has not been registered, a message will be displayed and the setting screen will automatically appear. To use this function, it is necessary to set a “Home” address. (To register “Home”, see “(a) Registering home” on page 109.) 62
Quick reference ("Setup" screen)
The items shown on the "Setup" screen can be set. To display the "Setup" screen, push the "SETUP" button.

1 “General”
Settings are available for language selection, operation sounds, automatic screen change, etc. .......................... 160

2 “Clock”
Used for changing settings for time zones, daylight saving time, etc. ............. 164

3 “Voice”
Voice guidance can be set. ........ 166

4 “Navi.”
Settings are available for average cruising speed, displayed screen contents, POI icon categories, etc. ................. 169

5 “Other”
Settings are available for Lexus Insider, XM® Sports and Stocks. .............. 184

6 “Vehicle”
Settings are available for vehicle information such as maintenance information. ........................................ 179

7 “Audio”
Settings are available for portable audio devices, Bluetooth® audio devices etc. ........................................ Owner’s Manual

8 “Phone”
Bluetooth® phones and phone numbers can be registered, and the receiver volume can be adjusted. ....... Owner’s Manual
Quick reference ("Information" screen)

This screen can be used to display the calendar and information on operation of the hands-free phone, etc. To display the "Information" screen, push the "INFO/PHONE" button.

NAVIGATION SYSTEM: BASIC FUNCTIONS

Initial screen

GS460/GS350:
When the “ENGINE START STOP” switch is in ACCESSORY or IGNITION ON mode, the initial screen will be displayed and the system will begin operating.

GS450h:
When the “POWER” switch is in ACCESSORY or ON mode, the initial screen will be displayed and the system will begin operating.

CAUTION
When the vehicle is stopped with the engine running or the hybrid system operating, always apply the parking brake for safety.

After a few seconds, the “CAUTION” screen will be displayed.

After about 5 seconds, the “CAUTION” screen automatically switches to the map screen. When touching “Show Map” or pushing the “MAP/VOICE” button, the map screen is displayed.

While the “CAUTION” screen is displayed, the “DEST” or “SETUP” button cannot be operated. And if the “Calendar” button on the “Information” screen is touched, the screen will change back to the “CAUTION” screen. In about 5 seconds, or when the “MAP/VOICE” button is pushed or the “Show Map” is touched, the “CAUTION” screen will change to the map screen.
• **Maintenance information**

This system informs about when to replace certain parts or components and shows dealer information (if registered) on the screen.

When the vehicle reaches a previously set driving distance or date specified for a scheduled maintenance check, the “Information” screen will be displayed when the navigation system is in operation.

To disable this screen, touch “Do Not Display This Message Again”. This screen goes off if the screen is not operated for several seconds.

To prevent this information screen from being displayed again, touch “Do Not Display This Message Again”.

To register “Maintenance information”, see “—Maintenance” on page 179.

---

**Touch screen operation**

This system is operated mainly by the touch screen buttons on the screen.

To prevent damage to the screen, lightly touch buttons on the screen with the finger. When a button on the screen is touched, a beep sounds. (To set a beep sound, see page 160.)

Do not use objects other than the finger to touch the screen.

---

**INFORMATION**

- If the system does not respond to a touch on a touch screen button, move the finger away from the screen and then touch it again.
- Dimmed touch screen buttons cannot be operated.
- Wipe off fingerprints using a glass cleaning cloth. Do not use chemical cleaners to clean the touch screen.
- The displayed image may become darker and moving images may be slightly distorted when the display is cold.
- Under extremely cold conditions, the map may not be displayed and the data input by a user may be deleted. Also, the touch screen buttons may be harder than usual to depress.
- When you look at the screen through polarized material such as polarized sunglasses, the screen may be dark and hard to see. If so, look at the screen from different angles, adjust the screen settings on the “Display” screen, or take off your sunglasses.
When searching for an address or a name, or entering, letters and numbers can be input via the screen.

**INFORMATION**

Keyboard layout can be changed. (See page 162.)

To input letters and numbers

To display the alphabet keys, touch “A−Z”.

Enter letters by touching the keys directly.

- Touching this button erases one letter. By holding this button, letters will continue to be erased.

On certain letter entry screens, letters can be entered in upper or lower case.

- : To enter in lower case.
- : To enter in upper case.
To input symbols
To display symbol keys, touch “Other”.
Enter symbols by touching the symbol keys directly.

: Touching this button erases one letter. By holding this button, letters will continue to be erased.

To display the list
To search for an address or a name, touch “OK”. Matching items from the database are listed even if the entered address or name is incomplete.

If the number of matches is five or less, the list is displayed without touching “OK”.

INFORMATION
The number of matching items is shown to the right side of the screen. If the number of matching items is more than 999, the system displays “∗∗∗∗” on the screen.
• List screen operation
When a list is displayed, use the appropriate button to scroll through the list.

To shift to the next or previous page.
Touch  or  to scroll through the displayed list.

This expresses a displayed screen position.

If  appears to the right of the item name, the complete name is too long for the display. Touch to scroll to the end of the name.
Touch  to scroll to the beginning of the name.

• Sorting
The order of a list displayed on the screen can be rearranged.

1. Touch “Sort”.

2. Touch the desired sorting criteria.
Sorting criteria are as follows:
“Distance”: To sort in the order of distance from your current location.
“Date”: To sort in the order of the date.
“Category”: To sort in the order of the category.
“Icon”: To sort in the order of the icons.
“Name”: To sort in order by name.
Navigation System: Basic Functions

Screen adjustment

You can adjust the contrast, brightness, color and tone of the screen. You can also turn the display off, and change the screen to either day or night mode.

- **Contrast, brightness, color and tone adjustment**

  The contrast, brightness, color and tone of the screen can be adjusted depending on the brightness of your surroundings. You can also turn the display off.

  1. Push the “DISP” button.
  2. Touch the desired button to adjust contrast and brightness.
     - “Contrast” “+”: Strengthens the contrast of the screen.
     - “Contrast” “−”: Weakens the contrast of the screen.
     - “Brightness” “+”: Brightens the screen.
     - “Brightness” “−”: Darkens the screen.
  3. After adjusting the screen, touch “OK”.

    The screen goes off when “Screen Off” is touched. To turn the display screen back on, push the “DISP” button again.

**INFORMATION**

When you do not touch any button on the “Display” screen for 20 seconds, the previous screen will be displayed.
NAVIGATION SYSTEM: BASIC FUNCTIONS

Color and tone adjustment
1. Touch the desired button to adjust color and tone.
   You can adjust the color and the tone while the DVD video, DVD audio and video CD are being played.
   “Color” “R”: Strengthens the red color of the screen.
   “Color” “G”: Strengthens the green color of the screen.
   “Tone” “+”: Strengthens the tone of the screen.
   “Tone” “−”: Weakens the tone of the screen.
2. After adjusting the screen touch “OK”.
   The screen goes off when “Screen Off” is touched. To turn the display screen back on, push the “DISP” button again.

INFORMATION
When you do not touch any button on the “Display” screen for 20 seconds, the previous screen will be displayed.

- Changing between day mode and night mode
  Depending on the position of the headlight switch, the screen changes to day mode or night mode.

  To display the screen in day mode even with the headlight switch on, touch “Day Mode” on the adjustment screen for brightness and contrast control.
  If the screen is set in day mode with the headlight switch turned on, this condition is memorized in the system even with the engine is turned off or the hybrid system is turned off.
  If the instrument panel light control switch is set to MAX, the displays condition is not changed to night mode even if headlight switch is turned on.
Help icon

When [?] appears on the screen, an explanation of the function can be displayed.

1. Touch [ ].

2. Touch the button of the desired function.

Map screen operation — Current position display

When starting the navigation system, the current position is displayed first. This screen displays the current vehicle position and a map of the surrounding local area.

The current vehicle position mark ( [ ] ) appears in the center or bottom center of the map screen.

A street name will appear on the bottom of the screen, depending on the scale of the map ( [ ] ).

You can return to this map screen that shows your current position at any time from any screen by pushing the “MAP/VOICE” button.

While driving, the current vehicle position mark is fixed on the screen and the map moves.

The current position is automatically set as the vehicle receives signals from the GPS (Global Positioning System). If the current position is not correct, it is automatically corrected after the vehicle receives signals from the GPS.

INFORMATION

- After the 12 volt battery disconnection, or on a new vehicle, the current position may not be correct. As soon as the system receives signals from the GPS, the correct current position is displayed.
- To correct the current position manually, see page 176.
— Screen scroll operation

When any point on the map is touched, that point moves to the center of the screen and is shown by the cursor mark (1).

Use the scroll feature to move the desired point to the center of the screen for looking at a point on the map that is different from the current position of the vehicle.

If the finger is continuously held on the screen, the map will continue scrolling in that direction until the finger is removed.

A street name, city name, etc. of the touched point will be shown, depending on the scale of the map (2). Distance from the current position to  will also be shown (3).

After the screen is scrolled, the map remains centered at the selected location until another function is activated. The current vehicle position mark will continue to move along your actual route and may move off the screen. When the “MAP/VOICE” button is pushed, the current vehicle position mark returns to the center of the screen and the map moves as the vehicle proceeds along the designated route.

**INFORMATION**

When the scroll feature is used, the current vehicle position mark may disappear from the screen. Move the map with a scroll again or push the “MAP/VOICE” button to return to the current vehicle position map location display.

• To set the cursor position as a destination

A specific point on the map can be set as a destination using the scroll function.

Touch “Enter”. The screen changes and displays the map location of the selected destination and the route preference. (See “Starting route guidance” on page 81.)
- To register the cursor position as an address book entry

  Address book entry registration enables easy access to a specific point.

  Touch “Mark”.

  When you touch “Mark”, the following screen appears for a few seconds, and then the map screen returns.

  The registered point is shown by on the map.

  To change the icon or name, etc., see "(b) Editing address book entries" on page 116.

  Up to 100 address book entries can be registered. If there is an attempt to register more than 100 address book entries, an error message will appear.

  Unable to save additional points. Please try again after deleting unnecessary points.
To see information about the icon where the cursor is set

To display information about an icon, set the cursor on it.

POI INFORMATION

When the cursor is set on a POI icon, the name and “Info.” are displayed at the top of the screen.

Touch “Info.”.

Information such as the name, address, and phone number are displayed.
If “Enter” is touched, the position of the cursor is set as a destination.
If there is already a set destination, “Go to” and “Add to Route” are displayed.
“Go to”: To delete the existing destinations and set a new one.
“Add to Route”: To add a destination.
To register this POI as an address book entry, touch “Mark”. (See page 115.)
If is touched, the registered telephone number can be called.
The desired Point of Interest can be displayed on the map screen. (See “Display POI icons” on page 100.)

When the cursor is set on an address book entry icon, the name and “Info.” are displayed at the top of the screen.

Touch “Info.”.
Information such as the name, address, and phone number are displayed.
If “Enter” is touched, the position of the cursor is set as a destination.
If there is already a set destination, “Go to” and “Add to Route” are displayed.
“Go to”: To delete the existing destinations and set a new one.
“Add to Route”: To add a destination.
To edit an address book entry, touch “Edit”. (See “(b) Editing address book entries” on page 116.)
To delete an address book entry, touch “Delete”.
If is touched, the registered telephone number can be called.

DESTINATION INFORMATION

When the cursor is set on a destination icon, the name and “Info.” are displayed on the top of the screen.

Touch “Info.”.

Information such as the name, address, and phone number are displayed.
To delete a destination, touch “Delete”.
If is touched, the registered telephone number can be called.
XM® NavTraffic TEXT INFORMATION
When you touch the XM® NavTraffic icon on the map, the XM® NavTraffic info. bar will appear on the upper part of the screen.

Touch “Info.”.

Traffic information is displayed on the screen.
Touch “Detail” to display detailed traffic event information.

— Switching the screens
Any one of the screen configurations can be selected.

1. Touch this button to display the following screen.

2. To select the desired screen configuration, touch one of the following buttons.
Depending on the conditions, certain screen configuration buttons cannot be selected.

- **Single Map**: To display the single map screen. (See page 38.)
- **Dual Map**: To display the dual map screen. (See page 39.)
- **Compass**: To display the compass mode screen. (See page 39.)
- **Freeway**: To display the freeway screen. (See page 86.)
- **Turn List**: To display the turn list screen. (See page 88.)
- **Arrow**: To display the arrow screen. (See page 88.)
- **Intersection**: To display the intersection guidance screen or the guidance screen on the freeway. (See page 87.)

**Screen configurations**

**SINGLE MAP**

This is a regular map screen. While on a different screen, touching **Single Map** will display the single map screen.

The screen shows the single map.
DUAL MAP
A map can be displayed split in two.
While on a different screen, touching will display the dual map screen.

The screen shows the dual map. The map on the left is the main map.
The right side map can be edited by touching any specific point on the right side map.

This screen can perform the following procedures:
1. Changing the map scale
2. Displaying the POI icon
3. Show XM® NavTraffic Info
   (See page 149.)
4. Changing the orientation of the map
   Touch “OK” when you complete editing.
   The screen returns to the dual map screen.

COMPASS MODE
Current vehicle position is indicated with a compass.
While on a different screen, touching will display the compass mode screen.

Information about the destination and current position, as well as a compass, is displayed on the screen.
The destination mark is displayed in the direction of the destination. When driving refer to the longitude and latitude coordinates, and the compass, to make sure that your vehicle is headed in the direction of the destination.

INFORMATION
When the vehicle travels out of the coverage area, the guidance screen changes to the compass mode screen.
— Map scale

Touch ▲ or ▼ to change the scale of the map display. The scale bar and indicator at the bottom of the screen indicates the map scale menu. The scale range is 150 feet (50 m) to 250 miles (400 km).

Touch ▲ or ▼ until the scale bar changes normally. By continuing to touch the button, the scale bar changes smoothly.

The scale of the map display can be changed by touching the scale bar directly. It is not available while driving.

The map scale is displayed under the north-up symbol or heading-up symbol at the top left of the screen.

—— INFORMATION ———

When the map scale is at the maximum range of 250 miles (400 km), is not shown. When the map scale is at the minimum range of 150 feet (50 m), is not shown. In areas where the foot print map is available the map scale changes from to when at the minimum range.

— Foot print map

For the area which is covered by the foot print map (Some areas in the following cities: Detroit, Chicago, N.Y., L.A), you can switch to the foot print map on a scale of 75 feet (25 m).

● To switch to the foot print map
changes into when the map is scaled down to 150 feet (50 m).

To display the foot print map, touch .

To delete the foot print map display, touch .

—— INFORMATION ———

● If the map or the current position is moved to the area which is not covered by the foot print map, the screen scale automatically changes to 150 feet (50 m).

● On the foot print map, a one way street is displayed by .

● It is not possible to perform scrolling on the foot print map while driving.

Building footprints in the database were created and provided by MAPMASTER.
• **To display building information**

Information is available only for buildings for which information is recorded on the map data.

Touch “Info.” while the footprint map is displayed.

Details of POIs in some buildings may be displayed.

For detailed POI information, touch the building name. You can see details of the selected POIs.

--- **Orientation of the map**

The orientation of the map can be changed from North-up to Heading-up by touching the orientation symbol at the top left of the screen.

**North-up screen**

![North-up screen](image)

**Heading-up screen**

Regardless of the direction of vehicle travel, North is always up.

**Heading-up symbol**

The direction of vehicle travel is always up. A red arrow indicates North.

### Voice command system

The voice command system enables you to operate the navigation system, audio/video system, air conditioning system and hands-free system by giving a command.

1. Push the talk switch.
   After a beep sounds, the “Voice Menu” screen is displayed.

INFORMATION

Voice guidance for the voice command system can be skipped by pushing the talk switch.
2. After a beep sounds, say the command of your choice.

Voice commands are marked with [ ].

Some commonly used commands are displayed on the screen. Speak the commands as displayed on the screen.

If you want to check the all command list, say “Command list” to display the command list screen. (See “— Command list” on page 47.)

3. Following voice guidance, say the command displayed on the screen.

If a desired outcome is not shown, or if no choices are available, say “Go back” or touch “Go Back” to return to the previous screen.

To cancel voice command recognition, say “Cancel”, touch “Cancel”, or push and hold the talk switch.

If the navigation system does not respond or the confirmation screen does not disappear, please push the talk switch and try again.

If a voice command cannot be recognized within 6 seconds, the voice guidance system will say “Pardon!” (“Command not recognized.” will be displayed on the screen) and voice command reception will restart.

If a voice command cannot be recognized two consecutive times, the voice guidance system will say “Paused. To restart voice recognition, push the talk switch.”, then be suspended.
**Microphone**

It is unnecessary to speak directly into the microphone when giving a command.

<table>
<thead>
<tr>
<th>INFORMATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>- Wait for the confirmation beep before speaking a command.</td>

</tr>
<tr>
<td>- Turning the air conditioning vents towards the microphone</td>
</tr>
<tr>
<td>- In the following conditions, the system may not recognize the command properly and using voice commands may not be possible.</td>
</tr>
<tr>
<td>- The command is not correct or clear.</td>
</tr>
<tr>
<td>- Note that certain words, accents, or speech patterns may be difficult for the system to recognize.</td>
</tr>
<tr>
<td>- There are some noises such as wind noise, etc.</td>
</tr>
</tbody>
</table>
• Voice command example: Searching for a route to your home.
1. Push the talk switch.
2. Say “Go home”.
If a home address is not registered, the voice guidance system will say “Your home is not set” and you will be prompted to enter a home address. (See page 109.)
When the voice command is recognized, a map of the area around your home is displayed.

3. Touch “Enter” or say “Enter”, and the system starts searching for a route to your home.
To return to the “Voice Menu” screen, say “Go back” or touch “Go Back”.
Touch “Cancel” or say “Cancel”, and the voice command system will be canceled.

— Natural speech information (English only)
Due to natural language speech recognition technology, this system enables recognition of a command when spoken naturally. However, the system cannot recognize every variation of each command. In some situations, it is possible to omit the command for the procedure and directly state the desired operation.

Expression examples for each function

In some situations, it is possible to omit a command for each procedure and to say the desired operation directly.

**EXPRESSION EXAMPLES WITH THE “Destination” SCREEN**

Normal command recognition —

Destination > Point of Interest > Near Here > Gas

The gas stations near the current location will be listed.

Natural speech recognition —

Destination > What gas stations are nearby?

The gas stations near the current location will be listed.

**INFORMATION**

Natural speech example:

“What’s the nearest Mexican restaurant?”

“What is the closest ATM?”

**EXPRESSION EXAMPLES WITH THE “Phone Menu” SCREEN (when making a call using a phonebook)**

Normal command recognition —

Phone > Dial by Name > Bob > mobile

The phone number will be displayed.

Natural speech recognition —

Phone > Call to Bob on his mobile

The phone number will be displayed.

**INFORMATION**

Natural speech example:

“Get me Rob Brown on the phone.”

“Please place a call to John on his mobile.”

**EXPRESSION EXAMPLES WITH THE “Phone Menu” SCREEN (when making a call by saying a phone number)**

Normal command recognition —

Phone > Dial by Number > 123–456–789

The phone number will be displayed.

Natural speech recognition —

Phone > Call to 123–456–789

The phone number will be displayed.

**INFORMATION**

The above mentioned command for making a call can also be recognized on the voice recognition top screen.

Natural speech example:

“I’d like to place a call to 123–456–789.”

“I want to buzz 123–456–789, please.”
EXPRESSION EXAMPLES WITH THE “Information Menu” SCREEN

Normal command recognition —
Information—XM Nav Weather—Los Angeles, California—The weather information will be displayed.

Natural speech recognition —
Information—Give me a weather report for Los Angeles, California—The weather information will be displayed.

INFORMATION
Natural speech example:
“How about Detroit, Michigan?”

EXPRESSION EXAMPLES WITH THE “Audio Menu” SCREEN (when the audio source is in satellite radio mode)

Normal command recognition —
Audio—Select Channel Number—90—The channel will be changed to the one selected.

Natural speech recognition —
Audio—Play channel ninety, please—The channel will be changed to the one selected.

INFORMATION
Natural speech example:
“Switch the channel to XM one seventy-five.”

VOICE RECOGNITION TOP SCREEN EXPRESSION EXAMPLES

Normal command recognition —
Command List—Dual Map—The map will be displayed in dual map mode.

Natural speech recognition —
Switch to dual map mode—The map will be displayed in dual map mode.

— Command list

The system has a voice recognition command list. You can operate the voice recognition system by saying any command from the displayed command list.

1. Push the talk switch.

INFORMATION
When the “Voice Menu” screen is displayed, all the commands in the voice recognition command list can be recognized.
NAVIGATION SYSTEM: BASIC FUNCTIONS

- Voice command example: Changing map screen
  1. Push the talk switch.
  2. Say “Command list”.
  3. Say “Dual map”.
     To confirm commands on the screen, touch ↑ or ↓ to scroll through the command list. This function is available only when the vehicle is not moving.
     When ↑ or ↓ is touched, push the talk switch again and say the command.

The screen shows the dual map.

- Voice command example: Changing map scale
  1. Push the talk switch.
  2. Say “Command list”.
  3. Say “Zoom in” or “Zoom out”.
     To confirm commands on the screen, touch ↑ or ↓ to scroll through the command list. This function is available only when the vehicle is not moving.
     When ↑ or ↓ is touched, push the talk switch again and say the command.

The scale of the map display is changed.

Destination search —

Push the “DEST” button.

You can use one of 11 different methods to search your destination. (See pages 62 through 80.)

INFORMATION

When searching the destination, the response to the screen button may be slow.

— Selecting the search area

Change the selected region in order to set a destination from a different region by using “Address”, “Point of Interest” or “Intersection & Freeway”.

1. Touch “Search Area” to display a map of the United States and Canada divided into 15 regions. (For map database information and updates, see “Map database information and updates” on page 188.)

2. Touch one of “US1” through “CAN” to select a region to search.

3. Touch “OK” and the previous screen returns.

</table>
— Destination search by Home

1. Push the “DEST” button.
2. Touch “Go Home”.

The screen changes and displays the map location for home and the route preference. (See “Starting route guidance” on page 81.)

If home has not been registered, a message will be displayed and the setting screen will automatically appear.

To use this function, it is necessary to set a “Home” address. (To register “Home”, see page 109.)

**INFORMATION**

Guidance starts from the current vehicle position to your home if “OK” is touched even while driving.

— Destination search by Preset destinations

1. Push the “DEST” button.
2. Touch any of the preset destination buttons on the “Destination” screen.

The screen changes and displays the map location of the preset destination point and the route preference. (See “Starting route guidance” on page 81.)

If a preset destination point has not been registered, a message will be displayed and the setting screen will automatically appear.

To use this function, it is necessary to set “Preset Destinations”. (To register “Preset Destinations”, see page 111.)

**INFORMATION**

Guidance starts from the current vehicle position to the preset destination point if “Go to” is touched even while driving.
— Destination search by "Address"

There are 2 ways to search a destination by address.
(a) Search by city
(b) Search by street address

1. Push the “DEST” button.
2. Touch “Address” on the “Destination” screen.
3. Touch the button for the desired method.

(a) Selecting a city to search
1. Push the “DEST” button.
2. Touch “Address” on the “Destination” screen.

3. Touch “City”.
4. Input a city name.
5. Touch the button of the desired city name from the displayed list.
6. Input the street name and touch “OK”.

7. When the desired street name is found, touch the corresponding button.

   The screen changes and displays the map location of the selected destination and the route preference. (See “Starting route guidance” on page 81.)

8. Input a house number.

   If the same address exists in more than one city, the current screen changes to the address list screen.
SELECTING FROM THE LAST 5 CITIES

1. Touch “Last 5 Cities”.

2. Touch the button of the desired city name.
   If the navigation system has never been used, this function will not be available.
   The current screen changes to the screen for inputting a street name. (See "(a) Selecting a city to search" on page 63.)

(b) Search by street address
1. Push the “DEST” button.
2. Touch “Address” on the “Destination” screen.
3. Touch “Street Address”.
4. Touch numbers directly on the screen to input a house number.
   After inputting a house number, touch “OK” to display the screen for inputting a street name.
5. Input the street name and touch “OK”.

6. When the desired street name is found, touch the corresponding button.

   The screen changes and displays the map location of the selected destination and the route preference. (See “Starting route guidance” on page 81.)

   If the same address exists in more than one city, the current screen changes inputting the city name or to the address list screen.

7. Input a city name.

8. Touch the button of the desired city name from the displayed list.

   **INFORMATION**

   You can search for a street name using just the body.

   **Example:** S WESTERN AVE

   You can input “S WESTERN AVE”, “WESTERN AVE” or “WESTERN”
— Destination search by “Point of Interest”

There are 4 ways to search by Points of Interest.
(a) Search by name
(b) Search by category
(c) Search by phone #
(d) Search by eDestination

1. Push the “DEST” button.
2. Touch “Point of Interest” on the “Destination” screen.
3. Touch the button for the desired method.

(a) Search by “Name”
1. Push the “DEST” button.
2. Touch “Point of Interest” on the “Destination” screen.
3. Touch “Name” on the “Point of Interest” screen.
4. Input the name of the Point of Interest.
5. Touch the button of the desired destination.

The screen changes and displays the map location of the selected destination and the route preference. (See “Starting route guidance” on page 81.)

When inputting the name of a specific Point of Interest, and there are two or more sites with the same name, the list screen is displayed.

INFORMATION

To search for a facility name using multiple search words, put a space between each word.
NAVIGATION SYSTEM: DESTINATION SEARCH

Touch the button of the desired destination.
If the same name exists in more than one city, a search can be performed more easily with “City” and “Category”. (See “Selecting a city to search” on page 68 and “Selecting from the categories” on page 69.)

INFORMATION
The desired Point of interest can be displayed on the map screen. (See “— Display POI icons” on page 100.)

Selecting a city to search

1. Touch “City”.

2. Input the city name.

3. Touch the button of the desired city name from the displayed list.

INFORMATION
To cancel the city setting, touch “Any City”.

INFORMATION
The desired Point of interest can be displayed on the map screen. (See “— Display POI icons” on page 100.)
- Selecting from the categories

(b) Search by “Category”

The destination can be set by touching the search point and the POI category.
1. Push the “DEST” button.
2. Touch “Point of Interest” on the “Destination” screen.
3. Touch “Category” on the “Point of Interest” screen.

Set the search point by the following method:
1. Set the search point from near the vehicle's current position
2. Set the search point from along the chosen route
3. Set the search point from near a city center
4. Set the search point from near a destination

It is possible to display the names of POIs located within approximately 200 miles (320 km) from the selected search point.

Touch “Category”.

If the desired POI category is on the screen, touch the name to display a detailed list of the POI category.
If the desired POI category is not on the screen, touch “List All Categories” to list all POI categories.

When the desired category is touched, the POI name list screen is displayed.
SETTING THE SEARCH POINT FROM NEAR HERE
Touch “Near Here”.
The search point is set at the current position, and the “POI Category” screen will be displayed. (See page 72.)

SETTING THE SEARCH POINT FROM ALONG MY ROUTE
Touch “Along My Route”.
The search point is set and the “POI Category” screen will be displayed. (See page 72.)
SELECTING FROM THE LAST 5 CITIES
1. Touch “Near City Center”.
2. Touch “Last 5 Cities”.
3. Touch the button of the desired city center name.

The search point is set and the “POI Category” screen will be displayed.
(See page 72.)

SETTING THE SEARCH POINT FROM NEAR A DESTINATION
1. Touch “Near a Destination”.
2. Touch the button of the desired destination.

The search point is set and the “POI Category” screen will be displayed.
(See page 72.)
To search POIs near the search point

When the search point is set, the “POI Category” screen will be displayed.

Touch the desired POI category.

If the desired POI category is not on the screen, touch “List All Categories” to list all POI categories.

Touch the desired POI category from the list.

By touching the button of the desired item, the screen changes and displays the map location of the selected destination and the route preference. (See “Starting route guidance” on page 81.)

Search by “Phone #”

1. Push the “DEST” button.
2. Touch “Point of Interest” on the “Destination” screen.
3. Touch “Phone #” on the “Point of Interest” screen.

4. Input a telephone number.
5. After inputting a telephone number, touch “OK”.

The screen changes and displays the map location of the selected destination and the route preference. (See “Starting route guidance” on page 81.)

If there is more than one site with the same number, the following screen will be displayed.
If there is no match for the telephone number inputted, a list of identical numbers with different area codes will be displayed.

To set an address book entry as a destination using the phone number, the number must already be registered. (See page 119.)

(d) Search by “eDestination”
1. Push the “DEST” button.
2. Touch “Point of Interest” on the “Destination” screen.
3. Touch “eDestination” on the “Point of Interest” screen.

With the eDestination feature, you can go online, via the Lexus.com owner’s Web site, to select and organize destinations of your choice and then wirelessly send them to your vehicle’s navigation system. You can store up to 200 locations online to access and update at any time. Your locations can be organized into up to 20 folders. (See “eDestination” on page 136.)
1. Push the “DEST” button.
2. Touch “Destination Assist” on the “Destination” screen.

Destination Assist provides you with live assistance for finding destinations via the Lexus Enform response center. You can request either a specific business, address, or ask for help locating your desired destination by category, such as restaurants, gas stations, shopping centers or other points of interest (POI). After you tell the agent your choice of destination, its coordinates are sent wirelessly to your vehicle’s navigation system. (See “Destination Assist” on page 133.)

1. Push the “DEST” button.
2. Touch “Previous Destinations” on the “Destination” screen.
3. Touch the button of the desired destination.
   “Delete”: To delete the previous destination. (To delete previous destinations, see page 125.)

The screen changes and displays the map location of the selected destination and the route preference. (See “Starting route guidance” on page 81.)

**INFORMATION**

The list of previous destinations can also be deleted by touching “Delete Previous Dest.” on the “Navigation Settings” screen when the vehicle is stopped. (See “ — Deleting previous destinations” on page 125.)
### Destination search by “Address Book”

1. Push the “DEST” button.
2. Touch “Address Book” on the “Destination” screen.
   
   A list of registered address book entries is displayed.

3. Touch the button of the desired address book entry.
   
   “Options”: To register or edit address book. (See page 114.)

   The screen changes and displays the map location of the selected destination and the route preference. (See “Starting route guidance” on page 81.)

### Destination search by “Emergency”

1. Push the “DEST” button.
2. Touch “Emergency” on the second page of the “Destination” screen.

   The display changes to a screen to select police stations, dealers, hospitals or fire stations. While driving, only nearby police stations, dealers, hospitals, or fire stations are shown. The current position is shown with an address, and the latitude and the longitude at the top of the screen.

3. Touch the desired emergency category.

   The selected emergency category list is displayed.
4. Touch the button of the desired destination.
The screen changes and displays the map location of the selected destination and the route preference. (See “Starting route guidance” on page 81.)

INFORMATION
The navigation system does not guide in areas where route guidance is unavailable. (See page 187.)

— Destination search by “Intersection & Freeway”

There are 2 ways to search.
(a) Search by intersection
(b) Search by Freeway Entrance/Exit
1. Push the “DEST” button.
2. Touch “Intersection & Freeway” on the second page of the “Destination” screen.
3. Touch the button for the desired method.
(a) Search by “Intersection”

1. Push the “DEST” button.
2. Touch “Intersection & Freeway” on the second page of the “Destination” screen.
3. Touch “Intersection” on the “Intersection & Freeway” screen.
4. Input the name of the first intersecting street which are located near the destination to be set.
5. Touch “OK”.
6. Touch the button of the desired item.
7. Input the name of the second intersecting street.
8. Touch the button of the desired item.

After inputting the two intersecting streets, the screen changes and displays the map location of the selected destination and the route preference. (See “Starting route guidance” on page 81.)
If the same two streets cross at more than one intersection, the screen changes and displays the menu to select the city name where the streets intersect. Select the city, and the map location of the selected destination and the route preference. (See “Starting route guidance” on page 81.)

(b) Search by “Freeway Entrance/Exit”
1. Push the “DEST” button.
2. Touch “Intersection & Freeway” on the second page of the “Destination” screen.
3. Touch “Freeway Entrance/Exit” on the “Intersection & Freeway” screen.

4. To input a freeway name.
   Be sure to use the complete name of the freeway or highway, including the hyphen, when entering the destination. Freeways and interstates use an “I” (I−405). US highways use the state designation before the number (CA−118).

5. Select the desired freeway by touching the button.
6. Either a freeway "Entrance" or "Exit" can be selected.

7. Input a freeway entrance or exit name.

8. Touch "OK".

9. Touch the button of the desired entrance or exit name.

The screen changes and displays the map location of the selected destination and the route preference. (See "Starting route guidance" on page 81.)

— Destination search by "Map"

1. Push the "DEST" button.

2. Touch "Map" on the second page of the "Destination" screen.

The screen changes and displays the map location that was previously displayed just before the destination input operation and the route preference. (See "Starting route guidance" on page 81.)
— Destination search by “Coordinates”

1. Push the “DEST” button.
2. Touch “Coordinates” on the second page of the “Destination” screen.
3. Input the latitude and the longitude.
4. When the input is finished, touch “OK”.

By touching the button of the desired point, the screen changes and displays the map location of the selected destination and the route preference. (See “Starting route guidance” on page 81.)

— Deleting set destinations

A set destination can be deleted.

1. Push the “DEST” button.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.
   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.
4. Touch “Delete”. 
A message appears to confirm the request to delete.

5. To delete the destination(s), touch “Yes”.

If “Yes” is touched, the data cannot be recovered.
If “No” is touched, the previous screen will return.

The system searches for the guidance route again, and displays the entire route.

**INFORMATION**

Set destinations can also be deleted by touching “Route”. (See “ — Deleting destinations” on page 93.)

**Starting route guidance**

After inputting the destination, the screen changes and displays the map location of the selected destination and the route preference.

1. Scroll the map to the desired point.

“Adjust Location”: To adjust the position in smaller increments.

When an arrow facing the desired point is touched, the map scrolls in that direction.

The scroll stops when the selection of the arrow is released.

2. Touch “Go to”。

The system starts route search and displays recommended routes.
If there is already a set destination, “Go to” and “Add to Route” are displayed.

“Go to”：To delete the existing destinations and set a new one.

“Add to Route”：To add a destination.

“Info.”：If this button is displayed on the top of the screen, touch it to view items such as name, address, and phone number.
NAVIGATION SYSTEM: DESTINATION SEARCH

1. Current position
2. Destination point
3. Type of the route and the distance
4. Distance of the entire route

3. To start guidance, touch “OK”.
   “Turn List”: The following screen displays the list of the roads up to the destination.
   “3 Routes”: To select the desired route from 3 possible routes. (See page 83.)
   “Edit Route”: To change the route. (See page 84.)

INFORMATION

- Guidance can be paused or resumed. (See “— Pausing and resuming guidance” on page 99.)
- If “OK” is touched until a beep sounds, demo mode will start. Push the “MAP/VOICE” button to finish Demo mode.
- The route for returning may not be the same as that for going.
- The route guidance to the destination may not be the shortest route nor a route without traffic congestion.
- Route guidance may not be available if there is no road data for the specified location.
- When setting the destination on a map with a scale larger than 0.5 miles (800 m), the map scale changes to 0.5 miles (800 m) automatically. Set the destination again.
- If a destination is entered, the road nearest to the point you selected is set as the destination.

CAUTION

Be sure to obey traffic regulations and keep road conditions in mind while driving. If a traffic sign on the road has been changed, the route guidance may not indicate such changed information.
3 ROUTES SELECTION

1. To select the desired route from 3 routes, touch “3 Routes”.

2. Touch “Quick”, “Alt.” or “Short” to select the desired route.
   “Quick”: Recommended route. This route is indicated by an orange line.
   “Alt.”: Alternative route. This route is indicated by a purple line.
   “Short”: A route by which you can reach the destination in the shortest distance. This route is indicated by a green line.
   “Info.”: To display the following information about each of the 3 routes.

   1. Time necessary for the entire trip
   2. Distance of the entire trip
   3. Toll road
   4. Freeway
   5. Ferry
• **Edit route**
  You can again designate the conditions of the route to the destination.

Touch “Edit Route”.

```
“Add”: To add destinations.  
(See page 92.)
“Delete”: To delete destinations.  
(See page 93.)
“Reorder”: To reorder destinations.  
(See page 92.)
“Preferences”: A number of choices are provided on the conditions which the system uses to determine the route to the destination. (See page 97.)
```

---

**INFORMATION**

- Even if the “Freeways” indicator is dimmed, the route cannot avoid including a freeway in some cases.
- If the calculated route includes a trip by ferry, the route guidance shows a sea route. After you travel by ferry, the current vehicle position may be incorrect. Upon reception of GPS signals, it is automatically corrected.
SECTION 3

NAVIGATION SYSTEM: ROUTE GUIDANCE

*: Point of Interest
Route guidance screen

During route guidance, various types of guidance screens can be displayed depending on conditions.

- **Screen layout**

1. Distance to the next turn and the arrow indicating turning direction
2. Current street name
3. Distance and travel/arrival time to the destination
4. Current position
5. Guidance route

---

**INFORMATION**

- If the vehicle goes off the guidance route, the route is searched again.
- For some areas, the roads have not been completely digitized in our database. For this reason, the route guidance may select road that should not be traveled on.
- When you arrive at your destination, the destination name will be displayed on the top of the screen. Touching “Off” clears the display.

---

- **During freeway driving**

During freeway driving, the freeway exit information screen will be displayed. This screen displays the distance to the next junction and exit, or POIs in the vicinity of the freeway exit.

1. Current position
2. Points of Interest that are close to a freeway exit
3. Exit number and junction name
4. Distance from the current position to the exit or junction
5. Current street name

“Map”: To display the selected map of the exit vicinity.

:: To scroll for farther junctions or exits.

:: To scroll for closer junctions or exits.

:: To scroll for the closest 3 junctions or exits.
● When approaching a freeway exit or junction
When the vehicle approaches an exit or junction, the guidance screen for the freeway will be displayed.

1. Next street name
2. Distance from the current position to the exit or junction
3. Current position

“Off”: The guidance screen on freeway disappears and the map screen appears.

When touching the "MAP/VOICE" button, the guidance screen on freeway reappears.

● When approaching an intersection
When the vehicle approaches an intersection, the intersection guidance screen will be displayed.

1. Next street name
2. Distance to the intersection
3. Current position

“Off”: The intersection guidance screen disappears and the map screen appears.

When touching the "Intersection" button or pushing the “MAP/VOICE” button, the intersection guidance screen reappears.
NAVIGATION SYSTEM: ROUTE GUIDANCE

- **Other screens**
- **TURN LIST SCREEN**
  On this screen, the list of turns on the guidance route can be viewed. Touching during guidance displays the turn list.

  - **1** Next street name or destination name
  - **2** Turn direction
  - **3** Distance between turns
  - **4** Current street name

- **ARROW SCREEN**
  On this screen, information about next turns on the guidance route can be viewed. Touching during guidance displays the arrow screen.

  - **1** Exit number, street name containing number or next street name
  - **2** Turn direction
  - **3** Distance to the next turn
  - **4** Current street name
Typical voice guidance prompts

The voice guidance provides various messages as you approach an intersection, or other point where you need to maneuver the vehicle.

1 🎧 “Proceed about 5 miles to Main street.”
2 🎧 “In half of a mile, right turn onto Main street.”
3 🎧 “Right turn.”
4 🎧 (Beep sound only)

INFORMATION

- The street names may not be pronounced correctly or clearly due to text-to-speech function.
- On freeways, interstates or other highways with higher speed limits, the voice guidance will be made at earlier points than on city streets in order to allow time to maneuver.
*: The system indicates a U-turn if the distance between two one-way roads (of opposite directions) is less than 50 feet (15 m) in residential areas or 164 feet (50 m) in non-residential areas.

1 🎵 "In half of a mile, make a legal U-turn."

2 🎵 "Make a legal U-turn ahead."

3 🎵 (Beep sound only)

The system announces the approach to the final destination.

1 🎵 “Your destination is ahead.”

2 🎵 “You have arrived at your destination. The route guidance is now finished.”

INFORMATION

- If the system cannot determine the current vehicle position correctly (in cases of poor GPS signal reception), the voice guidance may be made early or delayed.
- If you did not hear the voice guidance command, push the “MAP/VOICE” button to hear it again.
- To adjust the voice guidance volume, see “Voice volume” on page 168.
Distance and time to destination

When the vehicle is on the guidance route, the distance and the estimated travel/arrival time to the destination are displayed. When the vehicle is not on the guidance route, the distance and the direction of the destination are displayed.

When driving on the guidance route and more than one destination is set, the distance and the estimated travel/arrival time from the current position to each destination are displayed.

1. Touch this button to display the following screen.

2. Touch the number button to display the desired destination.

The distance, the estimated travel time and the estimated arrival time from the current position to the selected destination are displayed.

Estimated travel time is displayed.

Estimated arrival time is displayed.

To switch to estimated arrival time.

To switch to estimated travel time.

Displayed while driving off the guidance route. The destination direction is indicated by an arrow.

INFORMATION

When the vehicle is on the guidance route, the distance measured along the route is displayed. Travel time and arrival time is calculated based on the set vehicle speed information. (See page 172.) However, when the vehicle is not on the guidance route, the distance is the linear distance between the current position and the destination.
Setting and deleting destinations —

— Adding destinations

You can add destinations and search again for the routes.

1. Touch “Route”.

2. Touch “Add”.

3. Input an additional destination in the same way as the destination search. (See “Destination search” on page 60.)

4. Touch the desired “Add Destination Here” to determine the arrival order of the additional destination.

— Reordering destinations

When more than one destination is set, you can change the arrival order of the destinations.

1. Touch “Route”.

2. Touch “Reorder”.

3. Touch the desired destination and touch “Move Up” or “Move Down” to change the arrival order.

4. Touch “OK”.

5. After selecting the destinations, touch “OK”. The system searches for the guidance route again, and displays the entire route.
— Deleting destinations

A set destination can be deleted.

1. Touch “Route”.

2. Touch “Delete”.

When more than one destination is set, a list will be displayed on the screen.

3. Touch the destination for deletion.

   “Select All”: To select all destinations on the list.
   “Unselect All”: To unselect all of the selected destinations.

   A message appears to confirm the request to delete.

4. To delete the destination(s), touch “Yes”.

   If “Yes” is touched, the data cannot be recovered.
   If “No” is touched, the previous screen will return.

   The system searches for the guidance route again, and displays the entire route.
NAVIGATION SYSTEM: ROUTE GUIDANCE

Setting route —
— Detour setting

While the route guidance is operating, you can change the route to detour around a section of the route where a delay is caused by road repairs, or an accident, etc.

1. Touch “Route”.

2. Touch “Detour”.

3. Touch the button below to select the desired detour distance.
   “1 mile (km)”, “3 miles (km)” or “5 miles (km)”: Touch one of these buttons to start the detour process. After detouring, the system returns to the original guidance route.
   “Whole Route”: By touching this button, the system will calculate an entire new route to the destination.
   “Around Traffic”: If you touch this button, the system will search for the route based on the traffic congestion information received from XM® NavTraffic. For details, see “XM® NavTraffic” on page 149.
This picture shows an example of how the system would guide around a delay caused by a traffic jam.

1. This position indicates the location of a traffic jam caused by road repairs or an accident.
2. This route indicates the detour suggested by the system.

**INFORMATION**

- When your vehicle is on a freeway, the detour distance selections are 5, 15, and 25 miles (km).
- The system may not be able to calculate a detour route depending on the selected distance and surrounding road conditions.

---

1. Touch “Route”.

2. Touch “Overview”.

The entire route from the current position to the destination is displayed.
“OK”: To start guidance.
“Turn List”: The following screen displays the list of the roads up to the destination.
“Preview”: To preview the route.
You can scroll through the list of roads by touching ▼ or ▲. However, not all road names in the route may appear on the list. If a road changes its name without requiring a turn (such as on a street that runs through two or more cities), the name change will not appear on the list. The street names will be displayed in order from the starting point, along with the distance to the next turn.

These marks indicate the direction in which you should turn at an intersection.

Touch “Map” on the “Turn List” screen. The point which you choose is displayed on the map screen.

1. Touch “Route”.

2. Touch “Overview”.

3. Touch “Preview”.

Route preview
NAVIGATION SYSTEM: ROUTE GUIDANCE

— Route preference

1. Touch “Route”.

2. Touch “Preferences”.

3. Touch “Quick”, “Short” or “Alternate” and touch “OK”.

— To select route type

You can designate the route conditions of the route to the destination.

To indicate the next destination.

To preview the route to the next destination.

To preview the route to the next destination in fast-forward mode.

To stop the preview.

To review the route to the previous destination or starting point.

To review the route to the previous destination or starting point in fast-forward mode.

To indicate the previous destination or starting point.
The entire route from the starting point to the destination is displayed.

"OK": To start guidance.

"Edit Route": To change a route. (See page 84.)

To select route features
A number of choices are provided on the conditions which the system uses to determine the route to the destination.

1. Touch “Route”.

2. Touch “Preferences” to change the conditions that determine the route to the destination.

3. Select the desired route preference by touching the button.

When searching for a route, the system will avoid routes when the indicator is off.

4. After choosing the desired route preference, touch “OK”.
Starting route from adjacent road
You can start the route guidance from the adjacent road.
(ex. When route guidance is set on the freeway, but the vehicle is driven parallel along the freeway.)

1. Touch “Route”.
2. Touch “Preferences”.
3. Touch “Start from Adjacent Road”.
   When there is no adjacent road, this button will not be displayed.

--- Pausing and resuming guidance

To pause guidance

1. Touch “Route”.
2. Touch “Pause Guidance”.

The screen will return to the current position map without route guidance.

INFORMATION
Without route guidance, “Pause Guidance” cannot be used.
To resume guidance

1. Touch “Route”.

2. Touch “Resume Guidance”.

The screen will change to the current position map with route guidance.

Show on map — Display POI icons

Points of interest such as gas stations and restaurants can be displayed on the map screen. You can also set their location as a destination and use them for route guidance.

1. Touch “Show on Map”.

2. Touch “Select POI” to display a particular type of Point of Interest on the screen.

When the Points of Interest to be displayed on the map screen have already been set, “Change POI” is displayed.

A screen with a limited choice of Points of Interest will be displayed. (To change the displayed POI, see page 174.)
• Selecting POIs to be displayed
Up to 5 categories of icons can be displayed on the screen.

Touch the desired Point of Interest category to display POI location symbols on the map screen.

By touching the desired POI category and then touching “OK”, the selected POI icons are displayed on the map screen.

To turn off the Points of Interest icons on the map screen, touch “Clear”.

“Other POIs”: If the desired Point of Interest can not be found on the limited choice screen, touch this button.

“Find Local POI”: When searching for the nearest Point of Interest, touch this button. Then choose one of the categories. The system will list the points within 200 miles (320 km). (See page 102.)

Touch “Other POIs” on the “Select POI Icons” screen.
When a Point of Interest category is selected from either the limited list or the complete list, the screen will display symbols of those locations on the map screen.

Touch the desired POI categories.
The selected category icon appears on the top left of the screen.
By touching the desired POI category and then touching “OK”, the selected POI icons are touching on the map screen.
If the desired POI category is not on the screen, touch “List All Categories” to list all POI categories.
Touch the desired POI categories from the list.
The selected category icon appears on the top left of the screen.
By touching the desired POI category and then touching “OK”, the selected POI icons are displayed on the map screen.
To return to the POI category selection screen, touch “More”.

To display the local POI list
Points of Interest that are within 200 miles (320 km) of the current position will be listed from among the selected categories.

1. Touch “Find Local POI” on the “Select POI Icons” screen.

2. Touch the button of the desired Point of Interest.
The selected Points of Interest are displayed on the map screen.
“Near...”; To search for Points of Interest near the current position or along the route.
“Near Here” : When “Near Here” is touched, the list of Points of Interest near the current position will be displayed.

“Along My Route” : When “Along My Route” is touched, the list of Points of Interest along the route will be displayed.

- To set a POI as a destination

You can select one of the Points of Interest icons on the map screen as a destination and use it for route guidance.

1. Directly touch the Point of Interest icon that you want to set as a destination.

The map will shift so that the icon is centered on the screen and overlaps with the cursor. At this time, the distance from the current position is displayed on the screen. The distance shown is measured as a straight line from the current vehicle position to the POI.

2. When the desired Point of Interest overlaps with the cursor, touch “Enter”.

The screen changes and displays the map location of the selected destination and route preference. (See “Starting route guidance” on page 81.)
NAVIGATION SYSTEM: ROUTE GUIDANCE

- To hide POI icons

1. Touch “Show on Map”.

2. Touch “POI Icons”.
   The “POI Icons” indicator is dimmed.
   The map screen will be displayed with the POI icons hidden.
   To display the POI icons again, touch “POI Icons” on the “Show on Map” screen.

— Route trace

It is possible to store the traveled route up to 124 miles (200 km) and retrace the route on the display.

INFORMATION
This feature is available on the map with more detailed map scale than 30 miles (50 km).
To start recording the route trace

1. Touch “Show on Map”.
2. Touch “Route Trace”. “Route Trace” indicator is highlighted.

To stop recording the route trace

1. Touch “Show on Map”.
2. Touch “Route Trace”. The following screen will be displayed.

Touching “Yes” stops recording and the route trace remains displayed on the screen.
Touching “No” stops recording and the route trace is erased.

— Setting up the “Home”

If home has been registered, that information can be recalled by using “Go Home” on the “Destination” screen. (See “— Destination search by Home” on page 62.)

1. Push the “SETUP” button.
3. Touch “Home”.

(a) Registering home
1. Push the “SETUP” button.
4. Touch “Set Home”.
5. Enter the location in the same way as for a destination search. (See “Destination search” on page 60.)

- Registering home (See page 109.)
- Editing home (See page 110.)
- Deleting home (See page 111.)
When registration of home is completed, the "Edit Home" screen will be displayed.

6. Touch “OK”.
To edit registered information, see “(b) Editing home” on page 110.

(b) Editing home
1. Push the “SETUP” button.
4. Touch “Edit”.
5. Touch “Edit” for the item you want to change.
   “Name”: To edit home name. The names can be displayed on the map. (See page 118.)
   “Location”: To edit location information. (See page 119.)
   “Phone #”: To edit telephone numbers. (See page 119.)
   “Icon”: To select icons to be displayed on the map. (See page 117.)
6. Touch “OK”.

(See page 118.)
(c) Deleting home
1. Push the “SETUP” button.
4. Touch “Delete”.
5. To delete home, touch “Yes”. To cancel the deletion, touch “No”.

— Setting up the “Preset Destinations”

If preset destination has been registered, that information can be recalled by using “Preset Destination” on the “Destination” screen. (See “— Destination search by Preset destinations” on page 62.)
1. Push the “SETUP” button.
3. Touch “Preset Destinations”.

- Registering preset destination (See page 112.)
- Editing preset destination (See page 113.)
- Deleting preset destination (See page 114.)
(a) Registering preset destinations

1. Push the “SETUP” button.
3. Touch “Preset Destinations” on the “Navigation Settings” screen.
4. Touch “Set”.
5. Enter the location in the same way as for a destination search. (See “Destination search” on page 60.)
6. Touch a position for this preset destination.

When registration of preset destination is completed, the “Edit Preset Destination” screen will be displayed.

7. Touch “OK”.
To edit registered information, see "(b) Editing preset destinations" on page 113.
(b) Editing preset destinations
1. Push the “SETUP” button.
3. Touch “Preset Destinations” on the “Navigation Settings” screen.
4. Touch “Edit”.
5. Touch the button of the desired preset destination.
6. Touch “Edit” for the item you want to change.
   - “Name”: To edit preset destination names. The names can be displayed on the map. (See page 118.)
   - “Location”: To edit location information. (See page 119.)
   - “Phone #”: To edit telephone numbers. (See page 119.)
   - “Icon”: To select icons to be displayed on the map. (See page 117.)
7. Touch “OK”. 

Deleting preset destinations

1. Push the “SETUP” button.
3. Touch “Preset Destinations” on the “Navigation Settings” screen.
4. Touch “Delete”.
5. Touch the preset destination for deletion.
   “Select All”: To select all preset destinations on the list.
   “Unselect All”: To unselect all of the selected preset destinations.
6. Touch “Delete”.
7. To delete preset destination, touch “Yes”. To cancel the deletion, touch “No”.

— Setting up the “Address Book”

Points or areas on the map can be registered.
1. Push the “SETUP” button.
3. Touch “Address Book”.

- Registering address book entries (See page 115.)
- Editing address book entries (See page 116.)
- Deleting address book entries (See page 120.)
(a) Registering address book entries
1. Push the “SETUP” button.
4. Touch “New”.
5. Enter the location in the same way as for a destination search. (See “Destination search” on page 60.)
   After the address book entry has been registered, the “Edit Address Book Entry” screen will be displayed.
6. Touch “OK”.
   To edit registered information, see “(b) Editing address book entries” on page 116.

INFORMATION
Up to 100 address book entries can be registered.
(b) Editing address book entries

The icon, name, location and/or telephone number of a registered address book entry can be edited.

1. Push the “SETUP” button.
4. Touch “Edit”.
5. Touch the button of the desired address book entry.
6. Touch “Edit” for the item you want to change.
   “Name”: To edit address book entry names. The names can be displayed on the map. (See page 118.)
   “Location”: To edit location information. (See page 119.)
   “Phone #”: To edit telephone numbers. (See page 119.)
   “Icon”: To select icons to be displayed on the map. (See page 117.)
7. Touch “OK”.

8. Touch “OK” again to complete the editing process.
To change “Icon”

1. Touch “Edit” of “Icon”.
2. Touch the desired icon.

Change pages by touching “Page 1”, “Page 2” or “With Sound” tab.

SOUND ICONS

You can set a sound for some address book entries. When the vehicle approaches the location of the address book entry, the selected sound will be heard.

1. Touch “With Sound” on the “Address Book Entry Icon” screen.
2. Touch the desired sound icon.

The next screen appears when “Bell (with Direction)” is touched.

Touch either or to adjust the direction. Touch “OK”.

The bell sounds only when the vehicle approaches this point in the direction that has been set.
To change “Name”

1. Touch “Edit” of “Name”.
2. Enter the name using the alphanumeric keys. Up to 32 characters can be entered.
3. Touch “OK”.

The previous screen will be displayed.

DISPLAYING MEMORY POINT NAMES

The name of an address book entry can be set to display on the map.

To show the name, touch “On” on the “Edit Address Book Entry” screen. To not show it, touch “Off”.

The previous screen will be displayed.
To change “Location”

1. Touch “Edit” of “Location”.
2. Touch one of the 8 directional buttons to move the cursor to the desired point on the map.
3. Touch “OK”. The previous screen will be displayed.

To change “Phone #” (telephone number)

1. Touch “Edit” of “Phone #”.
2. Enter the number using number keys.
3. Touch “OK”. The previous screen will be displayed.
(c) Deleting address book entries

1. Push the “SETUP” button.
4. Touch “Delete”.
5. Touch the button to be deleted.
   “Select All”: To select all addresses in the address book.
   “Unselect All”: To unselect all of the selected addresses.
6. Touch “Delete”.
7. To delete the address book entry, touch “Yes”. To cancel the deletion, touch “No”.

Areas you want to avoid because of traffic jams, construction work or other reasons can be registered as areas to avoid.

1. Push the “SETUP” button.
3. Touch “Areas to Avoid”.

- Registering areas to avoid (See page 121.)
- Editing areas to avoid (See page 122.)
- Deleting areas to avoid (See page 125.)
(a) Registering areas to avoid
1. Push the “SETUP” button.
3. Touch “Areas to Avoid” on the “Navigation Settings” screen.
4. Touch “New”.
5. Enter the location in the same way as for a destination search, or display the map of the area to be avoided. (See “Destination search” on page 60.)

6. Scroll the map to the desired point.
   “Adjust Location”: To adjust the position in smaller increments.
7. Touch “Enter”.
8. Touch either or to change the size of the area to be avoided.
9. Touch “OK”.

INFORMATION
- If a destination is input in the area to avoid or the route calculation cannot be made without running through the area to avoid, a route passing through the area to be avoided may be shown.
- Up to 10 locations can be registered as points/areas to avoid.
(b) Editing area to avoid
The name, location and/or area size of a registered area can be edited.
1. Push the “SETUP” button.
3. Touch “Areas to Avoid” on the “Navigation Settings” screen.
4. Touch “Edit”.
5. Touch the desired area button.
6. Touch “Edit” for the item you want to change.
   “Name”: To edit the name of the area to avoid. The names can be displayed on the map. (See page 123.)
   “Location”: To edit area location. (See page 124.)
   “Size”: To edit area size. (See page 124.)
   “Active”: To turn on or off the area to avoid feature. To turn on the feature, touch “On” on the “Area to Avoid” screen. To turn off the feature, touch “Off” on the “Area to Avoid” screen.
7. Touch “OK”.

5. Touch the desired area button.
To change “Name”

1. Touch “Edit” of “Name”.
2. Enter the name using alphanumeric keys.
   Up to 32 characters can be entered.
3. Touch “OK”.
   The previous screen will be displayed.

DISPLAYING NAMES OF AREAS TO BE AVOIDED

The name of an area to be avoided that may be displayed on the map can be set.

To show the name, touch “On” on the “Area to Avoid” screen. To not show it, touch “Off”.

To change “Name”
To change “Location”

1. Touch “Edit” of “Location”.
2. Touch the 8 directional button to move the cursor to the desired point on the map.
3. Touch “OK”.
The previous screen will be displayed.

To change “Size”

1. Touch “Edit” of “Size”.
2. Touch either or to change the size of the area to be avoided.
3. Touch “OK”.
The previous screen will be displayed.
(c) Deleting areas to avoid
1. Push the “SETUP” button.
3. Touch “Areas to Avoid” on the “Navigation Settings” screen.
4. Touch “Delete”.
5. Touch the button to be deleted.
   “Select All”: To select all registered areas to avoid in the system.
   “Unselect All”: To unselect all registered areas to avoid in the system.
6. Touch “Delete”.
7. To delete the area, touch “Yes”. To cancel the deletion, touch “No”.

— Deleting previous destinations

The previous destination can be deleted.
1. Push the “SETUP” button.
3. Touch “Delete Previous Dest.”.
4. Touch the button you want to delete.
   “Select All”: To select all previous destinations in the system.
   “Unselect All”: To unselect all previous destinations in the system.
5. Touch “Delete”.
6. To delete the destination, touch "Yes". To cancel the deletion, touch "No".

Lexus Enform with Safety Connect—Overview

Lexus Enform and Safety Connect are subscription-based telematics services that use Global Positioning System (GPS) data, embedded cellular technology and XM® satellite data services to provide safety and security as well as convenience features to subscribers.

Lexus Enform and Safety Connect services are supported by Lexus’ designated response center, which operates 24 hours per day, 7 days per week.

Lexus Enform service is available by subscription on select, telematics hardware-equipped vehicles.

With an active Lexus Enform subscription, the following features are available:

- **Safety Connect features** (See your vehicle Owner’s Manual, Section 3 for details.)
  - Automatic collision notification*¹
  - Stolen vehicle location
  - Emergency assistance button (SOS)
  - Enhanced roadside assistance
- **Destination Assist** (See page 133.)
- **eDestination** (See page 136.)
- **XM® Sports and Stocks***²
  (See page 139.)
- **XM NavWeather***³ (See page 144.)
- **XM® NavTraffic***³ (See page 149.)

The following navigation-based Lexus Enform features are available without a subscription:

- **Lexus Insider** (See page 151.)
- **Voice Command** (See page 42.)

*¹: U.S. Patent No. 7,508,298 B2
*²: Available at no extra charge with an active XM® satellite radio subscription.
*³: Available via separate XM® subscription(s).
Subscription
After you have signed the Telematics Subscription Service Agreement and are enrolled, you can begin receiving services. A variety of subscription terms is available for purchase. Contact your Lexus dealer, call 1−800−25−LEXUS (1−800−255−3987), or touch the "Destination Assist" button (See page 133.) in your vehicle for further subscription details.

XM NavTraffic and XM NavWeather™ require separate XM subscription(s). XM Sports and Stocks is available with an XM Satellite Radio subscription. After a 90−day free trial, you must set up the appropriate XM subscription(s) to continue receiving these services.

Activation of service(s)
Enrollment in Lexus Enform with Safety Connect (via your dealership) is required to activate all Enform services. To receive XM NavTraffic, XM NavWeather™, and XM Sports and Stocks services, the XM service must be activated. To activate the service, call the XM Listener Care Center at 1−877−515−3987.

Availability of service(s)
Lexus Enform premium services Destination Assist and eDestination will function in the contiguous 48 states and D.C. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States.

Lexus Insider and XM services will function in the contiguous 48 states and Canada. They will not function in Hawaii, Alaska, or countries outside of the U.S other than Canada.

The XM NavTraffic, XM NavWeather™, and XM Sports and Stocks services are available in the contiguous 48 U.S. states and Canada. For details about the XM service coverage areas, refer to www.xmradio.com or call XM Listener Care Center at 1−877−515−3987.

NOTE
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC WARNING
Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.
Exposure to radio frequency signals:
The Lexus Enform with Safety Connect system installed in your vehicle is a low power radio transmitter and receiver. The system receives and also sends out radio frequency (RF) signals.

In August 1996, the Federal Communications Commission (FCC) adopted RF exposure guidelines with safety levels for mobile wireless phones. Those guidelines are consistent with the safety standards previously set by both U.S. and international standards bodies.

- ICNIRP (International Commission on Non-Ionizing Radiation Protection) [1996]

Those standards were based on comprehensive and periodic evaluations of the relevant scientific literature. Over 120 scientists, engineers, and physicians from universities, government health agencies, and industry reviewed the available body of research to develop the ANSI Standard (C95.1).

The design of Lexus Enform with Safety Connect complies with the FCC guidelines in addition to those standards.

Available beginning Fall 2009 on select Lexus models. Contact with the Lexus Enform response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data, and GPS satellite signal reception, which can limit the ability to reach the response center or receive support. Enrollment and Telematics Subscription Service Agreement required. A variety of subscription terms is available; charges vary by subscription term selected.

- The Lexus Enform response center will offer support in multiple languages.
- Select Lexus Enform–subscribed vehicles are capable of communicating vehicle information, triggering owner reminder notifications.
- Owners who do not wish to have their vehicle transmit this information can opt out of the service at the time of enrollment or by calling 1–800–255–3987 and follow the prompt for Safety Connect/Lexus Enform.
- For further details about the service, contact your Lexus dealer.
- Lexus Enform with Safety Connect services are not subject to section 255 of the Telecommunications Act and the device is not TTY compatible.
Destination Assist

Destination Assist provides you with live assistance for finding destinations via the Lexus Enform response center. You can request either a specific business, address, or ask for help locating your desired destination by category, such as restaurants, gas stations, shopping centers or other points of interest (POI).

After you tell the agent your choice of destination, its coordinates are sent wirelessly to your vehicle’s navigation system.

1. Push the “DEST” button.

2. Touch “Destination Assist”.

“Destination Assist” screen is displayed on the screen.

3. Touch “Call Dest. Assist” to contact an agent.
4. When an agent comes on the line, tell the agent the address, business name, or the type of POI or service you would like to locate.

To adjust the call volume, touch “–” or “+” on the “Destination Assist” screen, or use the volume switch on the steering wheel during the call.

You can end the call at any time by touching the “Disconnect” button on the “Destination Assist” screen or the steering-wheel phone on-hook (hang-up) switch.

After the agent helps you determine your location of choice, he or she will place you on hold briefly and wirelessly send the POI to your vehicle’s navigation system. The agent will then instruct you to either touch “Go to” or “Enter” on the navigation screen in order to save the destination. The agent will then end the call.

5. Touch “Go to” or “Enter” to set the location as a destination, receive navigation guidance via your navigation system and to save the destination to Destination Assist folder for future reference.

- **Destination Assist History**
  Locations you receive via Destination Assist will be saved to the navigation system.
  Up to 100 destinations can be stored in the Destination Assist history.
  1. Push the “DEST” button.
  2. Touch “Destination Assist” on the “Destination” screen.
  3. Touch “Dest. Assist History”.
  4. Select the desired location in order to display its data and be able to set it as a destination.

  Touch “Sort” to sort the locations by either date or name.

- **DELETE DESTINATION ASSIST HISTORY**
  You can delete destinations from your history.
  2. Touch the individual destination you would like to delete or “Select All”.
  3. Touch “Delete” on the screen.
**eDestination**

With the eDestination feature, you can go online, via the Lexus.com owner’s Web site, to select and organize destinations of your choice and then wirelessly send them to your vehicle’s navigation system. You can store up to 200 locations online to access and update at any time.

Your locations can be organized into up to 20 personalized folders.

You must first go online at www.lexus.com and go to the “Owners” section where you will need to register and log in. After this, you can create your personalized folders containing the locations you wish to send to your vehicle. (See Lexus Enform Guide for more information.)

**Download eDestinations**

After updating your eDestination folders online, you will need to download the information to update the data in the vehicle.

1. Push the “DEST” button.

2. Touch “Point of Interest”.

3. Touch “eDestination”.

“eDestination” screen is displayed on the screen.
When "Yes" is touched, your most recent online eDestination data will be loaded to the navigation system.
The POI will be shown on the map. You can touch the “Go to” button to set the POI as a destination with route directions. You can also touch the “Info.” button to display more information about the POI.

“Mark”: To mark the POI on the navigation map.

“Go to”: To set the POI as a destination with route directions.

“Detail”: To read the POI notes you entered online, if any.

1. Touch “Show on Map”.

2. Touch “eDest. Icons”.

“eDest. Icons” indicator is highlighted.
XM® Sports and Stocks

XM® Sports and Stocks is a service included with XM® satellite radio subscriptions for Lexus Enform vehicles. With this service, you can receive updates via the navigation system on your personally selected sports teams and stocks.

1. Push the “INFO/PHONE” button.

2. Touch “XM Sports” or “XM Stocks”. “XM Sports” or “XM Stocks” screen is displayed on the screen.

The following operations can be performed.

(a) XM Sports
- Receive sports information (See page 140.)
- XM Sports settings (See page 140.)

(b) XM Stocks
- Receive stock data (See page 142.)
- XM Stocks settings (See page 143.)
(a) XM Sports
You must first add your desired teams prior to receiving information. (See page 141.)

- Receive sports information
  1. Push the “INFO/PHONE” button.

3. Touch the desired team for which you would like to receive information.
   Teams for which there is no current data available will be shaded out and you will not be able to select them.

4. Touch the specific information you would like to receive or touch “Read All” to receive all available information for that team.
   The selected information will be read in its entirety.

- XM Sports settings — Add or delete teams
To input your personalized XM Sports team.
  1. Push the “INFO/PHONE” button.

3. Touch “Options”.

Please refer to the following pages for each setting.
You can also input your personalized XM Sports team from the “Setup” screen. (See “Other settings” on page 184.)
ADD SPORTS TEAM

1. Touch “Add Sports Team”.
Up to 5 teams can be added and saved in the system for which you will receive information. You can change your teams at any time. Teams must be added one at a time.

2. Touch the sporting league of the team you would like to enter.

3. Touch the name of the team you would like to add from the list that appears.

4. Touch “Yes” to confirm or “No” to cancel.
DELETE SPORTS TEAMS

(b) XM Stocks
You must first add your desired stocks prior to receiving data. (See page 143.)

1. Touch “Delete Sports Teams”.
2. Touch the sports team that you would like to delete or touch “Select All” to delete all teams.
3. Touch “Delete”.
4. Touch “Yes” to confirm or “No” to cancel.
- **XM Stocks settings — Add or delete stocks**
  To input your personalized XM Stocks settings.
  1. Push the “INFO/PHONE” button.
  2. Touch “XM Stocks” on the “Information” screen.

ADD STOCK

1. Touch “Add Stock”.

   **Add Stock Symbol**

   Enter a stock symbol

   ![Stock Symbols](symbol_image)

   A-Z Other Space

2. Input the stock symbol you would like to add.

3. When finished, touch “OK” to enter.

You can enter and save up to 10 individual stock symbols for which you would like to receive data. Stocks must be input one at a time. You must know the symbol of the stock you wish to enter.

Please refer to the following pages for each setting.
You can also input your personalized XM Stocks settings from the “Setup” screen. (See “Other settings” on page 184.)
DELETE STOCKS

1. Touch “Delete Stocks”.
2. Touch the stock you would like to delete or touch “Select All”.
3. Touch “Delete”.
4. Touch “Yes” to confirm or “No” to cancel.

The subscription-based XM NavWeather service allows the navigation system to display weather information on the map. See page 131 for subscription information. The following operations can be performed.

- Show XM NavWeather™ information
  Weather forecast information is displayed on the map. (See page 145.)
- Weather information
  Weather information for the selected city is displayed. (See page 147.)
- Weather warnings
  Weather warnings issued within an approximately 15.5 miles (25 km) radius around the vehicle are displayed on the warning screen. (See page 148.)
Show XM NavWeather™ information

1. Push the “INFO/PHONE” button.

2. Touch “XM NavWeather”.

“XM NavWeather” screen is displayed on the screen.

XM NavWeather™ SCREEN

1 “Info.” button
When the city icon button is touched, the “Info.” button will be displayed on the screen. Touching this button displays the “Forecast” screen. (See page 147.)

2 City icon
When this button is touched, city names and the “Info.” button will be displayed on the upper part of the screen.

3 “Forecast” button
When this button is touched, the city selection screen will be displayed.

Touch a city to display weather information. Weather information of the selected city will be displayed. (See page 147.)
LEXUS ENFORM WITH SAFETY CONNECT

4 “Current Location” button
When the “Current Location” button is touched, a map of the vehicle’s current location will be displayed.

5 Zoom in/out button
The scale of the map can be changed. Three zoom levels can be selected; 16 miles (26 km), 30 miles (48 km) and 60 miles (97 km).

6 Weather icons and grids
Inclement weather information is displayed on the map using weather icons and grids. Touching an icon shows the related information at the top of the screen.

Weather information

- Received time
- City name
- Today's date
- Current weather
- Current temperature
- Today's weather
- Tomorrow's weather
- Day after tomorrow's weather
- Observed time
- Specified day's weather

When this button is touched, weather information for a specified day will be displayed.
**Weather warnings**

Weather warnings issued within a 15.5 miles (25 km) radius from the vehicle are displayed on the warning screen.

**Show Map**: When this button is touched, the “XM NavWeather” screen will be displayed.

**OK**: When this button is touched, the screen will return to the map of the current location.

This severe weather warning will display again if the severe weather is within an approximate 7.8 miles (12.5 km) radius around the vehicle.

**XM NavWeather™ indicator**

When an XM NavWeather™ Warning is issued within the vicinity, the XM NavWeather™ indicator will appear on the screen.
XM® NavTraffic

The subscription-based XM® NavTraffic service allows the navigation system to display traffic information on the map. See page 131 for subscription information. The following operations can be performed.

- **Show XM® NavTraffic Information**
  Traffic information is displayed on the map. (See page 149.)

- **Auto Avoid Traffic**
  If any heavy congestion or moderate traffic has been detected on the guidance route, it may be possible for you to select another route offered by the system. (See page 173.)

- **Traffic Voice Guidance**
  Traffic information is provided using voice guidance. (See page 168.)

- **Show Free Flowing Traffic**
  Freely flowing traffic is shown by the arrow on the map. (See page 174.)

**INFORMATION**

- Traffic voice guidance is available only in English. To select English, see “Selecting a language” on page 161.

- When the “Traffic Information” indicator is dimmed, “Auto Avoid Traffic”, “Traffic Voice Guidance” and “Show Free Flowing Traffic” will not operate.
LEXUS ENFORM WITH SAFETY CONNECT

XM\textsuperscript{\textregistered} NavTraffic information is displayed on the map.

1  XM\textsuperscript{\textregistered} NavTraffic icon
When any traffic information has been received, the XM\textsuperscript{\textregistered} NavTraffic icon will appear on the map screen. Touching the XM\textsuperscript{\textregistered} NavTraffic icon on the screen will start voice guidance for the traffic information. (See page 37.)

INFORMATION
When the XM\textsuperscript{\textregistered} NavTraffic icon is selected, voice guidance for the traffic information will start even if “Off” for “Traffic Voice Guidance” is selected.

2  XM\textsuperscript{\textregistered} NavTraffic information arrow
When any XM\textsuperscript{\textregistered} NavTraffic information has been received, the XM\textsuperscript{\textregistered} NavTraffic information arrow will appear on the map screen. The color of the arrow changes depending on the traffic information received.
“Orange”: Heavy congestion
“Yellow”: Moderate traffic
“Green”: Freely flowing traffic
**3** XM® NavTraffic indicator

When any XM® NavTraffic information has been received, the XM® NavTraffic indicator will appear on the screen. The color of the indicator changes depending on the traffic information received.

“White”: Traffic information has been received.

“Yellow”: Traffic restriction information on the guidance route has been received (screen button ∗).

“Orange”: Congestion information on the guidance route has been received (screen button ∗).

*: Touching the XM® NavTraffic indicator will start voice guidance.

---

**Lexus Insider**

Lexus Insider is an optional service that can send audio messages, or articles, to participating owners’ vehicles via the navigation system. Potential Lexus Insider subjects might include, for example, Lexus vehicle technology tips, updates on regional Lexus events, or audio excerpts from Lexus Magazine articles. Up to 20 articles can be stored at a time.

You may opt out of receiving Lexus Insider messages at any time. (See page 154.)
LEXUS ENFORM WITH SAFETY CONNECT

- View and play received Lexus Insider messages

1. Push the “INFO/PHONE” button.

2. Touch “LEXUS Insider”.

   “LEXUS Insider” screen is displayed on the screen.

3. Touch the desired article title from the Lexus Insider menu to play that broadcast or touch “Read All” to listen to all stored Lexus Insider broadcasts.

   To disrupt the audio read of Lexus Insider, push the “MODE” switch on the steering wheel or push the “AM·FM”, “SAT”, “DISC” or “AUX·USB” button on the audio system.
Icons appear at the left of the Lexus Insider story titles and indicate the following:

<table>
<thead>
<tr>
<th>Icon</th>
<th>Article</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Unread Article Icon" /></td>
<td>Unread article</td>
</tr>
<tr>
<td><img src="image" alt="Previously Read Article Icon" /></td>
<td>Previously read article</td>
</tr>
<tr>
<td><img src="image" alt="Article with Downloadable POI Icon" /></td>
<td>Article with downloadable Point of Interest (POI)</td>
</tr>
</tbody>
</table>

Some Lexus Insider stories will contain a downloadable POI relevant to the content. If it contains a POI, you can touch “Enter” to download it to the navigation system.

You can touch the “Go to” button to set the POI as a destination with route directions.

After selecting an individual article, you can then touch “Next Article” or “Previous Article” to listen to another article.

You can also use the “▲” or “▼” switch on the steering wheel to move to the previous or next article.
DELETE LEXUS INSIDER ARTICLE

1. Touch “Delete” on the “LEXUS Insider” screen.

2. Touch the individual article title that you would like to delete or “Select All”.

3. Touch “Delete” on the screen.

- **New article notification**
  When the vehicle is first powered on and a new Lexus Insider article is available, a notification will appear on the navigation screen.
  The notice will appear for only approximately 6 seconds unless you choose one of the options listed.

  When the new article notification appears, you can select any of the following options.
  - **“Listen Now”**: Plays newly received Lexus Insider article(s).
  - **“Ignore”**: Removes notification screen without playing new articles.
  - **“Remind Me Later”**: Removes notification screen without playing articles. Notification will be displayed again when the vehicle is next powered on.
Lexus Insider settings
To change Lexus Insider settings, notification, and opt in or out of article receipt.

1. Push the “SETUP” button.

2. Touch “Other”.

3. Touch “LEXUS Insider”.
“LEXUS Insider Settings” screen is displayed on the screen.
RECEIVE/OPT OUT OF LEXUS INSIDER

1. Touch “Receive LEXUS Insider”.
2. Touch “Yes” to receive Lexus Insider articles or “No” to opt out of receiving articles.
3. Touch “Save”.

NEW ARTICLE NOTIFICATION

Automatic notification of new Lexus Insider articles is available and is the default setting.

1. Touch “New Article Notification”.
2. Touch “On” or “Off”.
3. Touch “Save”.

LEXUS ENFORM WITH SAFETY CONNECT
RESTORE THE DEFAULT LEXUS INSIDER SETTINGS

1. Touch “Default”.

2. Touch “Yes” to confirm or “No” to cancel.

5. Touch “Save”.

• Delete personal data
The following personal data can be deleted or returned to their default settings:
• Maintenance conditions
• Maintenance information “off” setting
• Address book
• Areas to avoid
• Previous points
• Route guidance
• Route trace
• Phonebook data
• Call history data
• Speed dial data
• Voice tag data
• Bluetooth® phone data
• Phone volume setting
• Details phone setting
This function is available only when the vehicle is not moving.

INFORMATION
This function is available only in English or Spanish. To switch language, see “Selecting a language” on page 161.
SETUP

1. Push the “SETUP” button.
2. Touch “General” on the “Setup” screen.
3. Touch “Delete Personal Data”.
4. Touch “Delete”.
5. Touch “Yes”.

Clock settings

Used for changing time zones and the on/off settings of daylight saving time.

1. Push the “SETUP” button.
2. Touch “Clock”.
3. Touch the items to be set.
4. Touch “Save”.

Used for changing time zones and the on/off settings of daylight saving time.
### SCREEN FOR CLOCK SETTINGS

<td>When &quot;Auto Adjust Clock&quot; is turned &quot;Off&quot;, the clock can be manually adjusted. (See &quot;● Manual clock setting&quot; on page 166.)</td>
</tr>
</tbody>
</table>

- **Time zone**
  - A time zone can be selected and GMT can be set.
  1. Push the "SETUP" button.
  2. Touch "Clock" on the "Setup" screen.

#### Time Zone

1. Push the “SETUP” button.
2. Touch “Clock” on the “Setup” screen.

3. Touch “Time Zone”.

4. Touch the desired time zone.
   - If you touch “Other”, adjust the zone manually.

5. Touch “OK”.

---

[C0068 Time zone]
A time zone can be selected and GMT can be set.

1. Push the “SETUP” button.
2. Touch “Clock” on the “Setup” screen.

3. Touch “Time Zone”.

4. Touch the desired time zone.
   - If you touch “Other”, adjust the zone manually.

5. Touch “OK”.

---

[C0068 Manual clock setting]
When “Auto Adjust Clock” is turned “Off”, the clock can be manually adjusted. (See “● Manual clock setting” on page 166.)

---

[C0068 Other time zone]
If you touch “Other”, adjust the zone manually.
SETUP

- **Manual clock setting**
  When “Auto Adjust Clock” is turned “Off”, the clock can be manually adjusted.
  1. **Push the “SETUP” button.**
  2. **Touch “Clock” on the “Setup” screen.**

**Hours “+”, “−”:** Touch “+” to set the time forward one hour and “−” to set the time back one hour.

**Minutes “+”, “−”:** Touch “+” to set the time forward one minute and “−” to set the time back one minute.

**Minutes “:00”:** Rounds to the nearest hour*.

*: e.g. 1:00 to 1:29 → 1:00
     1:30 to 1:59 → 2:00

3. **Touch “Save”.**

---

**Voice settings**

Voice guidance can be set.

1. **Push the “SETUP” button.**

2. **Touch “Voice”.**

3. **Touch the items to be set.**

4. **Touch “Save”.**
On this screen, the following functions can be performed.

</tr>
<tr>
<td>7</td>
<td>When using the XM NavWeather function, the severe weather warning can be set to “On” or “Off”.</td>
</tr>
<tr>
<td>8</td>
<td>Voice guidance projection can be set to the “Center” position or the “Driver” position. (See “Voice guidance speaker” on page 169.)</td>
</tr>
</tbody>
</table>
Voice volume
The voice guidance volume can be adjusted or switched off.
1. Push the “SETUP” button.
2. Touch “Voice” on the “Setup” screen.
3. Select the desired level by touching the number.
   If voice guidance is not needed, touch “Off” to disable the feature.
   When selected, the number or “Off” will be highlighted.
4. Touch “Save”.

Traffic voice guidance
You can receive congestion information through voice guidance while being guided to your destination.
To turn the “Traffic Voice Guidance” on:
1. Push the “SETUP” button.
2. Touch “Voice” on the “Setup” screen.
4. Touch “Save”.

In the “Traffic Information” indicator is dimmed, “Auto Avoid Traffic”, “Traffic Voice Guidance” and “Show Free Flowing Traffic” will not operate.

INFORMATION
This function is available only in English. To select English, see “Selecting a language” on page 161.
Voice guidance speaker
The projection position of voice guidance can be adjusted.
1. Push the “SETUP” button.
2. Touch “Voice” on the “Setup” screen.
3. Touch “Voice Guidance Speaker”.
4. Touch “Center” or “Driver”.
5. Touch “Save”.

Navigation settings
Points or areas on the map can be registered.

<tr>
<td>8</td>
<td>The current vehicle position mark can be adjusted manually. Miscalculation of the distance caused by tire replacement can also be adjusted. (See “Current position/tire change calibration” on page 176.)</td>
</tr>
<tr>
<td>9</td>
<td>Display of pop-up information can be set to “On” or “Off”. (See “Pop-up information” on page 178.)</td>
</tr>
</tbody>
</table>
Driving speeds
The speed that is used for the calculation of the estimated travel time and the estimated arrival time can be set.

1. Push the “SETUP” button.
4. Touch “Driving Speeds”.
5. Touch or to set the average vehicle speeds for “Residential”, “Main Streets”, and “Freeways”.
   To set the default speeds, touch “Default”.
6. After setting of the desired speeds is completed, touch “Save”.

INFORMATION
- The displayed time to the destination is the approximate driving time that is calculated based on the selected speeds and the actual position along the guidance route.
- The time shown on the screen may vary greatly depending on progress along the route, which may be affected by conditions such as traffic jams and construction work.
- It is possible to display up to 99 hours 59 minutes.
• Auto avoid traffic

The guidance route automatically changes to another route to avoid heavy congestion.

To turn the “Auto Avoid Traffic” on:

1. Push the “SETUP” button.
4. Touch “On” of the “Auto Avoid Traffic”.
5. Touch “Save”.

When congestion information about the guidance route has been received, a screen will appear to ask you whether to reroute to avoid the congestion.

If you wish to reroute, touch “Yes”. Another route to allow you to avoid the congestion will appear.

If you do not wish to reroute, touch “No”.

INFORMATION

When the “Traffic Information” indicator is dimmed, “Auto Avoid Traffic”, “Traffic Voice Guidance” and “Show Free Flowing Traffic” will not operate.

• Show free flowing traffic
Freely flowing traffic is shown with the arrow.
To turn the "Show Free Flowing Traffic" on:
1. Push the "SETUP" button.
4. Touch “On” of the “Show Free Flowing Traffic”.
5. Touch “Save”.

• POI category change
(Select POI icons)
Select from among the 6 icons displayed on the “Customize POI Icons” screen, so that setting of the icons to be displayed on the map screen can be done easily.
1. Push the “SETUP” button.
4. Touch “Customize POI Icons”.
5. Touch the category button to be changed.

INFORMATION
When the “Traffic Information” indicator is dimmed, “Auto Avoid Traffic”, “Traffic Voice Guidance” and “Show Free Flowing Traffic” will not operate.

174
6. Touch the desired group.
If the desired POI category is not on the screen, touch “List All Categories” to list all POI categories.

7. Touch the desired category.
8. Touch “OK”.

● Screen layout function ("Off" function)
Each screen buttons and current street name on the map screen can be displayed or hidden.

1. Push the “SETUP” button.
4. Touch “"Off" Function”.
5. Touch the button to be turned off. The button becomes dimmed.
   To set the default, touch “Default”.
6. Touch “Save”.
SETUP

- Current position/tire change calibration
  The current vehicle position mark can be adjusted manually. Miscalculation of the distance caused by tire replacement can also be adjusted.
  1. Push the “SETUP” button.
  4. Touch “Calibration”.
  5. Touch the desired button.

INFORMATION
For additional information on the accuracy of a current vehicle position, see “Limitations of the navigation system” on page 186.

POSITION/DIRECTION CALIBRATION
When driving, the current vehicle position mark will be automatically corrected by GPS signals. If GPS reception is poor due to location, you can manually adjust the current vehicle position mark.

1. Touch “Position / Direction”.
2. Touch the 8 directional button to move the cursor ☐ to the desired point on the map.
3. Touch “OK”.

176
4. Touch either the or to adjust the direction of the current vehicle position mark.
5. Touch “OK”. The map will be displayed.

TIRE CHANGE CALIBRATION
The tire change calibration function will be used when replacing the tires. This function will adjust the miscalculation caused by the circumference difference between the old and new tires. If this procedure is not performed when the tires are replaced, the current vehicle position mark may be incorrectly displayed.

To perform a distance calibration procedure, touch “Tire Change” on the “Calibration” screen.
The message appears and the quick distance calibration is automatically started. A few seconds later, a map will be displayed.
• Pop-up information
When the “Pop-up information” is turned on, the pop-up information will be displayed.

1. Push the “SETUP” button.
4. Touch “Pop-up Information”.
5. Touch “On” or “Off”.
6. Touch “Save”.

When the “Pop-up Information” is turned off, the following messages will not be displayed.

This message appears when the system is in the POI mode and the map scale is over 0.5 miles (800m).

This message appears when the map is switched to the dual map screen mode.
Vehicle settings — Maintenance

When the navigation system is turned on, the “Information” screen displays when it is time to replace a part or certain components. (See page 25.)

1. Push the “SETUP” button.

2. Touch “Vehicle”.

3. Touch “Maintenance”.

- Setting maintenance information (See page 180.)
- Setting dealer (See page 181.)
(a) Maintenance information setting
1. Push the “SETUP” button.
2. Touch “Vehicle” on the “Setup” screen.
4. Touch the desired button.

For details of each button, see “INFORMATION ITEMS” on page 180.

“Delete All”: To cancel all conditions which have been inputted.

“Reset All”: To reset the item which has satisfied a condition.

“Set Dealer”: To register dealer information. (See “(b) Dealer setting” on page 181.)

“Dealer Info.”: To edit dealer information. (See “(b) Dealer setting” on page 181.)

“Reminder”: When this button is touched, the indicator is illuminated. The system is set to give maintenance information with the “Information” screen. (See page 25.)

When the vehicle needs to be serviced, the button color will change to orange.

INFORMATION ITEMS

“Engine oil”: Replace engine oil
“Oil filter”: Replace engine oil filter
“Rotation”: Rotate tires
“Tires”: Replace tires
“Battery”: Replace 12 volt battery
“Brake pad”: Replace brake linings
“Wipers”: Replace wiper blades
“Coolant”: Replace engine coolant
“Brake oil”: Replace brake fluid
“Trans. fluid”: Replace transmission fluid
“Service”: Scheduled maintenance
“Air filter”: Replace air filter
“Personal”: New information items can be created separately from provided ones.
5. Input the conditions.
   “Date”: The next maintenance date can be input.
   “Distance”: The driving distance until the next maintenance check can be input.
   “Delete”: To cancel the date and distance conditions.
   “Reset”: To reset the date and distance conditions.
6. Touch “OK”.  
The screen then returns to the “Maintenance” screen.

(b) Dealer setting
It is possible to register a dealer in the system. With dealer information registered, route guidance to the dealer is available.

1. Push the “SETUP” button.
2. Touch “Vehicle” on the “Setup” screen.
4. Touch “Set Dealer”.
5. If the dealer has not been registered, enter the location of the dealer in the same way as for a destination search. 
(See “Destination search” on page 60.) 
When “Set Dealer” registration is finished, the “Dealer” screen will be displayed.

INFORMATION
- For scheduled maintenance information, please refer to the “Warranty and Services Guide/Owner’s Manual Supplement/Scheduled Maintenance”.
- Depending on driving or road conditions, the actual date and distance may differ from the stored date and distance in the system.
6. Touch “Edit” for the item you want to change.
   “Dealer”: To enter the name of a dealer. (See page 182.)
   “Contact”: To enter the name of a dealer member. (See page 182.)
   “Location”: To set a location. (See page 183.)
   “Phone #”: To set a telephone number. (See page 183.)
   “Delete Dealer”: To delete the dealer information displayed on the screen.
   “Enter ☑”: To set the displayed dealer as a destination. (See “Starting route guidance” on page 81.)

   To edit “Dealer” or “Contact”

1. Touch “Edit” of “Dealer” or “Contact”.
2. Enter the name using the alphanumeric keys.
   Up to 32 characters can be entered.
3. Touch “OK”.
   The previous screen will be displayed.
• To edit “Location”

1. Touch “Edit” of “Location”.
2. Touch the 8 directional button to move the cursor to the desired point on the map.
3. Touch “OK”.
   The previous screen will be displayed.

• To edit “Phone #” (telephone number)

1. Touch “Edit” of “Phone #”.
2. Enter the number using number keys.
3. Touch “OK”.
   The previous screen will be displayed.
**SETUP**

**Other settings**

Used for changing settings for Lexus Insider and XM® Sports and Stocks.

1. Push the “SETUP” button.

2. Touch “Other”.

On this screen, the following functions can be performed.

APPENDIX

SECTION 8

APPENDIX

- Limitations of the navigation system .................. 186
- Map database information and updates .................. 188
Limitations of the navigation system

This navigation system calculates the current vehicle position using satellite signals, various vehicle signals, map data, etc. However, the accurate position may not be shown depending on the satellite condition, road configuration, vehicle condition or other circumstances.

The Global Positioning System (GPS) developed and operated by the U.S. Department of Defense provides an accurate current vehicle position, normally using 4 or more satellites, and in some cases 3 satellites. The GPS system has a certain level of inaccuracy. While the navigation system will compensate for this most of the time, occasional positioning errors of up to 300 feet (100 m) can and should be expected. Generally, position errors will be corrected within a few seconds.

When your vehicle is receiving signals from the satellites, the “GPS” mark appears at the top left of the screen.

The GPS signal may be physically obstructed, leading to inaccurate vehicle position on the map display. Tunnels, tall buildings, trucks, or even the placement of objects on the instrument panel may obstruct the GPS signals.

The GPS satellites may not send signals due to repairs or improvements being made to them.

Even when the navigation system is receiving clear GPS signals, the vehicle position may not be shown accurately or inappropriate route guidance may occur in some cases.

NOTICE

The installation of window tinting may obstruct the GPS signals. Most window tinting contains some metallic content that will interfere with GPS signal reception of the antenna in the instrument panel. We advise against the use of window tinting on vehicles equipped with navigation systems.
(a) Accurate current vehicle position may not be shown in the following cases:
- When driving on a small angled Y-shaped road.
- When driving on a winding road.
- When driving on a slippery road such as in sand, gravel, snow, etc.
- When driving on a long straight road.
- When motorway and surface streets run in parallel.
- After moving by ferry or vehicle carrier.
- When a long route is searched during high speed driving.
- When driving without setting the current position calibration correctly.
- After repeating a change of direction by going forward and backward, or turning on a turntable in the parking lot.
- When leaving a covered parking lot or parking garage.
- When a roof carrier is installed.
- When driving with tire chains installed.
- When the tires are worn.
- After replacing a tire or tires.
- When using tires that are smaller or larger than the factory specifications.
- When the tire pressure in any of the four tires is not correct.

(b) Inappropriate route guidance may occur in the following cases:
- When turning at an intersection off the designated route guidance.
- If you set more than one destination but skip any of them, auto reroute will display a route returning to the destination on the previous route.
- When turning at an intersection for which there is no route guidance.
- When passing through an intersection for which there is no route guidance.
- During auto reroute, the route guidance may not be available for the next turn to the right or left.
- It may take a long time to operate auto reroute during high speed driving. In auto reroute, a detour route may be shown.
- After auto reroute, the route may not be changed.
- An unnecessary U-turn may be shown or announced.
- A location may have multiple names and the system will announce one or more.
- Some routes may not be searched.
- If the route to your destination includes gravel, unpaved roads or alleys, the route guidance may not be shown.
- Your destination point might be shown on the opposite side of the street.
- When a portion of the route has regulations prohibiting the entry of the vehicle that vary by time or season or other reasons.
- The road and map data stored in your navigation system may not be complete or may not be the latest version.

**INFORMATION**

If your vehicle cannot receive GPS signals, you can correct the current position manually. For information on setting the current position calibration, see page 176.
After replacing a tire, implement the operation described in the "TIRE CHANGE CALIBRATION". (See page 177.)

This navigation system uses tire turning data and is designed to work with factory-specified tires for your vehicle. Installing tires that are larger or smaller than the originally equipped diameter may cause inaccurate display of the vehicle’s position. The tire pressure also affects the diameter of the tires so please make sure the tire pressure of all four tires is correct.
END USER LICENSE AGREEMENT

PLEASE READ THIS AGREEMENT CAREFULLY BEFORE USING THE NAVIGATION SYSTEM

THIS IS A LICENSE AGREEMENT FOR YOUR COPY OF THE SPATIAL MAP DATABASE, INCLUDING LOCATION CODES AND RELATED PRODUCTS (COLLECTIVELY, THE “DATABASE”), USED IN THE NAVIGATION SYSTEM. BY USING THE NAVIGATION SYSTEM AND THE DATABASE, YOU ACCEPT AND AGREE TO BE BOUND BY ALL TERMS AND CONDITIONS SET FORTH BELOW.

LICENSE GRANT
DENSO CORPORATION (“DENSO”), as a licensed distributor of the DATABASE, grants to you a non-exclusive, non-perpetual license to use your copy of the DATABASE for your personal use or for your use in your business’ internal operations and not for any other purpose. This license does not include the right to grant sub-licenses.

OWNERSHIP
The DATABASE and the copyrights and intellectual property and neighboring rights therein are owned by Tele Atlas North America, Inc. (“TANA”) and its licensors. This Agreement does not transfer any title or interest in the DATABASE, except for the license to use the DATABASE according and subject to the terms and conditions of this Agreement. You shall not alter, obscure or remove any copyright notices, trademark notices or other restrictive legends relating to the DATABASE.

The DATABASE comprises confidential and proprietary information and materials of TANA. Accordingly, you shall hold the DATABASE in confidence and trust. You shall take reasonable steps to protect the DATABASE from misappropriation or misuse. You shall not extract stand-alone data from or publish any part of the DATABASE without the prior written consent of TANA and its licensors.

LIMITATIONS ON USE
The DATABASE is restricted for use in the specific system for which it was created. Except to the extent explicitly permitted by mandatory laws, you may not extract or reutilize any portion of the contents of the DATABASE, nor reproduce, copy, duplicate, modify, adapt, translate, disassemble, decompile, or reverse engineer any portion of the DATABASE.

TRANSFER
You may not transfer the DATABASE to third parties, except together with the system for which it was created, provided that you do not retain any copy of the DATABASE, and provided that the transferee agrees to all terms and conditions of this AGREEMENT.
DISCLAIMER OF WARRANTY

THE DATABASE IS PROVIDED ON AN "AS IS" AND "WITH ALL FAULTS BASIS" AND DENSO AND TANA (AND THEIR LICENSORS AND SUPPLIERS) EXPRESSLY DISCLAIM ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF NON-INFRINGEMENT, MERCHANTABILITY, SATISFACTORY QUALITY, ACCURACY, TITLE AND FITNESS FOR A PARTICULAR PURPOSE. NO ORAL OR WRITTEN ADVICE OR INFORMATION PROVIDED BY DENSO OR TANA (OR ANY OF THEIR LICENSORS, AGENTS, EMPLOYEES OR THIRD PARTY PROVIDERS) SHALL CREATE A WARRANTY, AND YOU ARE NOT ENTITLED TO RELY ON ANY SUCH ADVICE OR INFORMATION. THIS DISCLAIMER OF WARRANTIES IS AN ESSENTIAL CONDITION OF THIS AGREEMENT.

LIMITATION OF LIABILITY

IN NO EVENT SHALL DENSO OR TANA (OR THEIR LICENSORS OR SUPPLIERS) BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL, SPECIAL, INDIRECT OR EXEMPLARY DAMAGES ARISING OUT OF THIS AGREEMENT OR YOUR USE OF THE DATABASE, INCLUDING, WITHOUT LIMITATION, LOST PROFITS OR COSTS OF COVER, LOSS OF USE OR BUSINESS INTERRUPTION OR THE LIKE, REGARDLESS OF WHETHER THE PARTY WAS ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN NO EVENT WILL THE TOTAL LIABILITY OF DENSO OR TANA (OR THEIR LICENSORS OR SUPPLIERS) EXCEED THE AMOUNTS PAID BY YOU FOR THE DATABASE.

WARNINGS

The DATABASE comprises facts and information from government and other sources reflecting circumstances in existence before you received the DATABASE, which may contain errors and omissions. Accordingly, the DATABASE may contain inaccurate or incomplete information due to the passage of time, changing circumstances, and due to the nature of the sources used. The DATABASE does not include or reflect information relating to, among other things, neighborhood safety; law enforcement; emergency assistance; construction work; road or lane closures; vehicle or speed restrictions; road slope or grade; bridge height, weight or other limits; road or traffic conditions; special events; traffic congestion; or travel time.
U.S. GOVERNMENT RIGHTS

If you are an agency, department, or other entity of the United States Government, or funded in whole or in part by the United States Government, then use, duplication, reproduction, release, modification, disclosure or transfer of this commercial product and accompanying documentation, is restricted in accordance with the LIMITED or RESTRICTED rights as described in DFARS 252.227–7014(a)(1) (JUN 1995) (DOD commercial computer software definition), DFARS 227.7202–1 (DOD policy on commercial computer software), FAR 52.227–19 (JUN 1987) (commercial computer software clause for civilian agencies), DFARS 252.227–7015 (NOV 1995) (DOD technical data – commercial items clause); FAR 52.227–14 Alternates I, II, and III (JUN 1987) (civilian agency technical data and noncommercial computer software clause); and/or FAR 12.211 and FAR 12.212 (commercial item acquisitions), as applicable. In case of conflict between any of the FAR and DFARS provisions listed herein and this Agreement, the construction that provides greater limitations on the Government’s rights shall control.

Contractor/manufacturer is Tele Atlas North America, Inc., 11 Lafayette Street, Lebanon, NH 03766–1445. Phone: 603.643.0330. The DATABASE is ©1984–2009 by Tele Atlas North America, Inc. ALL RIGHTS RESERVED. For purpose of any public disclosure provision under any federal, state or local law, it is agreed that the DATABASE is a trade secret and a proprietary commercial product and not subject to disclosure.
END USER TERMS
The data ("Data") is provided for your personal, internal use only and not for resale. It is protected by copyright, and is subject to the following terms and conditions which are agreed to by you, on the one hand, and DENSO CORPORATION ("DENSO") and its licensors (including their licensors and suppliers) on the other hand.

© 2008 NAVTEQ. All rights reserved.
The Data for areas of Canada includes information taken with permission from Canadian authorities, including: © Her Majesty the Queen in Right of Canada, Queen’s Printer for Ontario, © Canada Post Corporation, GeoBase®.

NAVTEQ holds a non−exclusive license from the United States Postal Service® to publish and sell ZIP+4® information.

©United States Postal Service® 2008. Prices are not established, controlled or approved by the United States Postal Service®. The following trademarks and registrations are owned by the USPS: United States Postal Service, USPS, and ZIP+4.

TERMS AND CONDITIONS
Personal Use Only. You agree to use this Data together with vehicle navigation system for the solely personal, non−commercial purposes for which you were licensed, and not for service bureau, time−sharing or other similar purposes. Accordingly, but subject to the restrictions set forth in the following paragraphs, you may copy this Data only as necessary for your personal use to (i) view it, and (ii) save it, provided that you do not remove any copyright notices that appear and do not modify the Data in any way. You agree not to otherwise reproduce, copy, modify, decompile, disassemble or reverse engineer any portion of this Data, and may not transfer or distribute it in any form, for any purpose, except to the extent permitted by mandatory laws. Multi−disc sets may only be transferred or sold as a complete set as provided by DENSO and not as a subset thereof.
Restrictions. Except where you have been specifically licensed to do so by DENSO, and without limiting the preceding paragraph, you may not (a) use this Data with any products, systems, or applications installed or otherwise connected to or in communication with vehicles, capable of vehicle navigation, positioning, dispatch, real time route guidance, fleet management or similar applications; or (b) with or in communication with any positioning devices or any mobile or wireless–connected electronic or computer devices, including without limitation cellular phones, palmtop and handheld computers, pagers, and personal digital assistants or PDAs.

Warning. The Data may contain inaccurate or incomplete information due to the passage of time, changing circumstances, sources used and the nature of collecting comprehensive geographic data, any of which may lead to incorrect results.

No Warranty. This Data is provided to you "as is," and you agree to use it at your own risk. DENSO and its licensors (and their licensors and suppliers) make no guarantees, representations or warranties of any kind, express or implied, arising by law or otherwise, including but not limited to, content, quality, accuracy, completeness, effectiveness, reliability, fitness for a particular purpose, usefulness, use or results to be obtained from this Data, or that the Data or server will be uninterrupted or error–free.

Disclaimer of Warranty: DENSO AND ITS LICENSORS (INCLUDING THEIR LICENSORS AND SUPPLIERS) DISCLAIM ANY WARRANTIES, EXPRESS OR IMPLIED, OF QUALITY, PERFORMANCE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT. Some States, Territories and Countries do not allow certain warranty exclusions, so to that extent the above exclusion may not apply to you.

Disclaimer of Liability: DENSO AND ITS LICENSORS (INCLUDING THEIR LICENSORS AND SUPPLIERS) SHALL NOT BE LIABLE TO YOU: IN RESPECT OF ANY CLAIM, DEMAND OR ACTION, IRRESPECTIVE OF THE NATURE OF THE CAUSE OF THE CLAIM, DEMAND OR ACTION ALLEGING ANY LOSS, INJURY OR DAMAGES, DIRECT OR INDIRECT, WHICH MAY RESULT FROM THE USE OR POSSESSION OF THE INFORMATION; OR FOR ANY LOSS OF PROFIT, REVENUE, CONTRACTS OR SAVINGS, OR ANY OTHER DIRECT, INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF YOUR USE OF OR INABILITY TO USE THIS INFORMATION, ANY DEFECT IN THE INFORMATION, OR THE BREACH OF THESE TERMS OR CONDITIONS, WHETHER IN AN ACTION IN CONTRACT OR TORT OR BASED ON A WARRANTY, EVEN IF DENSO OR ITS LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. Some States, Territories and Countries do not allow certain liability exclusions or damages limitations, so to that extent the above may not apply to you.
Export Control. You agree not to export from anywhere any part of the Data provided to you or any direct product thereof except in compliance with, and with all licenses and approvals required under, applicable export laws, rules and regulations.

Entire Agreement. These terms and conditions constitute the entire agreement between DENSO (and its licensors, including their licensors and suppliers) and you pertaining to the subject matter hereof, and supersedes in their entirety any and all written or oral agreements previously existing between us with respect to such subject matter.

Governing Law. The above terms and conditions shall be governed by the laws of the State of Illinois, without giving effect to (i) its conflict of laws provisions, or (ii) the United Nations Convention for Contracts for the International Sale of Goods, which is explicitly excluded. You agree to submit to the jurisdiction of the State of Illinois for any and all disputes, claims and actions arising from or in connection with the Data provided to you hereunder.

Government End Users. If the Data is being acquired by or on behalf of the United States government or any other entity seeking or applying rights similar to those customarily claimed by the United States government, this Data is a "commercial item" as that term is defined at 48 C.F.R. (“FAR”) 2.101, is licensed in accordance with these End–User Terms, and each copy of Data delivered or otherwise furnished shall be marked and embedded as appropriate with the following "Notice of Use", and shall be treated in accordance with such Notice:

NOTICE OF USE
CONTRACTOR (MANUFACTURER/SUPPLIER) NAME: NAVTEQ
CONTRACTOR (MANUFACTURER/SUPPLIER) ADDRESS: 425 West Randolph Street, Chicago, Illinois 60606

This Data is a commercial item as defined in FAR 2.101 and is subject to these End–User Terms under which this Data was provided.

©2008 NAVTEQ – All rights reserved.

If the Contracting Officer, federal government agency, or any federal official refuses to use the legend provided herein, the Contracting Officer, federal government agency, or any federal official must notify NAVTEQ prior to seeking additional or alternative rights in the Data.
END USER NOTICE

PLEASE READ THIS NOTICE CAREFULLY BEFORE USING THIS NAVIGATION SYSTEM

The Point Of Interest Data ("POI" Data) in the navigation system is in part provided by infoUSA Inc. ("infoUSA"). By using the POI Data, you accept and agree to all terms and conditions set forth below.

1. Ownership

All rights, title and interest to the infoUSA POI Data shall be retained by infoUSA.

2. Limitations on use

Except to the extent explicitly permitted by mandatory laws, you may not extract or re-utilize any portion of the contents of the POI Data, nor reproduce, copy, modify, adapt, translate, disassemble, decompile, or reverse engineer any portion of the POI Data.

3. Transfer

You may not transfer the POI Data to third parties, except together with the system for which it was created, provided that you do not retain any copy of the POI Data.

4. Disclaimer of warranty

EXCEPT AS STATED HEREIN, INFOUSA MAKES NO EXPRESS OR IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, ANY EXPRESS OR IMPLIED WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE OR WARRANTY OF MERCHANTABILITY.

5. Limitation of liability

EITHER INFOUSA OR SUPPLIER OF POI DATA SHALL NOT BE LIABLE FOR ANY INDIRECT, CONSEQUENTIAL OR INCIDENTAL DAMAGES MADE OR ALLEGED IN CONNECTION WITH YOUR USE OF THE POI DATA.

END USER LICENSE AGREEMENT

Personal Use Only. You agree to use this information for solely personal, non-commercial purposes, and not for service bureau, time-sharing or other similar purposes. You may not modify the information or remove any copyright notices that appear on the information in any way. You may not decompile, disassemble or reverse engineer any portion of this information, and may not transfer or distribute it in any form, for any purpose. Without limiting the foregoing, you may not use this information with any products, systems, or applications installed or otherwise connected to or in communication with vehicles, capable of vehicle navigation, positioning, dispatch, real time route guidance, fleet management or similar applications.

No Warranty. This information is provided to you “as is,” and you agree to use it at your own risk. DENSO and its licensors (and their licensors and suppliers, collectively "DENSO") make no guarantees, representations or warranties of any kind, express or implied, arising by law or otherwise, including but not limited to, and DENSO expressly disclaims any warranties regarding content, quality, accuracy, completeness, effectiveness, reliability, fitness for a particular purpose, non-infringement, usefulness, use or results to be obtained from this information, or that the information or server will be uninterrupted or error-free. Some states, territories and countries do not allow certain warranty exclusions, so to that extent, the above exclusion may not apply to you.
Disclaimer of Liability: DENSO SHALL NOT BE LIABLE TO YOU FOR ANY CLAIM, DEMAND OR ACTION, IRRESPECTIVE OF ITS NATURE, ALLEGING ANY LOSS, INJURY OR DAMAGES, WHETHER DIRECT, INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES, INCLUDING ANY LOSS OF PROFIT, REVENUE OR CONTRACTS ARISING OUT OF YOUR POSSESSION, USE OF OR INABILITY TO USE THIS INFORMATION, ANY DEFECT IN THE INFORMATION, OR THE BREACH OF THESE TERMS OR CONDITIONS, WHETHER IN AN ACTION IN CONTRACT OR TORT OR BASED ON A WARRANTY, EVEN IF DENSO OR ITS LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. Some states, territories and countries do not allow certain liability exclusions or damages limitations, so to that extent the above may not apply to you.

Indemnity: You agree to indemnify, defend and hold DENSO and its licensors (including their respective licensors, suppliers, assignees, subsidiaries, affiliated companies, and the respective officers, directors, employees, shareholders, agents and representatives of each of them) free and harmless from and against any liability, loss, injury (including injuries resulting in death), demand, action, cost, expense, or claim of any kind or character, including but not limited to attorney’s fees, arising out of or in connection with any use or possession by you of this information.

END USER NOTICE

The marks of companies displayed by this product to indicate business locations are the marks of their respective owners. The use of such marks in this product does not imply any sponsorship, approval, or endorsement by such companies of this product.

There are two types of areas available for route guidance. In one type of area, primarily around metropolitan centers, detailed route guidance is available for the entire area. In the other type of area, all roads are displayed on the map but route guidance is limited. The navigation route might lack precision because the data (no right turns, one-way traffic, etc.) is not complete. It is still possible to reach the destination by following the arrow direction and distance as shown on the bottom left of the screen. The arrow points in the direction of the destination. The distance shown is as measured in a straight line from the current vehicle position to the destination area.

In order to provide you with as accurate map information as possible, we are always gathering information such as on road repairs and carrying out on-site investigations. However, the names of roads, streets, facilities, and their locations frequently change. In some places, construction on roads may be in progress. For that reason, information on some areas in this system might be different from the actual location.

The map database is normally updated once a year. Contact your Lexus dealer for information about the availability and pricing of an update.
To confirm the database version and map coverage area

1. Push the “INFO/PHONE” button.

2. Touch “Map Data”.

- Certification
For vehicles sold in Canada.

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. This Category II radiocommunication device complies with Industry Canada Standard RSS–310.

L'utilisation de ce dispositif est autorisée seulement aux deux conditions suivantes: (1) il ne doit pas produire de brouillage, et (2) l'utilisateur du dispositif doit être prêt à accepter tout brouillage radioélectrique reçu, même si ce brouillage est susceptible de compromettre le fonctionnement du dispositif. Ce dispositif de radiocommunication de catégorie II respecte la norme CNR–310 d'Industrie Canada.

Make sure the version of the database on this screen.
To display the disc coverage area, touch “Map Data Coverage”. Confirm the covered area on the screen.
Contact your Lexus dealer to find out if there is a more recent update released.
For navigation system function, please also refer to the “Navigation system function index” on page 16.
